Global Stocktake

Youth Engagement in the GST

GST supports youth-led initiatives, providing opportunities for young entrepreneurs and organizations to actively engage in shaping climate policies.

With initiatives like the World Café, a seat at the Roundtables, and submitting views on the GST, Parties and non-Party stakeholders work hand-in-hand to try and reach the goals of the Paris Agreement.

Consideration Outputs

The Global Stocktake

Public Participation

I participated at the technical dialogue of the global stocktake, and my voice and action helped shape the discussions.

Public Access to Information

I needed information to help my organisation, and i found it on the information portal.

Submissions to the GST

My organisation submitted a paper on our views which will help to inform the political outcomes from the COP 28.
