Our toolkit for project management

What is project management?	4
How exactly does this work?	5
Phase 1: Start the project	7
Phase 2: Examine the project	11
Phase 3: Plan the project	19
Phase 4: Put the project into action	24
Phase 5: Finalise the project	26
One, two, three, many – how do we organise ourselves as a team?	30
What else do you have to know?	32
How do others find out about the project?	33

Phase 1: Start the project

- Become a team
- Define the parameters
- Discuss the way you want to work
- Formulate the goals

PITCHES

Phase 2: Examine the project

- Where are obstacles?
- Who will support us?
- Which resources do we need:
 - money, time, people, material,...?
- (How) is our plan realisable?

Phase 3: Plan the project

- Who works with whom?
- Set up a timetable
- Approach partners
- Write plans
- Share out tasks

Groupwork: Gantt chart and Stakeholder Analysis

- Which steps follow on from others?
- When can the steps be implemented?
- Who is relevant for these steps?
- Plan in buffers.

Project plan

Reflection

- How did you work together in the group?
- What was the most discussed step/topic?
- Which aspect of your project could not be visualized?

Phase 4: Put the project into action

- Just do it

Phase 5: Finalise the project

- Celebrate!
- Document!
- Say thank you!
- Present it!
- Give Feedback!

Auf dem WW wird Jugendbe nicht nur verm sondern auch ge Daher freue ich m nur, Globales Lern und Jugendbeteil zusammenzuden sondern durch den Workshop mit ande Akteur*innen geme diese Herausforde angehen zu könne
