

2021 sessions of the subsidiary bodies (May–June)

SBSTA draft agenda item 9

Sources of input for the Global Stocktake

8 June 2021, 20:00 CEST

- At the first informal consultation on this matter held on 7 June, Parties exchanged views on complementing the list of sources of input for the global stocktake as included in decision 19/CMA.1, paragraphs 36 and 37
- Considering complementing the non-exhaustive list of sources of input included in paragraphs 36 and 37 of decision 19/CMA.1 as per paragraph 38 of the same decision, recognize the broad scope of sources which allows for comprehensive input to the global Stocktake
- Recognize that the existing non-exhaustive list is sufficiently comprehensive and provides a good basis for the first global stocktake and see no need to complement the list of sources of input
