In supporting the monitoring and evaluation of adaptation, the AC recommends that the COP invite Parties, operating entities of the Financial Mechanism and relevant entities working on adaptation to take into account the following recommendations: (a) Monitoring and evaluation frameworks need to be appropriate, relevant to needs and tailored to country circumstances. A common set of global indicators is not useful, owing to the context-specific nature of adaptation;
Decision 1/CP.21	Adoption of the Paris Agreement	46. Further requests the Green Climate Fund to expedite support for the least developed countries and other developing country Parties for the formulation of national adaptation plans, consistent with decisions 1/CP.16 and 5/CP.17, and for the subsequent implementation of policies, projects and programmes identified by them
Decision 3/CP.17	Launching the Green Climate Fund	6. Requests the Board to operationalize the Fund in an expedited manner;

In the context of the monitoring and evaluation of adaptation, the AC also recommends that the COP invite the Board of the GCF, with respect to its Results Management Framework, to consider: (a) Keeping indicators simple; (b) Designing indicators that are qualitative as well as quantitative; (c) Designing indicators in such a way as to capture the progress that countries are able to make in integrating adaptation into their development and sectoral planning, policies and actions; (d) Giving countries sufficient flexibility to define their indicators in line with their national and local planning, strategies and priorities.
Decision 4/CP.20, annex	Report of the Adaptation Committee (Recommendations for the COP)	3. In supporting the monitoring and evaluation of adaptation, the AC recommends that the COP invite Parties, operating entities of the Financial Mechanism and relevant entities working on adaptation to take into account the following recommendations: (a) Monitoring and evaluation frameworks need to be appropriate, relevant to needs and tailored to country circumstances. A common set of global indicators is not useful, owing to the context-specific nature of adaptation; (b) National-level assessments can play a different role in measuring adaptive capacity from subnational or project-based assessments. National-level assessments could, for example, measure the degree of coordination and integration of adaptation in national priorities; (c) A positive learning environment, which encourages formal and informal learning, including peer-to-peer learning, and which encourages learning from negative as well as positive experiences, is important; (d) Planning and allocation of resources, both technical and financial, are key for effective monitoring and evaluation systems.

Encourages the operating entities of the Financial Mechanism to address, as appropriate, these recommendations in their future work, particularly with regard to the complementarity between the operating entities of the Financial Mechanism;</p> <p>Annex 21. Decision 9/CP.20	Fifth review of the Financial Mechanism	<p>4. Encourages the operating entities of the Financial Mechanism to address, as appropriate, these recommendations in their future work, particularly with regard to the complementarity between the operating entities of the Financial Mechanism;</p> <p>Annex 58. The GCF would benefit from lessons learned on the accreditation process from other funds, particularly the GEF. In the case of the GEF, the goal of accreditation of 10 project agencies was only partially achieved. The GCF may consider building on existing systems of GEF intermediaries and implementing entities, and may in the process also consider providing financial assistance to support the accreditation of national entities in recipient countries that may need it.</p>
Decision 7/CP.21	Report of the GCF to the Conference of the Parties and guidance to the GCF	22. Also invites the Board of the Green Climate Fund, in line with paragraph 38 of the governing instrument of the Green Climate Fund, to consider ways to provide support, pursuant to the modalities of the Green Climate Fund, for facilitating access to environmentally sound technologies in developing country Parties, and for undertaking collaborative research and development for enabling developing country Parties to enhance their mitigation and adaptation action;
Decision 7/CP.21	Report of the GCF to the Conference of the Parties and guidance to the GCF	21. Invites the Board of the Green Climate Fund to take into account in its programmatic priorities the Cancun Adaptation Framework, in particular the principles referred to in decision 1/CP.16, paragraph 12, and the activities referred to in decision 1/CP.16, paragraph 14;
Decision 9/CP.20	Fifth review of the Financial Mechanism	<p>4. Encourages the operating entities of the Financial Mechanism to address, as appropriate, these recommendations in their future work, particularly with regard to the complementarity between the operating entities of the Financial Mechanism;</p> <p>Annex 25. As it monitors the use of its initial fiduciary standards and reviews those standards within the next three years, the GCF should consider maintaining consistency with the standards of the GEF.</p>
Decision 9/CP.20	Fifth review of the Financial Mechanism	<p>4. Encourages the operating entities of the Financial Mechanism to address, as appropriate, these recommendations in their future work, particularly with regard to the complementarity between the operating entities of the Financial Mechanism;</p> <p>Annex 69. There is ample room for the GCF to learn from the experiences of other funds in terms of improving the enabling environments in recipient countries. It can do this by linking investments with focused efforts to engage stakeholders within countries in programming, and by providing technical assistance and capacity-building so as to strengthen enabling environments – institutions, policies, and regulations – that support mitigation and adaptation actions in developing countries.</p>
Decision 7/CP.21	Report of the GCF to the Conference of the Parties and guidance to the GCF	23. Urges the Board of the Green Climate Fund to operationalize results-based payments for activities referred to in decision 1/CP.16, paragraph 70, consistent with decision 9/CP.19, and in accordance with Green Climate Fund Board decision B.08/08;
Decision 7/CP.21	Report of the GCF to the Conference of the Parties and guidance to the GCF	24. Encourages the Board of the Green Climate Fund to consider the mobilization of private sector finance to progress the Green Climate Fund's forestry-related result areas;
