

Elaborated possible elements of decision 1/CP.25

- **Importance of multilateralism**
 - Acknowledge the importance of multilateralism in addressing the global climate emergency
- **Recognition of the 25th anniversary of the Convention**
 - Acknowledge the work undertaken in the UNFCCC process over the past 25 years
- **Urgency of climate action**
 - Reiterate the urgency of addressing the significant gap between the aggregate effect of Parties' efforts and emission pathways as expressed in decision 1/CP.21, paragraph 17, acknowledging the significant implications that this gap creates for future adaptation needs and for loss and damage
 - Urge Parties to take concerted action to address the gap
 - Invite non-Party stakeholders to contribute to these efforts
- **Call for enhanced implementation and ambition on mitigation, adaptation and means of implementation, in a balanced manner**
 - Call for enhanced implementation and ambition in a balanced manner with respect to mitigation, adaptation and means of implementation
 - Recognize that enhanced provision of support on finance, technology and capacity-building for developing countries will allow for higher ambition in adaptation, mitigation and means of implementation, and will reduce future adaptation needs and loss and damage actions
- **Adaptation**
 - Emphasize the urgent need to achieve the global goal on adaptation referred to in Article 7, paragraph 1, of the Paris Agreement and to ensure adequate global adaptation response in the context of the temperature goal set out in Article 2 of the Paris Agreement
 - Call on Parties to engage in adaptation planning processes
 - Urge the GCF to expedite its support for the formulation and implementation of NAPs, as referred to in decision 1/CP.21, paragraph 46.
 - Call on international entities, including financial institutions, to support the development and implementation of contingency measures for residual impacts
 - Encourage Parties to submit their first adaptation communications as soon as possible, to provide timely input to the first global stocktake
- **Implementation of climate change actions taking into account social and economic dimensions and connections to SDGs and poverty eradication.**
 - Reiterate the intrinsic relationship between climate changes actions, responses and impacts and equitable access to sustainable development and eradication of poverty
 - *Placeholder for ministerial events*

- **The UN SG's Climate Action Summit**
 - Note the contribution of the Summit to building momentum for enhancing global ambition towards meeting the goals of the Paris Agreement
 - Invite Parties to implement the commitments made at the Summit

- **Science underpinning the global response to climate change**
 - Recognize that actions required to address climate change should be based on the best available science and continually re-evaluated in the light of new findings
 - Invite Parties to make use of the best available science in formulating actions to address climate change

- **IPCC**
 - Recognize the role of the IPCC in providing scientific input to inform Parties in strengthening the global response to the threat of climate change in the context of sustainable development and efforts to eradicate poverty
 - Encourage Parties to continue to support the work of the IPCC

- **Pre-2020**
 - Take note of the report of the 2018 stocktake on pre-2020 implementation and ambition
 - Welcome the 2019 stocktake and take note of the discussions and information shared
 - Acknowledge that the stocktakes contributed to bringing visibility and creating a more coherent understanding of the gaps and the efforts of Parties in relation to action and support in the pre-2020 period as well as of the work of the UNFCCC bodies relating to this period
 - Recall the commitment of developed country Parties in the context of meaningful mitigation action and transparency on implementation, to a goal of mobilizing jointly USD100billion per year by 2020 to address the needs of developing country Parties in accordance with decision 1/CP.16 and emphasize the increasing urgency of scaling up mobilized climate finance
 - Recognize the importance of technology and building capacities of countries for the implementation of actions to address the gaps
 - Mandate a work programme on pre-2020 implementation and ambition, to identify the progress and gaps on mitigation, adaptation, finance, technology development and transfer, and capacity building of the pre-2020 commitments by developed countries, and to make arrangements to close the gaps

- **Work on oceans and climate linkage**
 - Note the importance of the ocean, including as an integral part of the Earth's climate system for both mitigation and adaptation
 - Request the Chair of the SBSTA to convene a dialogue on the ocean-climate nexus during SBSTA 52
 - Request the SBSTA to make recommendations taking into account the outcomes of the dialogue for consideration by COP 26

- **Non-Party stakeholders**
 - Recognize the crucial role that non-Party stakeholders have been playing since COP 21, building on the Lima-Paris Action Agenda, to implement the goals of the Paris Agreement, in particular, by supporting Parties in enhancing ambition and global climate action
 - Welcome the continuation of the work under the global climate action agenda

- Commend the efforts of the High-Level Champions and the Marrakech Partnership on Global Climate Action and welcome its contribution to strengthen voluntary efforts, initiatives and coalitions, including by engaging with interested Parties and non-Party Stakeholders and tracking progress of these efforts
- Request COP Presidencies to continue to appoint the high-level champions as called for in 1/CP.21, para. 122 (c), beyond 2020
- Extend the mandate of the high-level event referred to in decision 1/CP.21, para 120.
- Request the secretariat to continue the work in scaling up engagements with non-Party Stakeholders and enhancing the Non-State Actor Zone for Climate Action platform to enhance ambition and global climate action

Elaborated possible elements of decision 1/CMP.15 (*Welcome 1/CP.25 and include issues relevant to the CMP*)

- **Doha Amendment to the Kyoto Protocol**
 - Congratulate Parties that have accepted the Doha Amendment to the Kyoto Protocol
 - Underscore the urgent need for the entry into force of the Doha Amendment and strongly urge Parties to the Kyoto Protocol that have not yet ratified the Amendment to deposit their instruments of acceptance with the Depositary as soon as possible

Elaborated possible elements of decision 1/CMA.2 (*Welcome 1/CP.25 and include issues relevant to the CMA*)

- **Welcoming the completion of the Paris Agreement Work Programme**
 - *[Placeholder]*
- **Call to communicate or update NDCs in 2020**
 - Call to enhance ambition in line with the long-term goals as expressed in Article 2 of the Paris Agreement
 - Urge Parties to communicate and update NDCs that reflect its highest ambition as requested in 1/CP.21 paragraphs 23 and 24
 - Recall decision 1/CP.21, paragraph 25 and request the secretariat to prepare a synthesis report, well in advance of COP 26
 - Recall that the planning processes for NDCs to be communicated or updated should be done in a participatory, and gender-responsive manner with the engagement of local communities and indigenous peoples and should consider their respective obligations on human rights.
- **Reiterate the invitation to submit mid-century, long-term low greenhouse gas emission development strategies in 2020**
 - Reiterate the invitation to Parties to communicate, by 2020, to the secretariat, mid-century long-term low greenhouse gas emission development strategies in accordance with Article 4, para. 19 of the Paris Agreement
