

Session SB65 (2026)

Session starts: 09-08-2026

Facilitative, Multilateral Consideration of Progress

A compilation of questions to – and answers by – **Honduras**
Exported on 1-10-2026 by the UNFCCC secretariat

Title: Exclusion of the Land Use, Land-Use Change, and Forestry (LULUCF) sector from Honduras's NDC target

Question From Party: European Union

Question raised on: 09.09.2026 CEST

Question Category: Mitigation actions, policies and measures supporting NDC implementation

Question: The latest National Greenhouse Gas (GHG) Inventory indicates that the LULUCF sector represents a significant net sink over the entire reporting period. However, the net removals of this sink have generally declined over the historical period, especially during the period between 2014 and 2022 (Figure 2.7 of the BTR). Could Honduras clarify the main drivers contributing to the decline in the LULUCF sector and share any information of which PaMs reported in section 3.5 are expected to contribute most to maintaining or enhancing the net sink in the future?

Answer:

Title: Underlying data for the Business as Usual (BaU) scenario

Question From Party: European Union

Question raised on: 09.09.2026 CEST

Question Category: NDC target (e.g. conditions, assumptions, methodologies)

Question: The European Union notes that Honduras's NDC target is expressed as a 16% reduction below a Business-as-Usual scenario by 2030. Could Honduras share its experience in developing and reporting the BaU scenario, including any challenges encountered and lessons learned? Could Honduras also share how it intends to approach the reporting of the BaU scenario in future BTRs, and whether it has identified any related capacity-building needs?

Answer:
