

KYOTO CLUB

Submission to the HL-Champions Letter

Q1. Yes. Including much needed increased communication efforts to decision-makers and the public about the IPCC Global warming of 1.5 Degree special report published on 08 October 2018.

Q2. Through frequent regular meetings, joint public initiatives, joint massive communication campaigns and the involvement for decarbonization of the oil & gas sector.

Q3. Insufficient awareness on the urgency to act by decision-makers.

Q4. Take global initiatives to urge Parties to access relevant experts and resources.

Q5. By implementing, locally and nationally, more ambitious targets than those agreed upon in Paris.

Q6. Decarbonisation.

Q7. Because the climate situation keeps worsening.

Q8. EU institutional decision-makers and oil & gas leaders.

Q9. Yes, but much more visibility, to raise awareness to urgently act among today's decision-makers and youth, is needed.

Q10. Yes. But much wider dissemination should be pursued.

Q11. Very useful and catchy. For the time being no addition information to be added, rather its use should be fostered.

Q12. Yes, useful. They could be made more impactful and accessible through the direct involvement of global media.

Q13. By mobilizing global media and supporting grassroots initiatives such as next March 15 Global Climate Strike for Future.

Q14. Yes. By organizing national and regional discussion fora.

Q15. Yes. Through greater visibility of their efforts and initiatives.

Q16. To raise awareness about A. how serious the situation is and what is at stake. B. the urgency to act through the already available win-win solutions.
