

# Forward-looking overview of capacity-building activities of constituted bodies, operating entities and UNFCCC processes represented in the ICG

Version: November 2023

## Introduction

As per its 2021-2024 workplan, the Paris Committee on Capacity-building (PCCB) is to create a forward-looking overview of current and planned capacity-building activities under the Convention and the Paris Agreement.<sup>1</sup> This overview serves to facilitate the work of the informal coordination group for capacity-building under the Convention and the Paris Agreement, or “ICG”, and contribute to priority area A of the PCCB 2021-2024 workplan: enhancing coherence and coordination of capacity-building under the Convention with a focus on avoiding duplication of efforts.<sup>2</sup>

At the first meeting of the ICG on 8 June 2021, ICG members welcomed the forward-looking overview as a useful document to facilitate coordination and coherence. Members agreed that the document be updated twice per year, in sync with the ICG meetings. Members further agreed to keep a broad definition of capacity-building so as to capture a wide range of activities that members can consider in their coordination efforts.

## Scope

The overview will only include activities organized by constituted bodies, operating entities and UNFCCC processes represented in the ICG.<sup>3</sup> Given the forward-looking nature of the overview, it will only include activities that are ongoing or forthcoming at the time the document is updated. Efforts will be made to create an overview with sufficient detail to facilitate joint coordination and to update it twice yearly, ahead of each ICG meeting. When possible, individual activities will be included rather than general programs or series they fall under. The overview will also include ongoing activities.

---

<sup>1</sup> FCCC/SBI/2020/13 – Annex 1, Activity A.1.2.

<sup>2</sup> FCCC/SBI/2020/13 – Annex 1, Priority area A.

<sup>3</sup> The following bodies, entities and processes are currently represented in the ICG: Action for Climate Empowerment process, Adaptation Committee, Adaptation Fund Board secretariat, Climate Technology Centre and Network, Consultative Group of Experts, Enhanced Lima Work Programme on Gender, Executive Committee of the Warsaw International Mechanism for Loss and Damage, Facilitative Working Group of the Local Communities and Indigenous Peoples Platform, Global Environment Facility secretariat, Green Climate Fund secretariat, Katowice Committee of Experts on the Impacts of the Implementation of Response Measures, Least Developed Countries Expert Group, Nairobi Work Programme on impacts, vulnerability, and adaptation to climate change, Standing Committee on Finance and Technology Executive Committee.

## Methodology

### *Data sources*

The forward-looking overview is a living document and will draw on:

- Entries from the secretariat's internal capacity-building activities database
- Workplans of constituted bodies, operating entities, and UNFCCC processes part of the ICG
- Webpages of constituted bodies, operating entities, and UNFCCC processes part of the ICG
- Direct input/feedback from constituted bodies, operating entities, and UNFCCC processes part of the ICG

### *Selection*

ICG members engage in a variety of activities, and it is not always straightforward what activities constitute capacity-building. This overview takes a pragmatic approach and, in the first instance, includes activities that constituted bodies and operating entities themselves classify as capacity-building. To supplement this approach the above-mentioned data sources were also scanned for additional activities, drawing on official and customary definitions (see annex 1) of capacity-building as guidance for selection. In particular, the annual compilation and synthesis report by the secretariat on 'capacity-building work of bodies established under the Convention and its Kyoto Protocol' provides a categorization of activities that can be considered capacity-building:

- Events/technical meetings/forums
- Training/ workshops
- Tools/ handbooks
- Web-based seminars/tools/ courses
- Technical assistance/ support

In the process of drafting this overview the above list was slightly amended to better capture the various activities undertaken by UNFCCC bodies, entities and processes, including an increasing variety of online activities and resources in the light of the COVID pandemic. The current list of categories of activities reads as follows:

- Events/technical meetings/forums (*in-person or virtual*)
- Training/ technical workshops (*in-person or virtual*)
- Tools/ handbooks / technical reports
- Web-based seminars/ courses
- Online resources
  - Portals
  - Databases
  - Newsletters/ e-bulletins
- Technical assistance/ support
- Call for submissions / surveys (*only those with clear capacity-building focus*)

### *Organisation*

Retrieved capacity-building activities are organized into three tables:

- First, a ‘calendar’ with activities that have a clear date or timeframe in which they will be executed.
- Second, a table with plans, these are capacity-building related plans from workplans that are, to our knowledge, not yet operationalized into tangible time-bound activities.
- Finally, a table with ongoing activities, this includes databases and portals that are actively managed by ICG members.

## Calendar

Date <sup>4</sup>	Activity	Topic <sup>5</sup>	Type of activity <sup>6</sup>	Organizer	Link/ref
At the Regional Climate Weeks	Regional workshops with national ACE focal points to strengthen the regional network of national ACE focal points and build capacity for the implementation of the Glasgow Work Programme on ACE.	Education & Youth	Training / workshops	ACE	<a href="#">Link</a>
At the Regional Climate Weeks	Regional youth events to empower young leaders to mobilize climate solutions at the regional, national and local levels, in support of Parties' efforts under the Paris Agreement.	Education & Youth	Training / workshops	ACE	<a href="#">Link</a>
Asia Pacific Regional Climate Week	Regional thematic dialogue at Asia Pacific Regional Climate Week	Capacity-building, Adaptation	Event / technical meeting / forum	PCCB	

<sup>4</sup> Ordered chronologically based on start-date of activity

<sup>5</sup> Categories based on the secretariat's internal capacity-building activities database: 1) Adaptation, 2) Agriculture, Forests and Other Land Use, 3) Capacity-building, 4) Climate Finance, 5) Climate Technology, 6) Education & Youth, 7) Gender, 8) Local Communities and Indigenous Peoples Platform (LCIPP), 9) Loss and Damage, 10) Mitigation, 11) Response Measures, 12) Science, 13) Transparency.

<sup>6</sup> Categories: 1) Events/technical meetings/forums (in-person or virtual), 2) Training/ technical workshops (in-person or virtual), 3) Tools/ handbooks / technical reports, 4) Web-based seminars/ courses, 5) Online resources (e.g. portals, databases, newsletters), 6) Technical assistance/ support, 7) Call for submissions / surveys (Only those with clear capacity-building focus)

Knowledge Management System	Web-based structure for collecting, analyzing, and disseminating information, products, and services to facilitate technology transfer to and among developing countries.	Climate Technology	Online resources	CTCN	<a href="#">Link</a>
Developing GCF funding proposal for the Simplified Approval Process (SAP)	The course provides a detailed overview of the information needed when developing an SAP funding proposal with explanations of a number of key topics provided by GCF experts.	Climate Finance	Web-based seminars / courses	GCF	<a href="#">Link</a>
Regional Sessions for African GCF Direct Access Entities	Informative plenary sessions that address specific areas for strengthening funding proposals and provide information on accessing available GCF proposal development resources.	Climate Finance	Events / technical meetings / forums	GCF	
Country Programme Development Pilot Project	Technical assistance provided to countries to support the technical inputs and development of a GCF Country Programme which guides strategic engagement with the Fund.	Climate Finance	Technical assistance	GCF	<a href="#">Link</a>

<b>Activity</b>	<b>Description</b>	<b>Topic<sup>11</sup></b>	<b>Type of activity<sup>12</sup></b>	<b>Organizer</b>	<b>Link/ref</b>
Peer-to-Peer Exchanges in Asia and the Pacific	Peer-to-peer knowledge exchange and lessons learned series discussion (e.g. green bonds, adaptation planning and implementation, no objection procedures, accreditation, etc.).	Climate Finance	Web-based seminars / courses	GCF	
Project Development technical assistance	Provided through both individual consultants and roster of firms to National Designated Authorities and Direct Access Entities to support the development of concept notes and funding proposals for submission to GCF.	Climate Finance	Training / technical / technical assistance	GCF	
Readiness and Preparatory Support Programme technical assistance	Provided to National Designated Authorities and Direct Access Entities to support in the development and submission of Readiness proposals to GCF.	Climate Finance	Training / technical / technical assistance	GCF	
Training Seminar for National Designated Authorities	Interactive training for NDAs with guidance on some of the functions and actions of NDAs or Focal Points and their strategic roles in enhancing country ownership. Available in English, Spanish-French and Arabic to be added.	Climate Finance	Web-based seminars / courses	GCF	<a href="#">Link</a>
Video training modules for the development of a theory of change	These are online training modules introducing AEs and DPs of the GCF to the principles of theory of change development and providing guidance on developing a strong theory of change in readiness proposals and funding proposals.	Climate finance	Web-based seminars / courses	GCF	<a href="#">Link</a>

<b>Activity</b>	<b>Description</b>	<b>Topic<sup>11</sup></b>	<b>Type of activity<sup>12</sup></b>	<b>Organizer</b>	<b>Link/ref</b>
Video training modules for the integrating IRMF in proposal development	These are online training modules introducing AEs and DPs of the GCF to the principles of logical framework development and providing guidance on integrating the IRMF in concept notes and funding proposals.	Climate finance	Web-based seminars / courses	GCF	<a href="#">Link</a>
Regional programming and strategy workshops	Three Regional programming and strategy workshops for transformational impacts and higher ambition for climate adaptation for Anglophone African LDCs, Asian LDCs and Pacific LDCs have been recently concluded.  A similar workshop for non LDC SIDS is being considered during the current reporting period	Climate finance, adaptation	Events / technical meetings / forums	GEF	<a href="#">Link</a>
Stakeholder Empowerment Series (SES)	An activity of the GEF Country Support Program, Stakeholder Empowerment Series (SES) provide a targeted virtual training on specific topics in order to share good practices and lessons and to promote South-South collaboration among different regions and countries. Topics can cover GEF operational policies, national steering committee procedures and OFP's roles and responsibilities, inclusive stakeholder	Climate Finance	Events / technical meetings / forums	GEF	<a href="#">Link</a>

country Parties related to implementing the Convention and the Paris Agreement	needs. Such countries are encouraged to share best practices for determining needs and to use resources available through the operating entities of the Financial Mechanism, as well as other multilateral and bilateral actors, to strengthen institutional capacity for identifying and costing their needs in relation to implementing the Convention and the Paris Agreement.				

## Annex 1 – Official and customary definitions of capacity-building

### Official definitions of capacity-building

Definition	Reference
Reaffirms that capacity-building for developing countries is essential to enable them to participate fully in, and to implement effectively their commitments under, the Convention	2/CP.7
Capacity-building under this Agreement should enhance the capacity and ability of developing country Parties, in particular countries with the least capacity, such as the least developed countries, and those that are particularly vulnerable to the adverse effects of climate change, such as small island developing States, to take effective climate change action, including, inter alia, to implement adaptation and mitigation actions, and should facilitate technology development, dissemination and deployment, access to climate finance, relevant aspects of education, training and public awareness, and the transparent, timely and accurate communication of information.	Article 11.1 of the Paris Agreement
<p>The annual compilation and synthesis report by the secretariat on ‘capacity-building work of bodies established under the Convention and its Kyoto Protocol’ provides a good overview of capacity-building-in-practice. Over time this report has developed five categories of capacity-building activities:</p> <ul style="list-style-type: none"> <li>• Events/technical meetings/forums</li> <li>• Training/ workshops</li> <li>• Tools/ handbooks</li> <li>• Web-based seminars/tools/ courses</li> <li>• Technical assistance/ support</li> </ul>	FCCC/SBI/2021/2/Add.1

Customary understanding of capacity-building in the context of the UNFCCC

Description	Reference
<p>The Capacity-building subdivision, on its website, outlines that capacity-building in the UNFCCC process encompasses activities at the level of individuals, institutions and systems, as captured in the figure below.</p>  <p>The diagram illustrates the UNFCCC capacity-building process across three levels, each contributing to an overall impact. At the bottom, a large blue arrow labeled 'Capacity Building' points to the right. On the left, three stacked boxes represent the levels: Individual Level (top, light blue), Institutional Level (middle, medium blue), and Systemic Level (bottom, dark blue). Each level has a corresponding box of activities to its right, connected by a horizontal arrow. The Individual Level activities include: changing attitudes and behaviours, imparting knowledge and developing skills, maximizing the benefits of participation, and knowledge exchange and ownership. The Institutional Level activities include: focusing on organizational performance and capabilities, addressing organizations' ability to adapt to change, and promoting cooperation between organizations, institutions and sectors. The Systemic Level activities include: addressing the overall framework within which institutions and individuals operate and interact, and creating enabling environments through economic and regulatory policies. Vertical double-headed arrows connect the activity boxes between the Individual and Institutional levels, and between the Institutional and Systemic levels. On the far right, a vertical blue box labeled 'Impact' contains the text: 'effectively addressing the challenges of climate change and achieve sustainability'.</p>	<p><a href="https://unfccc.int/topics/capacity-building/the-big-picture/capacity-in-the-unfccc-process">https://unfccc.int/topics/capacity-building/the-big-picture/capacity-in-the-unfccc-process</a></p>

## Annex 2 – Timelines of constituted bodies, operating entities, and processes annual meetings and workplans

### Overview of upcoming official meetings

<b>Date (chronological)</b>	<b>Meeting</b>	<b>Frequency</b>	<b>Body/entity/process</b>	<b>Link</b>
26-27 November 2023	9 <sup>th</sup> Meeting	Biannually	KCI	
26–28 February 2024	33 <sup>rd</sup> meeting of the Standing Committee on Finance	Three times per year	SCF	
February 2024	66 <sup>th</sup> GEF Council Meeting	Biannually	GEF
