6th December, 2019

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority
ISO 9001:2015 Certified in Aviation Meteorological Services

Introduction

- In the current changing Climate there is an increased demand for actionable climate information and tools to inform decision making
- NMHSs need up to date information on available resources to help develop their capacities
- Enhancing Capacity of NMHSs should happen in for Key areas: **Institutional, Infrastructural, Procedural and Human Resource**

Tanzania Case: Climate change has impacted several socio-economic sectors

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority
ISO 9001:2015 Certified in Aviation Meteorological Services

Strategic interventions

- ❑ The government through development partners is implementing different Projects that focuses on developing adaptation strategies and plans that are mainstreamed into all socioeconomic activities
- ❑ One of such projects is the GFCS APA
 - ✓ This is the multi-agency joined effort programme that is implemented under the umbrella of GFCS
 - ✓ The main aim of the programme is to enhance resilience of most vulnerable communities to the adverse impacts of climate change through promoting effective use of climate services

United Republic of Tanzania

Ministry of Works, Transport and Communication

Tanzania Meteorological Authority

ISO 9001:2015 Certified in Aviation Meteorological Services

THE NATIONAL FRAMEWORK FOR CLIMATE

SERVICES (NFCS)

- ❑ Political will (TANDREC, TADMAC)
- ✓ Involvement of all key stakeholders
- ✓ Identification of specific Needs

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority

Launching of the NFCS

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority
ISO 9001:2015 Certified in Aviation Meteorological Services

Combined effort in the implementation of the NFCS

- ❑ There is enhanced institutional collaboration in the implementation of the National Framework for Climate Services

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority
ISO 9001:2015 Certified in Aviation Meteorological Services

Strategy for implementation of the NFCS

- Key issues highlighted in the strategy
 - . Enhanced Capacity of TMA (Act. Na. 2 of 2019)
 - Provision of quality services
 - availability of climate data (improving infrastructure)
 - Skilled and professionals to provide quality services
 - . Enhanced capacity of users for the uptake of climate services
 - . Involvement of Development Partners (Available Policies on PPP)

United Republic of Tanzania

Ministry of Works, Transport and Communication

Tanzania Meteorological Authority

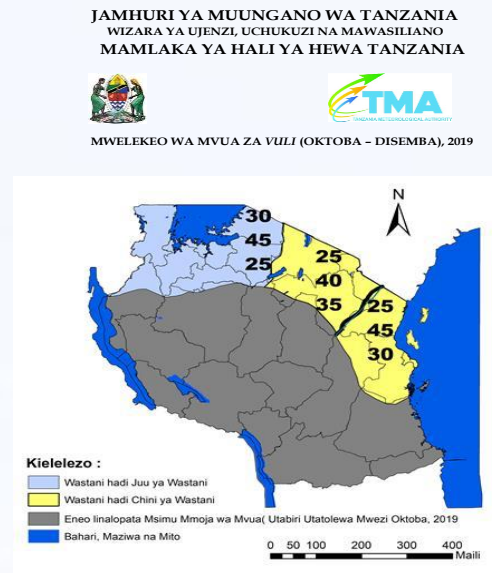

ISO 9001:2015 Certified in Aviation Meteorological Services

Benefits of Implementing the NFCS

❑ Enhanced Climate Services.

The provision of location and sector specific climate information has been improved

Enhance capacity in observations and monitoring of climate systems

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority
ISO 9001:2015 Certified in Aviation Meteorological Services

Enhance capacity in developing, packaging and communicating weather and climate information

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority
ISO 9001:2015 Certified in Aviation Meteorological Services

Enhanced capacity of stakeholders in understanding and use of climate information and products

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority
ISO 9001:2015 Certified in Aviation Meteorological Services

Enhanced understanding of climate risks and vulnerability associated with climate-related hazards

United Republic of Tanzania
Ministry of Works, Transport and Communication

Tanzania Meteorological Authority
ISO 9001:2015 Certified in Aviation Meteorological Services

THANK YOU FOR YOUR ATTENTION
