
Information event on transparency (Part I)

Experience in reporting on implementation of action - Introductory remarks

24 August 2021

Davor Vesligaj
Transparency division

United Nations
Climate Change Secretariat

- ✓ to acquire an enhanced understanding of **experience** with reporting on progress towards economy-wide targets / nationally appropriate mitigation actions in the current MRV system;
- ✓ how this experience and lessons learned can inform Parties in **development of the new common tabular formats for tracking progress of NDCs** under the Paris Agreement.

- ✓ Presentations by Mexico and the United States to kick-start the discussion
- ✓ Quick Q/As after each presentation
- ✓ Discussion on how experience in reporting in the current MRV system can help Parties to develop CTFs for tracking progress of NDCs – *given the time available, please keep your interventions concise and focused*

- ✓ National circumstances and institutional arrangements
- ✓ Description of Party's NDC
- ✓ Information necessary to track progress in implementing and achieving NDCs (including the structured summary)
- ✓ Mitigation policies and measures, actions and plans, including those with mitigation co-benefits
- ✓ Summary of GHG emissions and removals
- ✓ Projections of GHG emissions and removals
- ✓ Other information

The state of play in the development of the CTFs
