

ADDRESSING GENDER VULNERABILITIES IN CLIMATE CHANGE ACROSS THE CARIBBEAN REGION: THE ENGENDER NEXUS

GENDER-BASED CLIMATE RESILIENCE ANALYSIS:

Expanded the application of gender analysis across the project countries for more equitable distribution of opportunities and resources among women, men, PWD and vulnerable groups.

GENDER INEQUALITY AND COST OF INACTION:

Undertook studies in gender inequality and the cost & impact of inaction so project countries can readily identify the necessary entry points for interventions which can be most impactful for vulnerable groups.

OFFER OF COMPLEMENTARY FUNDING (OCF):

Accelerating the closure of existing climate financing gaps, by leveraging sustainable and diverse sources of climate finance to enhance gender responsive climate change adaptation and mitigation efforts across the project countries.

GENDER AND NATIONALLY DETERMINED CONTRIBUTIONS (NDCs):

Supporting the integration of gender responsive approaches into the NDCs processes, policies, and programming to ensure that national policies related to climate change specifically addresses the needs of the most vulnerable to ensure that no one is left behind.

GENDER RESPONSIVE BUDGETED (GRB) SECTORAL ADAPTATION STRATEGIES AND ACTION PLANS (SASAP):

Applied gender responsive approaches to the implementation of adaptation actions, with the focus on targeted results and robust monitoring and evaluation frameworks to ensure gender responsive benefits among the most vulnerable groups of the Caribbean population.

GENDER RESPONSIVE BEHAVIOURAL CHANGE:

Facilitating behavioural change to improve gender responsiveness and rights based approaches in national decision making processes across the climate change and disaster recovery framework.

THE GENDER, NDC AND CLIMATE CHANGE TRAINING CLINICS:

Strengthening the technical capacities of climate change and gender practitioners in country, the impact of which is the implementation of climate change actions that are more inclusive and sustainable as well as enhance South-South cooperation on gender and climate change across the Caribbean region.

NATIONAL MECHANISM FOR DECISION MAKING (NMDM):

Established innovative governance mechanisms at national level that facilitates inter-sector dialogue on the inclusion of human rights approaches at the policy level to support effective decision making.

COVID-19 RESPONSE ACTIVITIES

Provided critical income support, essential goods and services as well as gender based violence support services and assistance to address the needs of the most vulnerable communities during the onset of the COVID-19 pandemic.

The EnGenDER Project is a UNDP, USD 15.3 million Project which is being implemented in nine (9) Caribbean countries with funding support provided by the Government of Canada and the UK Government. For more information on EnGenDER please feel free to visit the [EnGenDER](#) webpage.
