Local Communities and Indigenous Peoples Platform

3rd Meeting of the Facilitative Working Group
5-8 October, 2020
Introduction
Recognizes the need to strengthen knowledge, technologies, practices and efforts of local communities and indigenous peoples related to addressing and responding to climate change, and establishes a platform for the exchange of experiences and sharing of best practices on mitigation and adaptation in a holistic and integrated manner.

*(Decision 1/CP.21, para135)*
Decides that the overall purposes of the platform will be to strengthen the knowledge, technologies, practices and efforts of local communities and indigenous peoples related to addressing and responding to climate change, to facilitate the exchange of experience and the sharing of best practices and lessons learned related to mitigation and adaptation in a holistic and integrated manner and to enhance the engagement of local communities and indigenous peoples in the UNFCCC process.

(Decision 2/CP.23, para 5)
The platform should build the capacity of indigenous peoples and local communities to enable their engagement in the UNFCCC process and the capacity of Parties and other relevant stakeholders to engage with the platform and with local communities and indigenous peoples, including in the context of the implementation of the Paris Agreement and other climate change related processes.

The platform should facilitate the integration of diverse knowledge systems, practices and innovations designing and implementing international and national actions, programmes and policies in a manner that respects and promotes the rights and interests of local communities and indigenous peoples. The platform should also facilitate the undertaking of stronger and more ambitious climate action by indigenous peoples and local communities that could contribute to the achievement of the nationally determined contributions of the Parties concerned.

The platform should promote the exchange of experience and best practices with a view to applying, strengthening, protecting and preserving traditional knowledge, knowledge of indigenous peoples and local knowledge systems, as well as technologies, practices and efforts of local communities and indigenous peoples related to addressing and responding to climate change, taking into account the free, prior and informed consent of the holders of such knowledge, innovations and practices.

(Decision 2/CP.23, para 6)
"Affirms that the Facilitative Working Group is established with the objective of further operationalizing the Local Communities and Indigenous Peoples Platform and facilitating the implementation of its functions".

(Decision 2/CP.24, para2)
Decides that the Facilitative Working Group shall comprise 14 representatives, as follows:

a) One representative of a Party from each of the five United Nations regional groups
b) One representative of a Party from a small island developing state
c) One representative of a least developed country Party
d) Seven representatives from indigenous peoples organizations, one from each of the seven United Nations indigenous sociocultural regions
SOCIO-CULTURAL REGIONS OF INDIGENOUS PEOPLES

- The Arctic
- North America
- Central and South America and the Caribbean
- Africa
- Asia
- The Pacific
- Eastern Europe, Russian Federation, Central Asia and Transcaucasia
Dedicated LCIPP Web Portal
History and background

Requests the secretariat, with the support of the Facilitative Working Group, to make the work of the Local Communities and Indigenous Peoples Platform widely accessible, including through the development of a dedicated web portal on the Local Communities and Indigenous Peoples Platform on the UNFCCC website –
Decision 2/CP.24, para 21

Open web-based dialogue-
Convened four sessions in English, Spanish and French

Input from FWG on concept of the portal and informal dialogue on the development of the portal, including the establishment of the subcommittee.

FWG1 and SB52

FWG2
Showcasing the concept and get additional guidance on the design

Informal FWG meeting (June 2020)
Presentation of the design prototype
Milestones of the project in 2020

- Building of the design prototype
- Presentation at the informal FWG meeting
- Implementation of the web portal by the end of the year
• Subcommittee currently consists of 7 members
• 1 workshop and 3 meetings have been held in 2020
• Membership:
  • UN indigenous sociocultural region:
    • **Elijah Toirai** - Africa
    • **Alejandro Mayoral-Baños** (since 5 May) - Central and South America and the Caribbean // previously Fany Ramos Quispe
    • **Joanna McDonald** - The Arctic
    • **Kenneth Deer** - North America
    • **Hla Doi** (since 6 May) - Asia // previously Lakpa Nuri Sherpa
  • UN region:
    • **Thomas Cameron** - Western Europe and Others group (WEOG)
  • Expert organization:
    • **Rebecka Forsgren** - WIPO
Live Demo
Activity 7
Views from Parties, indigenous peoples organizations, observers and other stakeholders on existing policies and practices for participation of indigenous peoples and local communities in climate change-related bodies and processes under and outside of the Convention
Participation under the UNFCCC

- Local Communities and Indigenous Peoples Platform (LCIPP) and its Facilitative Working Group (FWG)
- Climate Technology Centre & Network (CTCN)
- Consultative Group of Experts (CGE)
- COP, CMA, and CMA
- Executive Committee of the Warsaw International Mechanism for Loss and Damage associated with Climate Change Impacts (WIM Excom)
- Gender Action Plan (GAP)
- Indigenous Peoples Organizations (IPO) constituency to the UNFCCC
- Kyoto Protocol
- Lima Work Programme on Gender
- Paris Agreement
- Paris Committee on Capacity Building (PCCB)
- Technology Executive Committee (TEC)
Participation outside the Convention (UN bodies and processes):

- Ad Hoc Technical Expert Group on Farmers’ Rights (AHTEG) under the ITPGRFA
- Agenda 2030, the Sustainable Development Goals, and the annual High Level Political Forum (HLPF)
- Civil Society and Indigenous Peoples’ Mechanism for relations with the UN Committee on World Food Security
- Convention on Biological Diversity (CBD) and the ad hoc open-ended working group on Article 8(j) (WG8J)
- Expert Mechanism on the Rights of Indigenous Peoples (EMRIP)
- Global Hub on Indigenous Peoples Food Systems (to be launched in 2020)
- Indigenous Peoples Major Group (IPMG)
- Intergovernmental Panel on Climate Change (IPCC)
- Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES)

- International Fund for Agricultural Development (IFAD) Indigenous Peoples’ Forum
- International Treaty on Plant Genetic Resources for Food and Agriculture (ITPGRFA)
- Nagoya Protocol
- UN Convention to Combat Desertification (UNCCD)
- UN Development Program (UNDP)
- UN FAO Committees on Food Security (CFS), Agriculture (CoAg), Forestry (COFO), Fisheries (COFI)
- UN FAO Indigenous Peoples “Global Campaign for the Empowerment of Indigenous Women for Zero Hunger”
- UN General Assembly (3rd Committee)
- UN Human Rights Council (HRC)
- UN Permanent Forum on Indigenous Issues (UNPFII)
- UNESCO Local and Indigenous Knowledge Systems (LINKS) programme
- UNESCO World Heritage Convention
- UNSG’s Climate Action Summit
- Work of the Special Rapporteur on the Rights of Indigenous Peoples
- World Conference on Indigenous Peoples
- World Food Programme (WFP)
Participation outside the Convention (non-UN bodies and processes):

- Arctic Council
- Conservation International Colombia
- European Instrument for Democracy and Human Rights
- Indigenous Navigator
- International Indigenous Peoples’ Forum on Climate Change (IIPFCC)
- IUCN Council, National and Regional Committees, Commissions and Programmes
- IUCN Global Program on Governance and Rights (GPGR)
- Nordic Council

• Part of the Financial mechanism of the Convention:
  • FM – Adaptation Fund
  • FM – Indigenous Peoples Policy of the Green Climate Fund (GCF)
An analysis of gaps in existing policies, actions and communications under the Convention: whether and how they incorporate consideration and engagement of indigenous peoples and local communities
Policies, actions and communications under the Convention that were mapped

1. Nationally determined contributions (NDCs);
2. National adaptation plans (NAPs);
3. Adaptation communications;
4. Biennial reports of developed countries;
5. Biennial transparency reports;
6. Biennial update reports of developing countries;
7. National adaptation programmes of action (NAPAs);
8. Long-term low greenhouse gas emission development strategies;
Activity 9 of the LCIPP – update on the mapping and survey

- A large excel database was developed for this mapping with 7 worksheets – corresponding to the list in the previous slide.

- 10 keywords were identified in consultation with the co-leads, and used as the basis for extracting information from the documents. These keywords included “indigenous”, “local community/ies” and others.
Activity 9 of the LCIPP – update on the mapping and survey

Starting with a data collection phase
- raw data collection based on a structured and systematic review of approx. 1000 documents submitted by Parties under the UNFCCC process

Then, analysis phase of all identified references to keywords:
- focus on whether the reference referred to engagement and/or consideration, participation etc.
In addition, surveys (translated into different UN languages) were conducted, 255 responses were received from Parties, indigenous peoples representatives, local community representatives and others. The results can be found in background document.
Scope of technical paper

1. Executive summary
2. Introduction
3. Scope of the paper
4. Background analysis
5. Survey results
6. Analysis of gaps
7. Conclusion
Activity 9 of the LCIPP – Analysis of gaps

Identified Gaps

- (Generally-speaking) low levels of engagement with indigenous peoples and local communities

- Insufficient capacity-building for engagement

- Unidirectional training

- Engagement and consideration are not included throughout the process

- The need for continued engagement over time

- The conceptualization of engagement with indigenous peoples and/or local communities as a resource, rather than a process
Activity 9 of the LCIPP – Analysis of gaps

Identified Gaps (continued)

- Lack of collaboration to disseminate expertise-specific knowledge

- Indigenous knowledge, traditional knowledge and local knowledge are promoted without a supporting infrastructure to facilitate repeated engagement and accessibility

- A lack of references to indigenous technologies and practices

- Considerations of gender in relation to indigenous peoples and local communities were not included in most documents.
Activity 10
A summary of views by Parties, indigenous peoples, local communities, and others on the implementation of good practices for indigenous peoples’ and local communities’ participation in national climate policy
Responses

Eight submissions were received:

- 2 from groups of Parties - the Alliance of Small Island States (AOSIS) and the European Union (EU)
- 1 from a Party - Canada
- 1 from an indigenous peoples organisation - Native Women's Association of Canada (NWAC)
- 1 from a UN agency - International Labour Organisation (ILO)
- 3 from other organisations - Climate Heritage Network (CHN) and Tuvalu Climate Action Network (TuCAN)
Summary of submissions

1. Consideration of local communities and indigenous peoples in national policy frameworks
2. Participation of local communities and indigenous peoples in national policy-making
3. Rights of indigenous peoples and self-determination
4. Engagement between indigenous and government parliaments
5. Gender considerations
6. Considering and engaging with different ways of knowing, knowledge systems, and practices
Activity 11
Existing funding within the United Nations system, and identify additional funding opportunities for the participation of indigenous peoples and local communities from all regions related to climate change.
Activity 11: Existing funding opportunities for the participation of indigenous peoples and local communities from all regions related to climate change
Activity 11: Geographic distribution of the existing funding opportunities for the participation of indigenous peoples and local communities from all regions related to climate change

**Geographic distribution of existing funding opportunities for the participation of indigenous peoples related to climate change**

- The Pacific: 7
- North America: 5
- Central and Eastern Europe, Russian Federation, Central Asia: 5
- The Arctic: 4
- Central and South America and the Caribbean: 8
- Asia: 7
- Africa: 7

**Geographic distribution of existing funding opportunities for the participation of local communities related to climate change**

- Western Europe and others: 1
- Central and Eastern Europe: 2
- Latin America and the Caribbean: 6
- Asia: 5
- Africa: 6
Activity 11: Thematic distribution of the existing funding opportunities for the participation of indigenous peoples and local communities from all regions related to climate change

**Thematic distribution of existing funding opportunities for the participation of indigenous peoples related to climate change**

Activity 11: What are some possible pathways to access the existing funding opportunities for the participation of indigenous peoples and local communities from all regions related to climate change?

Pathway 1
- Pursue partnership with relevant agencies/accredited entities/Focal points;

Pathway 2
- Get accredited

Pathway 3
- Access special grants/initiatives
Activity 11: How to learn more about the existing funding opportunities for the participation of indigenous peoples and local communities from all regions related to climate change?

Proceedings (e.g. GEF Council Meeting; GCF Board Meetings; Meeting of the AF Board)

Events (e.g. GCF structured dialogues, GEF extended constituency workshops)

Capacity building (e.g. AF eLearning, GEF Academy)

Programme Specialist/Focal point

Advisory group/committee/taskforce

Indigenous peoples Policy

Safeguard policies
Activity 11: Possible contents for the online tool

- Webinars
- Case studies
- Policies and planning documents
- Advisory groups/Committee
- Indigenous peoples programme specialists/focal points
- Other resources
On Behalf of the Co-leads, we invite the FWG members to:

- Send us your comments on the draft synthesis document; and

- Share with us your views on what information and resources would be most useful to be captured and disseminated through the online tool.
The global stocktake under the Paris Agreement The second periodic review of the long-term global goal under the Convention

Florin Vladu - Manager, Collective Progress subdivision

8 October 2020
What are the modalities of the GST and the timeline?

**Preparatory work**
- **SBSTA**: Update info sources
- **SB Chairs**: Develop guiding questions
- **Constituted Bodies/Secretariat**:
  - Prepare synthesis report in area of expertise
  - Organize webinar (methodologies + assumptions)
  - Participate in technical dialogue
  - Support development of guiding questions

**Information collection and preparation**
- **1. Information collection and preparation**
  - Guiding questions
  - Webinars

**Technical Assessment**
- **2. Technical Assessment**
  - TD1
  - TD2
  - TD3
  - Mitigation
  - Adaptation
  - Mol

**IPCC AR6**
- WG I (Jul 2021)
- WG II (early 2022)
- WG III (early 2022)

**Constituted Bodies/Secretariat**:
- Prepare synthesis report in area of expertise
- Organize webinar (methodologies + assumptions)
- Participate in technical dialogue
- Support development of guiding questions

**Synthesis report**
- SBR
- Addenda
- High level event(s)

**Consideration of outputs**
- JCG1
- JCG2
- JCG3
- JCG4

**Timeline**
- **2021**
  - COP26/CMA3
  - SBS54
- **2022**
  - COP27/CMA4
  - SBS56
- **2023**
  - COP28/CMA5
  - SBS58
  - COP29/CMA6
What are the types and sources of input of the GST?

- Information for the GST to be **collective/aggregate** – no individual/group of Parties information
- Both **backward** (reported) and **forward** (communicated) looking
- Tied to the GST thematic areas
- **Lists**: information sources (where) and the information (types) needed
- SBSTA to **complement lists one session before the GST-ICP**

- **Information providers** to include:
  1. Parties (voluntary and mandated)
  2. IPCC
  3. **CBs/forums**
  4. UN agencies
  5. NPS and UNFCCC observers organizations
  6. Regional groups and institutions
The Periodic Review to assess

a) The **adequacy of the long-term global goal** (hold the increase in the global average temperature to well below 2 °C above pre-industrial levels and to pursue efforts to limit the temperature increase to 1.5 °C) in the light of the ultimate objective of the Convention

b) Overall **progress made towards achieving the long-term global goal**, including a consideration of the implementation of the commitments under the Convention

The Second Periodic Review (PR2) should

a) **Enhance Parties’ understanding** of the long-term global goal and scenarios towards achieving it; progress made in relation to addressing information and knowledge gaps, including on and the range of associated impacts; and challenges and opportunities

b) **Assess the overall aggregated effect of the steps taken by Parties** in order to achieve the long-term global goal

Outcome of the PR2 will **not result in an alteration or redefinition of the long-term global goal**
**Second periodic review**

- **PR2 to start in the second half of 2020 and conclude in 2022**, with the SED held in conjunction with sessions of the subsidiary bodies, starting at their 53\textsuperscript{rd} sessions (November 2020) and being completed at their 55\textsuperscript{th} sessions (November 2021)
- **Timeline of the SED needs to be revised** taking into consideration the postponement of SB 52 and COP 26 as a result of the global lockdown due to the COVID-19 pandemic
