

Process to date

- Parties, in decision 2/CMA.2, requested the Excom in collaboration with relevant organizations, to foster public education and awareness-raising efforts at the regional, national and local level, including efforts with a capacity-building component.
- At Excom 11, the members shared views on existing activities relevant to this mandate, and appropriate target audience/beneficiaries and ideas on associated effective modalities by which the Excom can foster public education and awareness-raising in its future work.

Approach

Observers share information on relevant capacity-building, including awareness-raising activities in which they are already involved and/or where they can provide these benefits to the following identified beneficiaries (and others):

- L&D contact points, national focal points;
- Vulnerable communities and people/groups;
- Decision- and policy-makers;
- Private sector

'Pledges' for further further relevant actions

Members: take note of the information, which, in turn, could inform future work of the Excom and its expert groups.
