^a This expected result may need to be adjusted depending on the outcome of ongoing negotiations related to Article 6 of the Paris Agreement. Should the relevant decisions be adopted at CMA 2, the related resources would be allocated to supporting the oversight of their implementation. For the budget it was assumed that the currently open items on methodological issues related to the CDM (LULUCF, forests in exhaustion, and review of modalities and procedures) and the Convention mechanisms (framework for various approaches, new market-based mechanism and non-market-based approaches under decision 1/CP.18) will be finalized in 2019 and that agenda items on these matters will not be needed in the biennium 2020–2021. However, should these items remain open for consideration by Parties in the biennium, they would need to be funded through the CDM Trust Fund or supplementary funding, respectively.

^b Fundraising for these activities will not commence until the relevant CMA decisions have been adopted.
