

By decision 2/CMA.2, Parties requested the Excom:

- To revise the ToRs which the Excom adopted at Excom 7 (2018) and launch the expert groups on **slow onset events** and **non-economic losses**; and
- To establish, by the end of 2020, an expert group on action and support.

At Excom 11 (March 2020), the Excom initiated the work and formed working groups to continue preparing the ToRs intersessionally

The working groups finalized their work, and the Excom members-at-large have had opportunities to weigh in to ensure that the draft ToRs reflect views from all sides.

The final draft ToRs are available on the Excom 12 website. These documents will be fully edited.

- 1) Adopt the draft ToRs;
- 2) Elect Excom members who will serve in these expert groups; and
- 3) Confirm a general timeframe for the development of the respective draft Plans of Action
