

Gender responsive climate action: from technology and innovative financing to policy

The Irish Government, together with CARE International, Gender Concerns International and the International Network of Women Engineers and Scientists invite you to our side event at COP24.

EU Pavilion, Room Vienna, Tuesday 4th December, 14.30 – 16.30

How can we achieve momentum in science and technology, in practice, and in policy choices to accelerate gender responsive climate action? What are the critical areas that we need to work on NOW to ensure the UNFCCC Gender Action Plan can deliver this momentum?

Side Event Programme
