# GREEN SCHOOLS PROJECT

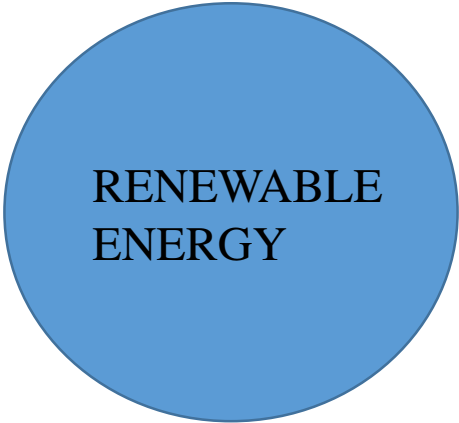

(Nature based solutions)

## **WHY GREEN SCHOOLS PROJECT?**

- ❖ Green Schools Project transforms the attitudes & behaviours of schools towards the environment.
- ❖ The project facilitates fun student-led environmental solutions with guides and resources.
- ❖ Students develop valuable skills in communication, social entrepreneurship, leadership and problem solving.

ORGANIC  
GARDENING

RENEWABLE  
ENERGY

RECYCLING

## **MILESTONES**

❖ **renewable energy & recycling sessions**

❖ **organic gardening**

❖ **1,000 trees planted in schools**

## **EXPECTED IMPACT**

- Reducing carbon emissions by protecting the natural habitat and improving air quality.
- Improved sustainability literacy among schools; leveraging on interdisciplinary instructional practices.
- Reduced food insecurity and its accompanying health implications in schools.
- An empowered generation of social entrepreneurs & intrapreneurs.

info@ecowillowgh.com

## **MEDIUM TERM VISION**

- ✦ Expand the project to every school at the Northern belt of Ghana.

## **LONG TERM VISION**

- ✦ Replicate the project across Ghana and Africa.

## **SUPPORT NEEDED**

The project is self sustainable on a small scale but in order to quickly scale up impact and fulfill the above visions, we need;

- Strategic mentorship in high level carbon asset development.
- Grants to support project implementation.

**THANK YOU!**
