

**NOT
WITHOUT
US**

is an international
group of **feminist
climate activists**
from all around
the globe

demanding that local
and international
climate action must
consider **our** stories
and solutions.

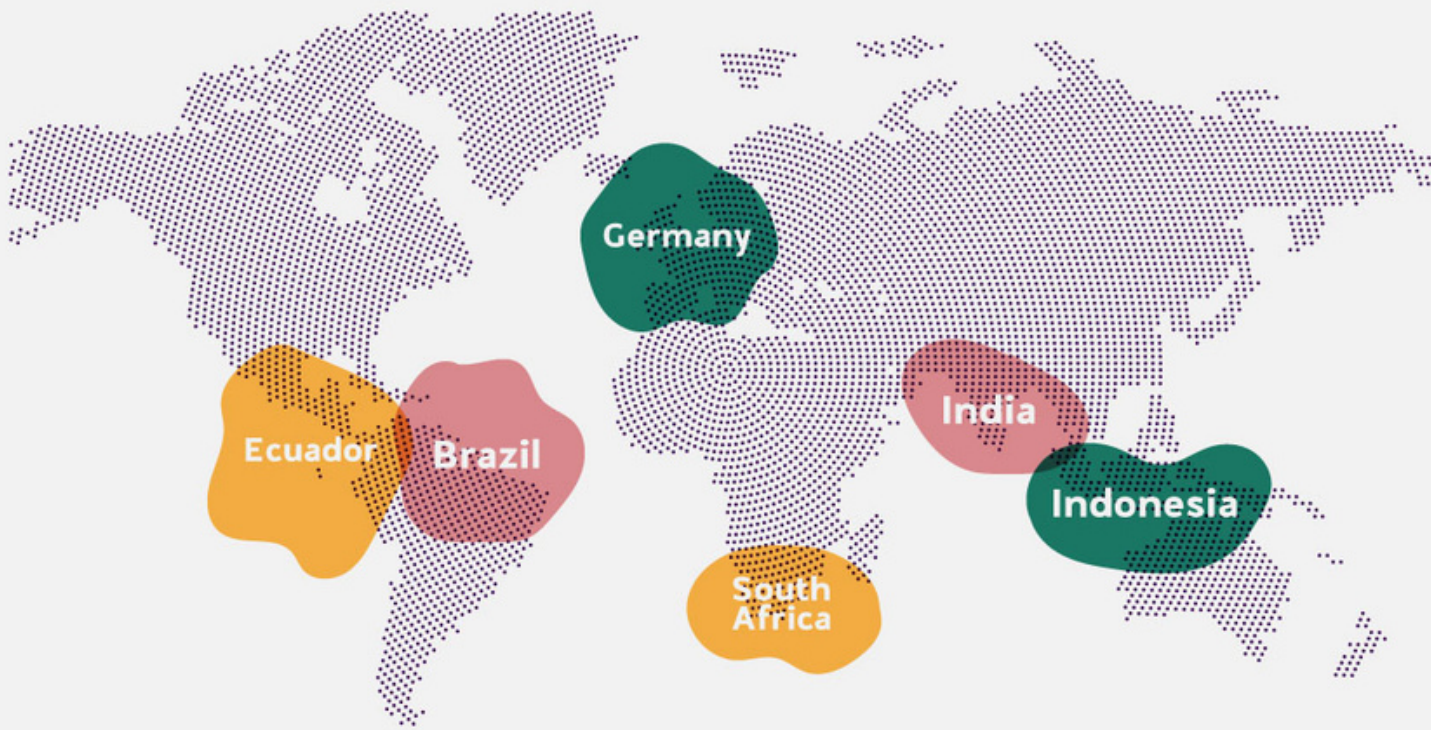

[MEDIUM.COM/NOTWITHOUTUS](https://medium.com/notwithoutus)

Different countries,
different stories,
different perspectives.

We are a group of
eight feminist
climate activists

What we share is the desire
for a **better world**, where gender
equality, climate justice and human
rights are **everyone's right**.

Since 2017, we work to make
gender equality a fundamental principle
of international climate politics and a
reality within our climate
collectives.

We share **knowledge**,
personal and **collective**
stories on our fights for
climate and gender
justice.

This has been an empowering way to
learn with each other and build
collective power and solidarity.
