Greening the Financial Sector

Analysing the status-quo for identifying Capacity Building needs

- ❖ Study on climate-compatible financial system development and green finance approaches in the context of climate finance readiness
- ❖ Case studies: Mexico, South Africa, Thailand and Uganda
- ❖ Analysis of current developments, initiatives and roles of institutions to identify opportunities, challenges and capacity building needs
- ❖ Recommendations for partner institutions & donors on capacity development

Sustainable Finance Policy Navigator - Tool

Objective:

Assist partner countries in developing a sustainable finance strategy and reform plans to navigate the transition to sustainable economies

Approach:

- Structured advisory approach supported by a diagnostic tool to guide partner countries on sustainable finance reforms
- SF Navigator structured in six fields of action by five stakeholder groups → yielding a multidimensional "menu of actions"
 - Including descriptions and rationale, listing of major international reference frameworks and standards, case examples, and process-related guidance

Target groups:
Governments,
financial
regulators,
central banks

Outputs:

- **Publication:** [The Sustainable Finance Navigator – A diagnostic tool for sustainable finance policy reforms](#)
- **Publication:** [Mainstreaming Sustainability in Brazil's Financial Sector – Policy actions for a national supporting framework](#)
