## **Motto/Vision/Mission**

### **Fostering synergies through cooperation**

In the spirit of partnership, the PCCB seeks to engage organizations at local, national, regional, and global levels in the PCCB Network.

In line with the PCCB's mandate, the PCCB Network aims at facilitating access to information and knowledge on capacity-building for climate action, across sectors, regions, and governance levels.

**To create a thriving and interactive Network that enhances sustainable and long-term climate-related capacity-building**

**United Nations** Climate Change

## Focus/Activities

The **PCCB Network** would enable:

- Proactive, **multi-stakeholder partnerships** and **enhanced participatory processes** to assist developing countries in **building** and **retaining** their **capacities**;
- **Innovative ventures** in unexamined areas of **cross-sector capacity-building** to enable greater coherence and coordination;
- **Mapping** and **linking** capacity-building actors across sectors and at different levels, to support **synergic actions** and **avoid duplication** of efforts;
- A systemic process of **knowledge management** and **dissemination** of up-to-date **information** on capacity-building for climate action;
- **Co-production** and **exchange** of knowledge and experiences to support **effective** implementation of capacity-building initiatives.

## Rationale/Significance

The work of the **PCCB Network** would

- cover activities under and outside the Convention, and
- align with the policy coherence objectives of the **SDGs** and the capacity needs inherent in designing ambitious **NDCs** and **LTS**.

Additionally, the PCCB Network would enhance action on the PCCB's areas of focus:

United Nations Climate Change  
Paris Committee on Capacity-building

**CAPACITY-BUILDING HUB**

## Why join the PCCB Network?

- Engage in concrete **opportunities** for effective **networking** and **collaboration**
- Participate in **discussions** surrounding the work of the PCCB, and contribute to achieving the objectives on **capacity-building** under the Convention and the Paris Agreement
- Co-organize **events** with the PCCB and other members of the Network, and participate in events (co)organized by the PCCB
- Benefit from joint **digital media outreach/broadcast coverage** of coordinated campaigns and joint activities/partnerships
- Through the **Capacity-building Portal**, have access to an integrated **calendar of capacity-building events/activities**
- Exchange and co-produce **knowledge, experience**, and **information resources** with the PCCB and other members

## Possible yearly activities

- **Network meeting.** A yearly Network meeting would be held in conjunction with PCCB annual meetings
- **Network Day and events** at the Capacity Building Hub at COP
- **Quarterly/periodic newsletter** (summary of PCCB activities, reports from Network members). During the pilot phase, a key focus could be on PCCB activities and how the PCCB works. In addition, it could also focus on Network member activities as well as key publications, including from other constituted bodies under the Convention.
- **Use of the UNFCCC capacity-building portal** to:
  - Develop and update an events calendar
  - Population with appropriate materials by Network Members (the PCCB reserves the right to decline access of the portal of information and reports deemed inappropriate)
- **Joint activities** led by Network members at **Regional Climate Weeks**
