### Gender Workshop

### Group 2

#### D2

→ Instead of 'raising awareness' we must 'ensure'

→ NCOG a missed opportunity, need to ensure gender into other finance trades

Is more info is needed on support available?

→ Beyond awareness what else do we need?

↓  
\* make access easier to finance

+  
→ \* ↑ ambition

→ add considering/promoting enhanced access to climate finance for grassroots women's orgs . . . . .

## Compilation of flipcharts groups 1,2,3,4,5,6 day 1

Group Work, 3 to 4 activities per group, prior prioritization by all participants

Group 3: Activities A.3, A.4, D.7, E.3

**GROUP 3**

**A.4**

i.) Strengthen the evidence base — can we further specify? (Quant, qual, areas of focus)

- specify place — intersecting discrimination(s),  
→ race, age, geog, income
- focus on cross-cutting, multi-dimensional data.  
+ indigenous knowledge
- \* No existing focus on health.  
→ data on women's participation needed

• Move on from "evidence base" to focus on the VALUE of gender-responsive policies. ⇒ relates to monitoring activity.

→ Driving dialogue — regional dialogue

- Some harmonization/systematization is needed so there's a standardized base.
- + expanded language on role of women as climate actors.

ii.) WHO: Secretariat could create synthesis report  
→ could request IPCC report on evidence base

→ further include research orgs? Dialogue w/ actors bringing in those on forefront of activities + private sector? beyond IPCC.

A3. • Value in dialogue that's Party-led on best practices as an activity? Perhaps more than once throughout the cycle?

- + Could this activity address "emerging issues"?
- + Could output be annual dialogue on emerging issues w/ relevant actors?

include disaster/ risk  
↑  
For  
"resilience"  
↓  
including in workplace/supply chains  
evidence demonstrating

## Compilation of flipcharts groups 1,2,3,4,5,6 day 1

Group Work, 3 to 4 activities per group, prior prioritization by all participants

Group 3: Activities A.3, A.4, D.7, E.3

D.7 → Also need to talk about indicators. Could reference more clearly  
→ connect to E.3 here

Level of implementation: National  
— explicitly mention race, ethnicity, territory, gender, age  
— incorporate data from other UNFCCC processes/  
mechanisms and also other existing data sources like SDGs —  
using in climate processes

— Nothing in here as a mechanism to SHARE. Could we  
add a platform here to make the evidence readily  
available? i.e. on UNFCCC site etc?

\* Necessity of localizing the GAP. Data helps identify  
intersecting factors for  
gender analysis.  
→ need to reflect positionality of  
researchers themselves. → like HLPF — and could be not  
just Parties but other  
stakeholders

Value in voluntary reporting on existing data  
@ national level that feeds into this?  
(Adaptation Committee is working on coherence across  
UNFCCC processes/mechanisms) + coordination

↓  
(Importance of GAP connecting to other processes)

FOCUS here isn't just production but also data use for  
policy change. Analysis of data produced in A.4.

→ UNDER DELIVERABLES: what's missing is actual gender  
analysis + then connecting to stakeholders using it for climate  
policies. (existing lang quite good in activity)

\* Need to incorporate disaggregated data in national climate impact  
assessments  
Responsibility: designate WHO + what time frame, i.e. annual?

→ A. Parking lot of ideas

### D5 Engage w Q

- including 'monitoring' in the language. (AD)
- highlight nationally driven approaches existing in UNFCCC like NAPs / NDC. } **outputs.**
- including something that qualifies engagement further exemplifies this.
- Having measurable activities. (SMART) } **output.**
- Distinguishing Description and output language  
e.g. Engaging Women (AD) & Engaging women as (output)
- Sequencing activities in a ten year period to show SMART consistent, monitored progress.  
Timeline
- Is the 4/5 year time period enough?

The 3 different milestones:

1. Development **AD**
  2. Implementation
  3. Monitoring (learning/loop)
- 10 years } sequencing

~~Not~~ fit within the existing framework timeline  
e.g. NDC stock takes.

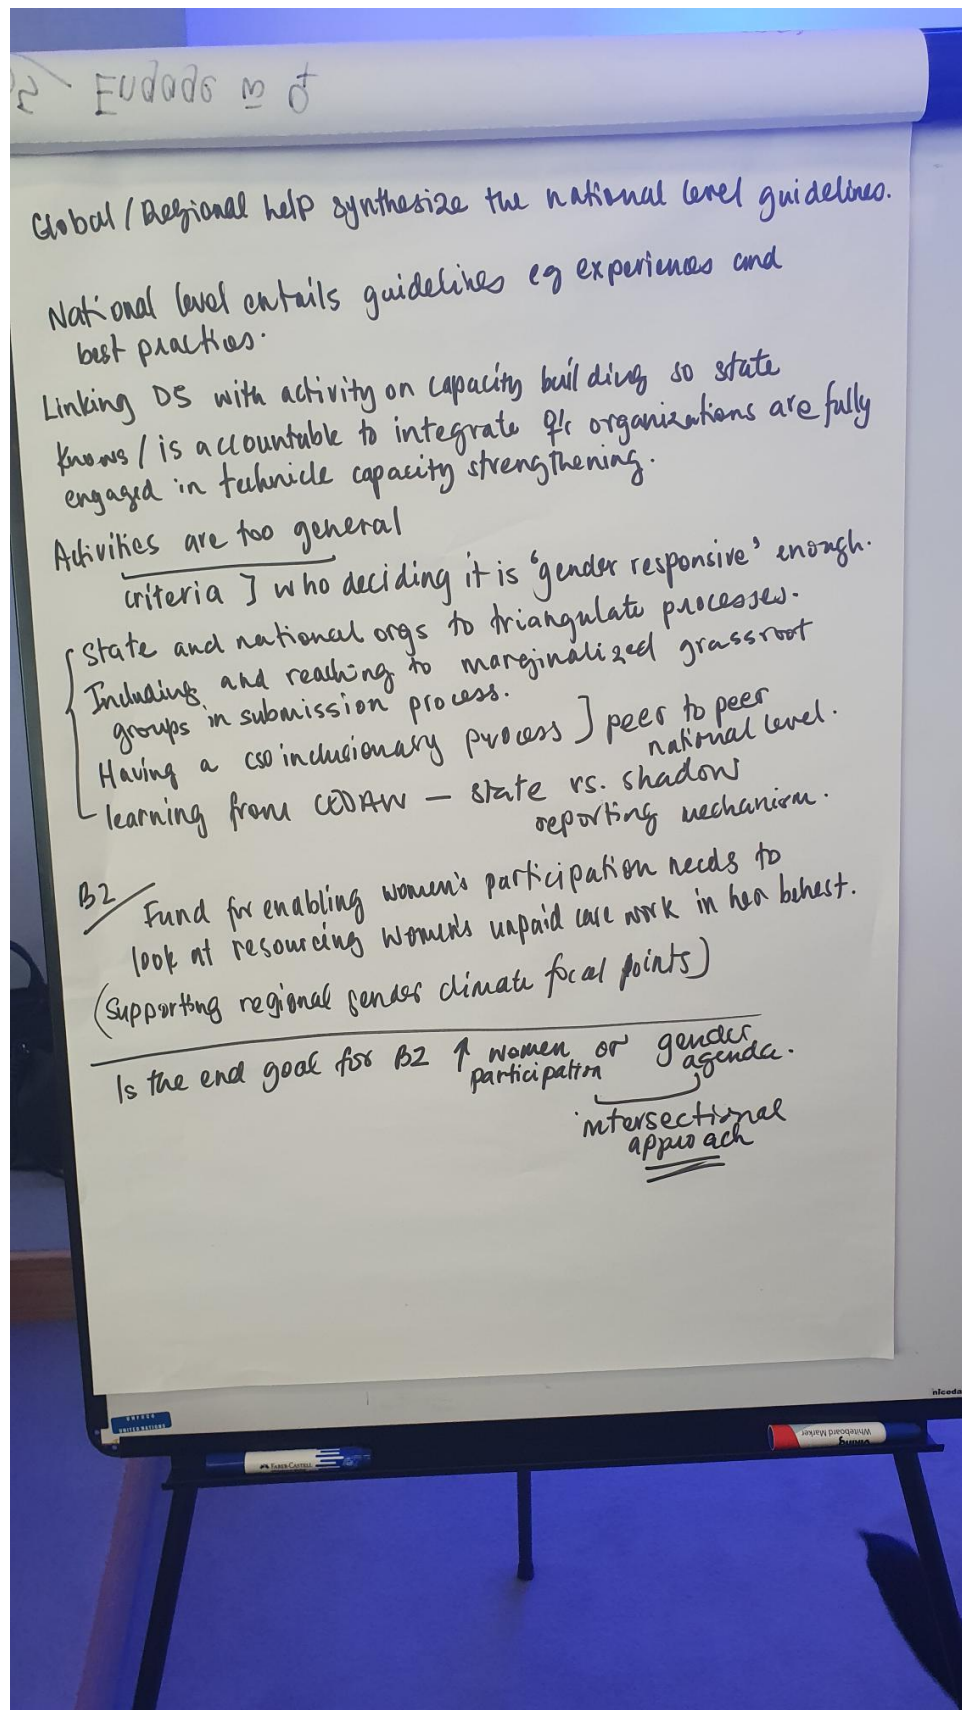

→ Parties are also different stage of NDCs.  
H other groups like WMRD, <sup>persons with</sup> disabilities, indigenous, displaced persons.

**Timeline:** → End of the period of the next GAP? ~~5 years~~  
→ Important to establish a timeline.  
5 yrs OR 10 yrs } Decision!!  
GAP Aligned to LWP } Submission having a workable deadline for GAP Party submission.

Who has mandate and Whose capacity:

- broader thinking on this in new GAP
- learning from UNCCD and their mapping.  
(current org. charge too ~~small~~ general)

National Action plans = with regular reviews that brought stakeholders together: gender incorporated with Dis Preparedness, Climate, gender. +  
to identify national gaps in implementation.

"Relevant agencies" is too broad. Countries to identify specific agencies and individuals at national levels

National → Regional → Global

Align Capacity Building agenda with agenda of negotiations and revisions of NDCs, MAP, LTREDS, ~~ARRs~~ etc.

Actionable = Specific ...

Deliverable = Cap. Building Strategies

at National & Regional<sup>Global?</sup>. Focused on the process of cap. building & responsible parties
