

BECOME PART OF THE CLIMATE CHANGE SOLUTION

The UN Climate Change is looking for Technical Experts

We are looking for experts to join a technical expert team and take an active role in addressing climate change.

Experienced technical experts will be a critical factor in ensuring the success of the Paris Agreement.

WHAT YOUR COLLEAGUES ARE SAYING

“What I like most is that you can help countries to improve their inventories. You can explain to them how possibly you would do it yourself considering your experiences, in my case those I have gained in my own country by my engagement with the inventory of Brazil and the application of the IPCC Guidelines and Guidance. And no matter how much experience you gain, you yourself are learning, learning, and learning. And you're communicating with others coming from so many different cultures with different national circumstances.”

**Thelma Krug, Vice-Chair IPCC
and lead technical expert in all processes**

HAVE YOU CONSIDERED BECOMING A TECHNICAL EXPERT ?

Learn new skills to advance your career

Help promote transparent national reporting of climate data

Apply your expertise for the benefit of other countries

Increase your network and meet new colleagues from around the world

Learn what other countries are doing to fight climate change

Bring experience and lessons learned home to your country

Travel to review activities throughout the world

United Nations
Framework Convention on
Climate Change

THE ROLE OF THE TECHNICAL EXPERT IS TO:

- 1** Review and analyse climate data and information submitted by a Party
- 2** Determine whether reporting meets the requirements
- 3** Provide advice to the Party to improve their reporting
- 4** Draft a report based on the findings

HOW TO BECOME A TECHNICAL EXPERT ?

- 1** Have experience in one or more of the following areas:
 - GHG inventories;
 - Climate policies and measures;
 - Climate finance, technology transfer and/or capacity building;
 - Land use, land use change and forestry/ REDD+; and/or
 - Other related climate information reported by Parties to the UNFCCC

- 2** Register as an expert in **the Roster of Experts and** complete the self-nomination form. This will alert your National Focal Point or relevant intergovernmental organisation to approve your self-nomination.

- 3** Complete the relevant training programme(s), including passing any necessary exam(s)

- 4** Actively participate in the review process and be a part of the climate change solution

REVIEW TRAINING OPPORTUNITIES

For more information on the Training Programmes available to become a technical expert participating in the review of the information submitted under the Paris Agreement and the Convention, please refer to our website.
