

MAKING JUST TRANSITION HAPPEN

Our vision of the BAM

Core Functions

- **Coordination and Coherence**
- **Knowledge Generation**
- **International Cooperation & Support**

Governance & Modalities

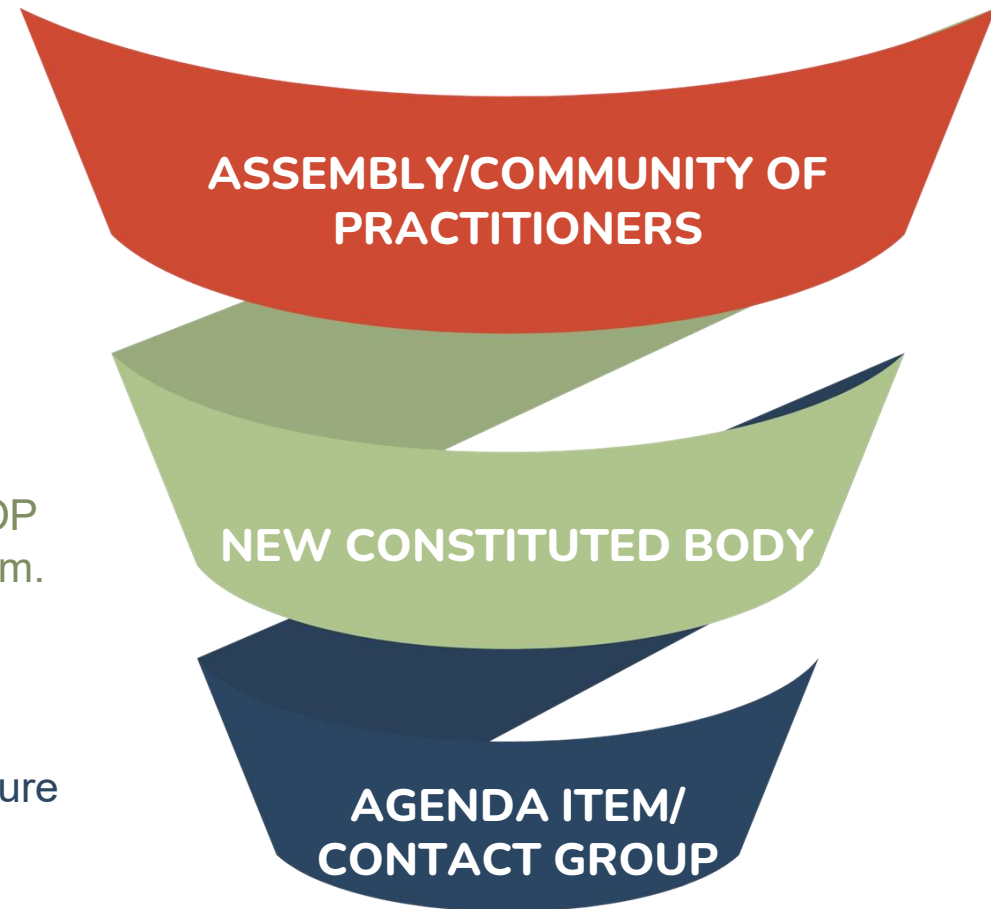

Inclusive forum bringing together all those implementing or supporting JT strategies, inc communities, workers, IP

Shares practices, surfaces on-the-ground needs, and feeds operational insights directly into the new constituted body.

Body with balanced representation (developed countries, developing countries, and non-party stakeholders)

Creates/Prioritizes workstreams, identifies issues ripe for COP negotiation, and provides strategic direction to the mechanism.

A permanent agenda item to filter issues emerging from the new constituted body, determining which are sufficiently mature to build policy-level convergence at COPs.

What must be won at COP31?

- Establish the mechanism and confirm its purpose and scope, building on past Just Transition decisions at COP28 and COP30.
- Define its core functions, including supporting the provision of finance for Just Transition.
- Provide initial guidance on governance and ways of working, covering the aforementioned layers.
- Mandate secretariat support.
- Establish a process to accelerate the pace of technical work and quickly prepare draft decisions for adoption as a package by COP32. Parties could learn from both the positive and negative experiences of the Transitional Committee for the Fund to Respond to Loss and Damage
