

## Excom at 2<sup>nd</sup> Capacity Building Hub

24 October 2019

Facilitator:  
Rapporteur:

The objective of this working group is to consider and propose a level of engagement by the Excom the L&D block of the 2<sup>nd</sup> Capacity Building Hub.

### Background

Excom has received an invitation from PCCB to become a leading partner in the loss and damage themed half-day block at COP 25 which is scheduled for **11<sup>th</sup> December**. Loss and damage related proposals received by PCCB during their open call have been shared with the members. Engagement could range from short opening remarks to taking ownership of the half day block (look through the proposals received, provide feedback and organize the half day)
