

FUTURES LABS @ COP26

Bold Ideas for systems change to accelerate the transition to a regenerative, just world

Health : “Climate-Smart Healthcare for a Healthier Planet” Programme

Organised by the following partners:

Healthcare Without Harm

Greener NHS

Médecins Sans Frontières

Public Health Foundation of India

The World Health Organisation

<p>Vision Statement</p>	<p><i>What are the visions for the future you want to explore?</i></p> <p>Currently, climate-smart healthcare is not universally accessible, though there are many 'pockets of the future in the present' across the developing and developed world that demonstrate innovation in this space. We envision a world where these innovative models and technologies are collaboratively and globally shared, lowering emissions from the healthcare sector (which currently accounts for 4.4% of net global emissions), building a resilient healthcare system, and radically improving the health of both people and planet.</p>
<p>Challenges</p>	<p><i>What challenges are you experimenting with to get there?</i></p> <p>There are many innovative models, systems and technologies that already exist, but there is limited multilateral sharing of these and the associated learnings. Through increased collaboration between different countries and stakeholders, we can instigate learning across different systems of care and settings with variable resource levels and ensure the cross-fertilisation of solutions. We need to scale these solutions across all forms of healthcare (e.g. preventative and rehabilitative), while providing opportunities for different countries and communities to tailor their approach to suit their own specific context and needs.</p>
<p>4th Nov 1500-1630</p>	<p>Climate-Smart Healthcare for a Healthier Planet</p>
<p>10 minutes</p>	<p>Format: Opening speech Speaker: Sonia (overall event MC) to introduce the event, welcome the audience, and thank you for joining us from around the world.</p> <p>Opening fireside chat with:</p> <ul style="list-style-type: none"> ● COP26 Climate Champion - Nigel Topping ● Editor in Chief, BMJ - Fiona Godlee <p>The chat will discuss the twin crisis healthcare is going through (tackling both COVID-19 and climate change) and the hopes for the future.</p>
<p>Section 1: "People" - Building a climate-smart healthcare system starts with people, and we need to ensure that all visions of the future, solutions, and innovations start by responding to what people need. We start our journey by hearing from patients, medical students, and healthcare professionals at the front-line to understand what the key problems of today are and what they view as the needs for the future.</p>	
<p>10 minutes</p>	<p>Format: 'Teaser' 1 in conversation with Dame Jackie and Rosamund Speakers:</p> <ul style="list-style-type: none"> ● COP26 Ambassador, NHS - Dame Jackie Daniel (interviewer) ● Grassroots Campaigner on asthma and health issues related to air pollution - Rosamund Adoo Kissi-Debrah
<p>19 minutes</p>	<p>Format: Panel discussion 1 - "Reimagining the future: people" Moderator: Editor in Chief, BMJ - Fiona Godlee Participants:</p> <ul style="list-style-type: none"> ● Former Liaison Officer for Public Health, Medical Students' Association - Omnia El Omrani ● Highveld Community Youth Member - Mapule Mdluli (<i>virtual</i>) ● Prof./Director, Sunway Centre for Planetary Health, Malaysia - Dr. Jemilah Mahmood (<i>virtual</i>)

FUTURES LABS @ COP26

Bold ideas for systems change to accelerate the transition to a regenerative, just world

	<ul style="list-style-type: none"> Executive Director / Co-Founder, Indigenous Climate Action - Eriel Tchekwie Deranger
<p>Section 2: "Technology and Innovation" - Building on what we have heard from the front-line on the needs for the future, we look at what seeds of the future exist by hearing from health system leaders around the world. We explore the gaps between where we are and the future we need, and ideate which technological and innovative solutions are needed to get us there.</p>	
5 minutes	<p>Format: 'Teaser 2' Vox pop Video</p> <p>Participants: healthcare professionals sharing their wishes for the future of healthcare around the world, from the following organisations:</p> <ul style="list-style-type: none"> Health Care Without Harm (HCWH) The NHS The Public Health Foundation of India (PHFI) Médecins Sans Frontières (MSF)
19 minutes	<p>Format: Panel discussion 2 - "Reimagining the future: innovation and tech"</p> <p>Moderator: Health Care Without Harm - Josh Karliner</p> <p>Participants:</p> <ul style="list-style-type: none"> Executive Vice President, Chief Advocacy & Sustainability Officer, Providence Health System, USA - Ali Santore Executive Secretary, Andean Health Organisation - Maria del Carmen Calle (<i>virtual</i>) Anaesthetist from London - Dr Arun Tohani
<p>Section 3: "Systems" - We now know what people need, and what technologies can get us there, but to get full-systems change we need coordination and collaboration at a national and international level. In our final section, we explore how large-scale change can occur through hearing from the visions of different scale health systems (state, national, international), and the solutions we need to get there (policy changes, financing, etc.)</p>	
5 minutes	<p>Format: 'Teaser 3' Intervention by a health professional</p> <p>Speakers:</p> <ul style="list-style-type: none"> Executive Director, Médecins Sans Frontières, Geneva - Stephen Cornish
19 minutes	<p>Format: Panel discussion 3 - "Reimagining the future: systems"</p> <p>Moderator: Deputy Director, Centre of Environmental Health, Public Health Foundation of India, Poornima Prabhakaran</p> <p>Participants:</p> <ul style="list-style-type: none"> Chief Sustainability Officer, National Health Service, England - Nick Watts USA Senior Health Advisor - John Balbus Head of Climate Change and Health Programme at the World Health Organization - Dr Diarmid Campbell-Lendrum Senator of Santiago, Chile - Senator Guido Girardi
3 minutes	<p>Closing remarks are to be delivered by our MC, Sonia Roschnik, International Climate Policy Director, Health Care Without Harm, tying the sections together and summarising key actions highlighted during the session and further reinforcing the need for healthcare actors globally to collaborate and drive towards a healthier planet.</p>
