MEDIA & INSIGHTS

WE INVEST IN BOLD TECHNOLOGY STARTUPS SOLVING THE ASIA PACIFIC'S BIGGEST UNSOLVED PROBLEMS!

We provide seed, early and early-growth stage capital to startups with solutions for emerging Asia.

WE PAIR CAPITAL WITH ADB'S DEEP INSIGHTS AND NETWORKS TO HELP BUILD NEW MARKET LEADERS.

Examples of ADB Ventures portfolio companies helping SMEs adapt to climate change

SATSURE

HQ: India

Key Markets: Southeast Asia, India

Sector: Fintech

Sat Sure's data analytics platform combines satellite technology and operational data to enable financial institutions to optimize credit decision making in the agricultural sector. Increased access to financial services including insurance products help MSMEs and farmers to adapt to climate change.

FAIRBANC

HQ: Indonesia

Key Markets: Indonesia, Philippines

Sector: Fintech

Fairbanc partners with FMCG distributors to offer digital microcredit to MSMEs for inventory purchases. Fairbanc's data science and machine learning platform leverages FMCG supply-chain data to enable partners to extend working capital to MSME suppliers with limited credit history and collateral.

E GREEN GLOBAL

HQ: Republic of Korea

Key Markets: Southeast Asia, China

Sector: Agritech

EGG has built the world's first mass production platform for commercializing high-quality virus-free potato microtubers (MCT). The MCT result in higher yields and income for agricultural SMEs and farmers thereby increasing their climate resilience.

ADB Ventures approach to deploying and scaling these technologies

INVEST

ADBV Equity Fund: \$60m

Typically \$500k to \$3mn (up to \$4mn) venture capital to scale commercialization of climate impact technologies

Patient risk capital for early-stage technology companies contributing to climate impact

Executed 7 investments totaling \$11 million

SEED

ADBV SEED: \$ 5m

Up to \$200k funding attached to future investment rights to pilot deployment of climate impact technologies in emerging markets

Rapid testing and validation of climate impact technology solutions in emerging markets

Funded 17 SEEDs totaling \$2 million

CONNECT

ADBV Labs

Leverage ADB's public and private sector networks to connect climate impact startups with large local early adopters

De-risk and accelerate market entry for climate impact technology solutions

Implemented 3 Labs generating 14 pilots and 5 commercial partnerships
