BRUNEI CLIMATE CHANGE SECRETARIAT

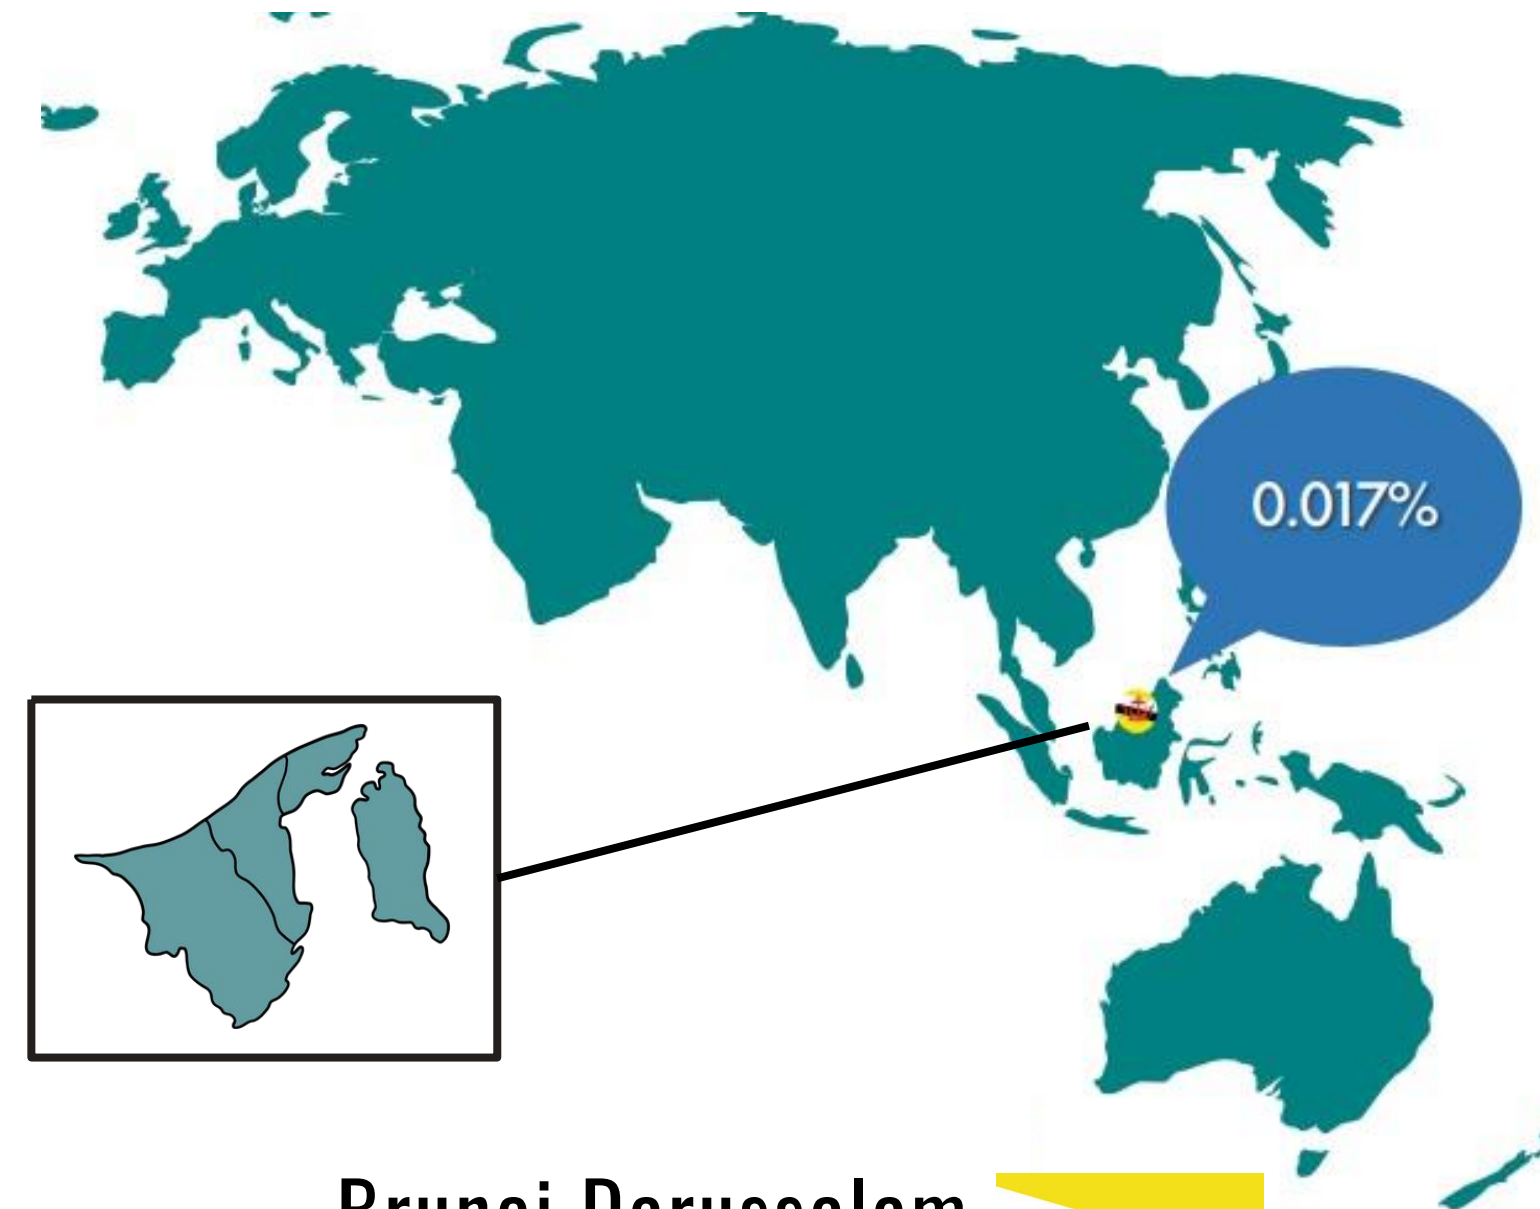

NATIONAL ADAPTATION PLAN (NAP)

Current progress and potential technical support / assistance

BRUNEI DARUSSALAM ONLY CONTRIBUTES 0.017% TO THE GLOBAL GREENHOUSE GAS EMISSIONS

Despite its low contribution, Brunei Darussalam, a small coastal nation with abundant forest cover on Borneo Island acknowledges the need to scale up its adaptation efforts. Adaptation measures go beyond addressing climate change impacts and are vital for building resilience against significant risks especially severe weather events such as storms, flooding, forest fires and rising sea levels considering the key economic hubs and settlements are mainly located along the coast.

Paving its way towards achieving a Low Carbon & Climate-Resilient Brunei Darussalam, ten (10) Strategies have been identified in the Brunei Darussalam National Climate Change Policy (BNCCP) by the Brunei Darussalam Climate Change Secretariat (BCCS) including a key focus strategy on ADAPTATION AND RESILIENCE

Brunei Darussalam
ASEAN Member State

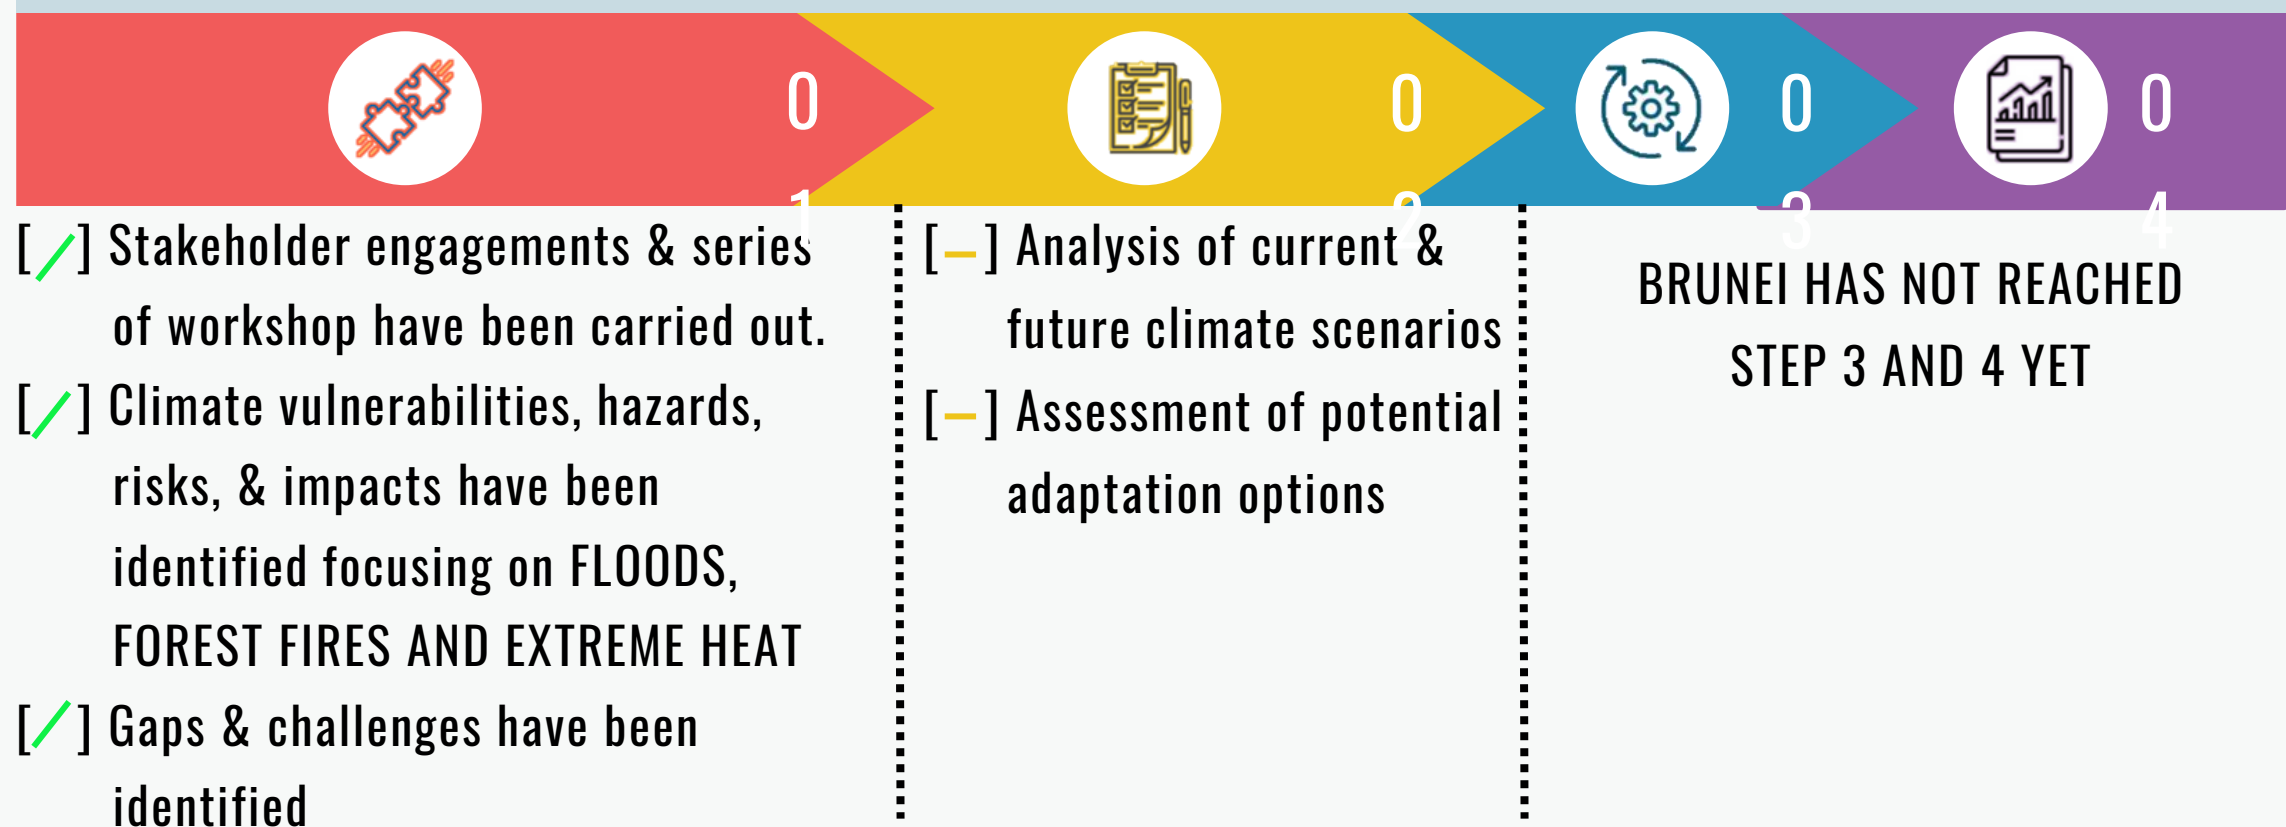

\$31.904 Billion (145th,2022) | GDP (PPP)
\$74,196 (9th,2022) | GDP Per Capita (PPP)
5,765 Sq. Km | Total Land Area
445,400 Persons | Population
(Note: in USD)

BRUNEI DARUSSALAM LAYING THE GROUNDWORK IN ITS NATIONAL ADAPTATION PLAN PROCESS

Minister of Primary Resources and Tourism and Member of the Brunei Darussalam National Council on Climate Change, HON. Dato Seri Setia Dr. Haji Abdul Manaf bin Haji Metussin, represented the Brunei Government at the High-Level Segment of the UNFCCC COP27 where he emphasized Brunei's commitment in enhancing adaptation measures and resilience and is currently developing a National Adaptation Plan to coordinate efforts towards becoming a climate-resilient and adaptive nation.

CURRENT PROGRESS

*UNFCCC NAP Technical Guidelines for LDC

NATIONAL ADAPTATION PROJECTS: PAVING THE WAY TOWARDS CLIMATE RESILIENCE

INFRASTRUCTURE DEVELOPMENT EFFORTS

BRUNEI ALLOCATED \$16 MILLION USD (22 MILLION BND) TO ENHANCE ROAD CONNECTIONS AND ACCESSIBILITY FOR FLOOD-AFFECTED COMMUNITIES, ENSURING SAFE RELOCATION AND IMPROVING RESIDENTS' WELL-BEING THROUGH COLLABORATION WITH STAKEHOLDERS TO MAXIMIZE THE IMPACT OF THE FUNDS

COASTAL PROTECTION EFFORTS

Danau Beach, Tutong

Tanjung Batu Beach, Muara

RIVER ADAPTION EFFORTS

Widening and deepening of major rivers

Drainage pump infrastructure to improve river flow.

FOREST FIRES MANAGEMENT

THE BRUNEI FIRE AND RESCUE DEPARTMENT COLLABORATES WITH RELEVANT AGENCIES TO COORDINATE FOREST FIRE MANAGEMENT. SOME EXAMPLES INCLUDE CREATING FIRE BREAKS, CONDUCTING AWARENESS CAMPAIGNS FOR COMMUNITY INVOLVEMENT IN FIRE PREVENTION, SAFETY AND EARLY DETECTION

NAVIGATING THE NAP PROCESS TO BRIDGE IDENTIFIED GAPS IN CLIMATE ADAPTATION

DATA MANAGEMENT

- Limited accessibility
- Data quality and reliability
- Modelling uncertainties

TECHNICAL CAPACITY

- Lack of Experts
- Insufficient Training
- Limited access to information

ALIGNMENT ON GLOBAL EFFORTS ON ADAPTATION

- GGA is still being developed
- Equity

EXPLORING OPPORTUNITIES FOR COLLABORATION, TECHNICAL ASSISTANCE, AND SUPPORT TO FURTHER ENHANCE NAP EFFORTS

Guidance Document and Implementation Manual

Access to relevant technical documents and manual

Capacity Building Opportunities

Training and capacity building for NAP development. Knowledge sharing from parties on success stories, lessons learnt etc

Formulation and Development

Engaging technical experts to facilitate workshop on NAP process, formulation and roadmap development

RECAP

- BRUNEI DARUSSALAM CONTRIBUTES TOWARDS ONLY 0.017% OF THE GLOBAL GREENHOUSE GAS EMISSIONS
- BRUNEI DARUSSALAM LAYING THE GROUNDWORK IN ITS NATIONAL ADAPTATION PLAN PROCESS
- NATIONAL ADAPTATION PROJECTS: PAVING THE WAY TOWARDS CLIMATE RESILIENCE
- NAVIGATING THE NAP PROCESS TO ADDRESS IDENTIFIED GAPS
- EXPLORING OPPORTUNITIES FOR COLLABORATION, TECHNICAL ASSISTANCE, AND SUPPORT TO FURTHER ENHANCE NAP EFFORTS
