

13 September 2023

**Nineteenth meeting of the Executive Committee of the Warsaw International Mechanism for Loss and
Damage associated with Climate Change Impacts, Bonn, Germany**

19 September–22. September 2023

Background paper by the Co-Chairs for items 6-11¹

I. Context

1. ExCom 17 (September 2022) adopted its second five-year rolling workplan (2023–2027) that contains 16 activities across five strategic workstreams (slow onset events, non-economic losses, comprehensive risk management, human mobility, and action and support) and 20 cross-cutting activities.
2. The workplan takes into account the Plans of Action of the five thematic expert groups of the ExCom, therefore the activities are not duplicative and their undertakings are synergistic across the workstreams.
3. The workplan also contains a placeholder for follow-up activities to be included in response to guidance by the COP/CMA. This placeholder enables the ExCom to respond to the evolving needs and concerns of developing countries vulnerable to the impacts of climate change and keep its activities compatible and current amid the progress in overall support architecture for loss and damage.
4. The table below provides an overview of the current status of the activities contained in the workplan and the linkages across activities (within ExCom's workplan and across plans of action of thematic expert groups). Where appropriate, possible issues for consideration at ExCom 19 are also included to facilitate the implementation of the activities.

II. Next steps

5. Noting the above, the ExCom may wish to consider the implementation status of activities of the workplan, and agree on the next steps accordingly, where appropriate, including by:
 - (a) Identifying which activities warrant a decision at ExCom 19 to achieve desired impacts in a timely manner;
 - (b) Prioritizing the consideration of those activities;
 - (c) Observing linkages across activities and agenda items;
 - (d) Any needed adjustments to respond to emerging needs and evolving contexts;
 - (e) Providing guidance to its thematic expert groups as needed and where appropriate.

¹ The background paper covers all activities of the second [five-year rolling workplan](#).

Table 1: Implementation monitor for cross-cutting activities

Activity number	Description of the activities and outcomes to be delivered in the next five years (2023–2027)	Possible approaches for delivering associated deliverables, including a brief description of the related activities	Indicative time frame for implementation/inception of work	Current status of activity Possible next steps/considerations at ExCom 19
1.	Organize a series of events and develop knowledge products to commemorate the 10th anniversary of the establishment of the WIM and its Executive Committee	<ul style="list-style-type: none"> • Invite other constituted bodies and expert groups to make contributions (for example, inputs to knowledge products and participation in events) as appropriate • Launch an art competition, inviting relevant stakeholders for submissions of, for example, photographs, paintings and drawings depicting the impacts of climate change and solutions for averting, minimizing and addressing loss and damage 	2023	<p>ExCom 18 tasked an intersessional group of champions to 1) advance prep work to hold a photo exhibition to commemorate the WIM’s 10th anniversary at COP 28 based on the ‘<i>implementation plan</i>’, and 2) identify and recommend HL speakers for the ExCom’s event at COP 28.</p> <p>SB 58 side event launched the Photo entry with the deadline 30 Sep.</p> <p>ExCom 19 – agree on the next steps in organizing the annual outreach event and an event at COP 28</p> <p>Linked with activities 2, 4</p>
2.	Foster public education and awareness-raising efforts at the regional, national and local level with a view to enhancing knowledge and understanding of and building capacity in relation to loss and damage	<ul style="list-style-type: none"> • Appoint a group of champions at the first regular meeting of the Executive Committee each year and organize, with the thematic expert groups and in consultation with the full membership of the Committee as appropriate, annual outreach events targeting loss and damage contact points and other focal points under the UNFCCC, with a view to strengthening their capacity on loss and damage, as appropriate • Participate in relevant regional and international events, dialogues and forums, as appropriate, including those organized by other constituted bodies • Maintain a calendar of relevant events and prioritize events with a view to participating in them, as appropriate 	2023 onward	<p>For the 2023 outreach event, ExCom 18 decided to focus on commemorating the WIM 10th anniversary</p> <p>Appoint additional champion members, as needed, to those carrying forward Activity 1</p> <p>Appoint a new group of champions at ExCom 20 (Spring 2024) for the planning of 2024 annual outreach events</p>
3.	Explore modalities for communication with and among relevant stakeholders in relation to	<ul style="list-style-type: none"> • Update the Executive Committee communication strategy, as appropriate, to take into account the second five-year rolling workplan and the plans of action of the thematic expert groups 	2023 onward	<p>Primary modalities for communications with relevant actors have been through the networks of the members of the ExCom, its thematic expert groups, and the secretariat</p>

Activity number	Description of the activities and outcomes to be delivered in the next five years (2023–2027)	Possible approaches for delivering associated deliverables, including a brief description of the related activities	Indicative time frame for implementation/ inception of work	Current status of activity Possible next steps/considerations at ExCom 19
	averting, minimizing and addressing loss and damage	<ul style="list-style-type: none"> • Facilitate the preparation of a newsletter to update on the activities and outputs of the thematic expert groups • Collaborate with entities that work on spatial data to create story maps at the community, sector and country level focusing on the impacts of loss and damage and efforts to avert, minimize and address loss and damage • Enhance an online presence (e.g. website) to provide information on the knowledge products and other activities of the thematic expert groups 		<p>team, the UNFCCC website and social media channels, ExCom and related events at COP/SB sessions.</p> <p>ExCom 8 (Sep 2018) adopted the ExCom communication strategy</p> <p>ExCom 19 – consider 1) the purpose, process/timeframe to develop an updated comm strategy; and 2) provide guidance to the secretariat on the frequency, modality, and target audience of a newsletter</p>
4.	Produce, encourage or endorse the production of knowledge products, such as policy briefs and case studies, and the sharing of best practices across workstreams to increase visibility of issues pertaining to loss and damage	<ul style="list-style-type: none"> • Prioritize topics for knowledge products • Identify the target audiences of knowledge products, including policymakers, and encourage the use of tools such as infographics to make them more accessible • Encourage and foster partnerships between the Executive Committee and the scientific community and other relevant partners 	2023 onward	<p>ExCom 18 identified priority knowledge products contained in the PoAs</p> <p>ExCom 19 – Identify what knowledge products (new or existing), if any, can support delivering Activity 1 this year</p> <p>Linked with Activity 1</p>
5.	Enhance synergies among the thematic expert groups and facilitate their engagement, including, with a view to fostering the sharing of information and partnerships with relevant communities of practice relevant to averting, minimizing and addressing loss and damage	<ul style="list-style-type: none"> • Hold cross-thematic expert group meetings annually in conjunction with the regular meetings of the Executive Committee • Invite thematic expert group members to contribute to the meetings of the Executive Committee, including under the standing agenda item on the science–policy nexus 	2023 onward	Cross-expert group meetings held between NELs and TFD in 2023
6.	Enhance engagement and partnerships with relevant constituted bodies	<ul style="list-style-type: none"> • Prepare and submit written inputs on loss and damage to support initiatives undertaken by other constituted bodies at the regional and international level, as appropriate • Appoint members to liaise with and attend meetings of the constituted bodies 	2023 onward	<p>Consider this activity in the context of activities that involve constituted bodies – i.e. Activities 1, 2, 7, 11, 16, 21, 25, 34, 36</p> <p>List of liaison members to be updated, as needed</p>

Activity number	Description of the activities and outcomes to be delivered in the next five years (2023–2027)	Possible approaches for delivering associated deliverables, including a brief description of the related activities	Indicative time frame for implementation/ inception of work	Current status of activity Possible next steps/considerations at ExCom 19
7.	Strengthen collaboration with the CGE	<ul style="list-style-type: none"> • Invite representatives of the constituted bodies to attend meetings of the Executive Committee • Share information through the liaison members • Continue the engagement with the CGE, including with regard to the training materials developed by the CGE and outreach events 	2023 onward	<p>Constituted bodies are invited to attend regular meetings of ExCom</p> <p>ExCom participated in two of the CGE’s regional hands-on training workshops on the ETF (Afrida and LAC) and plans to do so for the A-Pac workshop</p>
8.	Facilitate joint work by expert groups on slow onset events and on action and support, TEG-CRM and partner organizations of the NWP to promote the implementation of risk management approaches for slow onset and extreme events	<ul style="list-style-type: none"> • Explore the use of opportunities available under the NWP, such as the focal point forums, to identify common action areas to address knowledge gaps in relation to comprehensive climate risk management in developing countries and showcase associated good practices • Invite partner organizations under the NWP to engage in thematic expert group activities, as appropriate, considering the possible contribution of partner organizations to thematic meetings, outreach events, calls for submissions, and ways to enhance the user-friendliness and reach of knowledge products 	2023–2024	<p>Linked with agenda items 7 (SOEs workstream), 9 (CRM workstream) and 11 (Action and Support workstream)</p> <p>ExCom champion members to the respective EGs can identify entry points for specific contributions by NWP partner organizations in implementing PoAs, as needed, and engage them, as appropriate, with the assistance of the secretariat</p>
9.	Improve the Executive Committee's access to the expertise of relevant scientific and technical panels and bodies	Hold expert briefings, including by members of the thematic expert groups and IPCC authors as appropriate, to strengthen the science-policy interface	At the regular meetings of the Executive Committee	<p>ExCom regularly invites expert speakers at its regular meetings under a standing item on how the latest climate science can inform policymaking, and/or during thematic expert briefings held in the margins</p> <p>ExCom 18 identified two topics for future meetings. Accordingly, the WMO is invited to inform the ExCom on the science-policy nexus of the EW4All Initiative at ExCom 19</p>
10.	Engage with the scientific community, including indigenous, traditional and local knowledge holders on information and data	<ul style="list-style-type: none"> • Inform the scientific community about knowledge and capacity gaps in relation to averting, minimizing and addressing loss and damage 	2023 onward	<p>Ideas to be fleshed out on ways to share information with the scientific community on the gaps, challenges, and needs related to implementing policies and action on loss and damage in developing country contexts</p>

Activity number	Description of the activities and outcomes to be delivered in the next five years (2023–2027)	Possible approaches for delivering associated deliverables, including a brief description of the related activities	Indicative time frame for implementation/ inception of work	Current status of activity Possible next steps/considerations at ExCom 19
11.	Engage those that are at the forefront of climate change, such as women, youth, indigenous peoples, local communities and persons with disabilities	<ul style="list-style-type: none"> • Facilitate research on, and share good practices for, averting, minimizing and addressing loss and damage, including through long-term risk assessments and risk communications • Include in annual reports of the Executive Committee information on progress towards integrating a gender perspective into its work • Foster the collection, sharing, management and use of gender-disaggregated data • Encourage the thematic expert groups to mainstream gender and other human rights perspectives in their plans of action • Mainstream considerations relating to gender, youth, indigenous peoples, local communities and persons with disabilities in the work of the Executive Committee, in accordance with the gender action plan, the Action for Climate Empowerment work programme and the workplan of the Facilitative Working Group of the Local Communities and Indigenous Peoples Platform 	2023 onward	<p>Entry points for engaging those that are at the forefront of climate change to be identified from activities of the ExCom's workplan and/or EGs' PoAs</p> <p>A possible entry point for collaboration with LCIPP FWG. FWG representative(s) plan to be present at ExCom 19 and could contribute to the deliberations</p>
12.	Strengthen synergies with instruments, processes and mechanisms of the 2030 Agenda for Sustainable Development and the Sendai Framework for Disaster Risk Reduction 2015–2030	<ul style="list-style-type: none"> • Appoint liaison members to lead this activity • Invite stakeholders relevant to, and organizations acting as custodians of, the Sustainable Development Goals and the Sendai Framework for Disaster Risk Reduction 2015–2030 to attend meetings of the Executive Committee, as appropriate • Invite or engage the stakeholders relevant to, and custodians of, the Sustainable Development Goals and the Sendai Framework for Disaster Risk Reduction 2015–2030 in outreach events organized by the Executive Committee 	2023 onward	<p>ExCom 18 appointed liaison members</p> <p>Possible processes are laid out in the workplan. In implementing the activity, ExCom benefits from having a common understanding of the substantive aim – Exchange views on desired impacts from this activity on the delivery of the ExCom's workplan and/or EGs' PoAs</p>
13.	Develop technical guides in collaboration with the thematic expert groups, including sections on risk assessments, including long-term risk assessments, of climate change impacts; approaches to averting, minimizing and addressing loss and damage associated with the	<ul style="list-style-type: none"> • Prioritize and endorse topics for technical guides in order to guide the work of the thematic expert groups • Identify the target audience for the technical guides • Provide strategic guidance to the thematic expert groups • Provide space to collaborate on technical guides at the annual cross-thematic expert group meetings 	2023 onward	<p>Linked with agenda items 7–11 (workstreams on SOEs, NELs, CRM, human mobility, and Action & Support)</p> <p>Work ongoing by the SOEs EG, NELs EG, TFD</p>

Activity number	Description of the activities and outcomes to be delivered in the next five years (2023–2027)	Possible approaches for delivering associated deliverables, including a brief description of the related activities	Indicative time frame for implementation/ inception of work	Current status of activity Possible next steps/considerations at ExCom 19
	risk assessments; resources available for supporting such approaches; and monitoring systems for assessing the effectiveness of these approaches			
14.	Promote and disseminate technical guides and other knowledge products, including those by expert groups, to target audiences	<ul style="list-style-type: none"> • Create an online presence (e.g. website) to provide information on the knowledge products and other activities of the thematic expert groups • Use newsletters to capture information on the activities and outputs of the thematic expert groups 	2023 onward	To be considered at future ExCom meetings once technical guides have been finalized
15.	Facilitate capacity-building and training in relation to the application of technical guides and other knowledge products	<ul style="list-style-type: none"> • Present technical guides and knowledge products via virtual meetings • Encourage the thematic expert groups to provide capacity-building in relation to the application of technical guides • Organize events and webinars on the technical guides, including case studies detailing countries' experience of using them 	2024 onward	To be considered at ExCom 20 (Spring 2024) or future ExCom meetings once technical guides are published
16.	Compile information, identify gaps, and prepare guidance, tools and methodologies, as appropriate, for assessing needs related to averting, minimizing and addressing loss and damage at various levels	<ul style="list-style-type: none"> • Encourage the thematic expert groups, relevant constituted bodies, the operating entities of the Financial Mechanism and other partners, as appropriate, to identify, compile and prepare guidance, tools and methodologies • Explore opportunities for integrating such guidance, tools and methodologies into existing processes, such as the process to formulate and implement NAPs, the preparation of adaptation communications, and disaster risk reduction and other planning processes 	2023 onward	<p>Possible processes are laid out in the workplan. Initial steps for implementing the activity could entail an initial exchange for fleshing out possible directions for undertaking the activity</p> <ul style="list-style-type: none"> • Define types of needs (e.g. information, data, practical tools, capacity, financial, etc.) for assessing averting, minimizing and addressing loss and damage • Usage of information compiled for assessing such needs • Ways to identify gaps for assessing such needs

Activity number	Description of the activities and outcomes to be delivered in the next five years (2023–2027)	Possible approaches for delivering associated deliverables, including a brief description of the related activities	Indicative time frame for implementation/ inception of work	Current status of activity Possible next steps/considerations at ExCom 19
17.	Develop tools for integrating information on averting, minimizing and addressing loss and damage, and/or mainstream them in national planning and policymaking processes	Encourage countries to integrate approaches to averting, minimizing and addressing loss and damage into their national planning processes	2024 onward	To be considered at ExCom 20 (Spring 2024)
18.	Encourage relevant organizations, bodies, networks and experts to submit information on their progress in providing technical assistance to developing countries relevant to the Santiago network for inclusion in the annual report of the Executive Committee	<ul style="list-style-type: none"> • Broadly publicize the cut-off date for submitting information, using the UNFCCC submission portal, for inclusion in the upcoming annual report of the Executive Committee • Review the information submitted and provide guidance to the secretariat in preparing the upcoming annual report, as appropriate 	Annually	<p>The UNFCCC Submission portal entry has been created. The cut-off date for inclusion in this year's ExCom report is 9 September</p> <p>A draft report synthesizing the relevant information will be made available prior to the COP</p>
19.	Prepare recommendations for inclusion in the annual report of the Executive Committee, derived from the work of the Executive Committee and that of the thematic expert groups	Consider, at the last meeting of each year, potential areas of recommendations on the basis of progress made and inputs from the thematic expert groups, and include them in the annual reports	Annually	Linked with item 14 of ExCom 19
20.	Evaluate progress in implementing the second five-year rolling workplan of the Executive Committee and the plans of action of the thematic expert groups	<ul style="list-style-type: none"> • Conduct a survey to assess the uptake of products developed by the Executive Committee and the thematic expert groups and to what extent they respond to the needs of developing countries • Conduct a stocktake of activities implemented under the second five-year rolling workplan and the plans of action 	2024–2025	To be considered at ExCom 20 (Spring 2024) or future meetings in 2024–25

Table 2: Implementation monitor for strategic workstream (a) on enhancing facilitation and cooperation in relation to slow onset events

Activity number	Description of the activities and outcomes to be delivered (2023–2027), as contained in the workplan	Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan	Indicative time frame for implementation/ inception of work	Current status of activity Possible next steps/considerations at ExCom 19
21.	Facilitate continued collaboration with the Technology Executive Committee to highlight nationally relevant technologies for averting, minimizing and addressing slow onset events in coastal zones	Extend an official invitation to strengthen collaboration	2023–2024	TEC plans to attend ExCom 19 to present its relevant ongoing/planned relevant work At ExCom 19 – 1) consider a possible deliverable(s) to be delivered out of this activity; 2) explore jointly with the TEC reps way(s) for cross-fertilization of each other’s (TEC, ExCom) work
22.	Increase awareness of and share information on slow onset events	<ul style="list-style-type: none"> • Update, and share information on, the database of organizations working on slow onset events • Organize outreach events on slow onset events with a view to sharing information on, for example, integrating slow onset event considerations in national planning and policy responses • Organize technical meetings and awareness raising sessions, in cooperation with the TEG-CRM and the expert group on slow onset events, on recovery and rehabilitation and permanent loss as a result of slow onset events 	2023 onward	<p>At ExCom 19 – 1) consider how best to tie in the outreach events referred to in the ‘Possible approaches’ column to the process envisaged by the SOEs EG to produce three thematic technical guides; 2) request experts of the SOEs EG and TEG-CRM to cross-review each others’ PoAs to identify opportunities for technical meetings and awareness-raising sessions referred to in the ‘Possible approaches’ column, and make proposals to the respective ExCom champions; 3) request the secretariat to continue update the database referred to in the ‘Possible approaches’ column</p> <p>Linked with Activity 8, and item 11 (WS (c) on CRM</p>

Table 3: Implementation monitor for strategic workstream (b) on enhancing facilitation and cooperation in relation to noneconomic losses

<i>Activity number</i>	<i>Description of the activities and outcomes to be delivered (2023–2027)</i>	<i>Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan</i>	<i>Indicative time frame for implementation/ inception of work</i>	<i>Current status of activity Possible next steps/considerations at ExCom 19</i>
23.	Cooperate with the expert group on non-economic losses to develop and periodically update the database on tools for assessing non-economic losses	Assist the expert group on non-economic losses in establishing and maintaining the database on tools for assessing non-economic losses, as appropriate	2024 onward	To be considered at future meeting(s)
24.	Facilitate collaboration between the expert group on non-economic losses and the TFD on developing a technical guide on non-economic losses in the context of human mobility	Provide specific direction for the technical guides and schedule joint meetings	2023 onward	A joint meeting of NELs EG and TFD took place to kick-start the development of the joint tech guide, and lead experts from both groups have been working together, [the draft outline was circulated on x date/is available under agenda item 8, for ExCom’s endorsement] Collaboration to develop this tech guide is included in the PoAs of both NELs EG and TFD Linked with Activity 27
25.	Expand knowledge of the role of traditional knowledge in averting, minimizing and addressing non-economic losses	Invite the Facilitative Working Group of the Local Communities and Indigenous Peoples Platform to explore ways of taking into account traditional knowledge in developing technical products and identifying good practices with regard to facilitating the participation of indigenous peoples in identifying non-economic losses	2023 onward	LCIPP FWG is invited to inform the deliberations at ExCom 19
26.	Facilitate the development of new partnerships with stakeholders engaged in work on non-economic losses	Invite relevant stakeholders to present their work to the Executive Committee on the basis of the mapping of potential partners, to be conducted by the expert group on noneconomic losses	2023 onward	An initial survey administered under the NELs PoA in 2022 produced an inventory of 48 organizations that expressed interest in collaborating on NELs work The survey was re-disseminated post-ExCom 18 and is available online to continue widening the pool of potential partner organizations

Table 4: Implementation monitor for strategic workstream (c) on enhancing facilitation and cooperation in relation to comprehensive risk management

<i>Activity number</i>	<i>Description of the activities and outcomes to be delivered (2023–2027)</i>	<i>Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan</i>	<i>Indicative time frame for implementation/inception of work</i>	<i>Current status of activity Possible next steps/considerations at ExCom 19</i>
27.	Engage relevant experts to collect and disseminate information on methodologies for integrating long-term risk assessments, including those associated with the quantification of risks, into comprehensive climate risk management approaches, including national and subnational assessment and planning processes	<ul style="list-style-type: none">• Cooperate with the TEG-CRM• Increase visibility and use of the UNDRR technical guidance on comprehensive risk assessment and planning, by including a link on the loss and damage parts of the UNFCCC website• Engage practitioners and decision-makers in undertaking comprehensive risk assessments and planning in the context of climate change	2023 onward	Linked with the technical guides mandate (Activity 13), which includes a section on long-term risk assessment, and with Activity 16, among other activities UNDRR tech guidance and other knowledge products catalyzed by the TEG-CRM PoA 1 are available on ExCom’s CRM workstream webpage At ExCom 19 – consider how best to tie in this activity with the EGs’ processes/plans to develop respective technical guides
28.	Maintain and promote the Fiji Clearing House for Risk Transfer	Cooperate with relevant partners to identify ways to improve the Fiji Clearing House for Risk Transfer for stakeholders	2023 onward	Fiji CH was launched at COP 23. Its interactive part, Risk Talk, which was developed and maintained by the Fiji CH partner, InsuResilience Secretariat, ceased its service in 2022.
29.	Update and promote the WIM compendium on comprehensive risk management approaches ²	<ul style="list-style-type: none">• Collaborate with the TEG-CRM to periodically update the compendium to include new and emerging information on good practices and use of tools, including technical guides, in relation to comprehensive risk management approaches• Obtain feedback on the compendium from other thematic expert groups	2024	The current Compendium was published in 2019 At ExCom 19 – agree on the roadmap to update the compendium, with a view to making available a final version in 2024. See the CRM champions’ note

Table 5: Implementation monitor for strategic workstream (d) on enhancing facilitation and cooperation in relation to human mobility

<i>Activity number</i>	<i>Description of the activities and outcomes to be delivered in the next five years (2023–2027)</i>	<i>Possible approaches for delivering associated deliverables, including a brief description of the related activities</i>	<i>Indicative time frame for implementation/ inception of work</i>	<i>Current status of activity Possible next steps/considerations at ExCom 19</i>
30.	Facilitate and support collaboration between the expert group on non-economic losses and the TFD on developing a technical guide on noneconomic losses in the context of human mobility	Provide specific direction for the development of the technical guide and schedule joint meetings	2023	A joint meeting of NELs EG and TFD took place to kick-start the development of the joint tech guide, lead experts from both groups have been working together, [the draft outline was circulated on x date/is available under agenda item 8, for ExCom’s endorsement] Collaboration to develop this tech guide is included in the PoAs of both NELs EG and TFD Linked with Activity 24
31.	Increase visibility and use of the recommendations on integrated approaches ³	<ul style="list-style-type: none"> • Promote the recommendations on the UNFCCC website and among relevant partners and stakeholders • Collaborate with the TFD on its communication and outreach 	2023 onward	The TFD PoA implements this activity directly. TFD briefing is planned for 20 Sep in the margin of ExCom 19 to consult ExCom members for guidance on ways in which ExCom can further facilitate TFD work

³ Decision 10/CP.24, annex

Table 6: Implementation monitor for strategic workstream (e) on enhancing facilitation and cooperation in relation to action and support

<i>Activity number</i>	<i>Description of the activities and outcomes to be delivered (2023–2027)</i>	<i>Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan</i>	<i>Indicative time frame for implementation/ inception of work</i>	<i>Current status of activity Possible next steps/considerations at ExCom 19</i>
32.	Strengthen collaboration with the GCF, including with a view to clarifying how developing country Parties may access funding for developing funding proposals related to the strategic workstreams of the five-year rolling workplan, and include information thereon in the annual reports of the Executive Committee	Extend an invitation to the GCF to strengthen collaboration	2023 onward	The GCF secretariat presented their relevant work at ExCom 18, and ExCom welcomed their offer for follow-up informal session(s) Linked with Activity 34
33.	Initiate collaboration with the GEF	Extend an invitation to collaborate with the GEF	2023	The GEF secretariat presented their relevant work at ExCom 18, and ExCom welcomed their offer for follow-up informal session(s) Linked with Activity 34
34.	Strengthen collaboration with the SCF	Consider the input prepared by the expert group on action and support and submit it to the SCF for consideration in preparing its draft guidance for the operating entities of the Financial Mechanism	Annually	SCF provided an update on its relevant work at ExCom 18. Invitation sent to SCF, along with other CBs, to attend ExCom 19 to inform the meeting with its relevant current work ExCom is invited by the SCF to submit its input on the draft guidance to GCF and/or GEF. [ASEG champions, as per its PoA Activity a.1, are preparing draft input which was circulated to members on x date] At ExCom 19 – consider and adopt ASEG’s proposal and submit it to the SCF

Activity number	Description of the activities and outcomes to be delivered (2023–2027)	Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan	Indicative time frame for implementation/inception of work	Current status of activity Possible next steps/considerations at ExCom 19
35.	Cooperate with the SBI on organizing the Glasgow Dialogue	<ul style="list-style-type: none"> • Invite the SBI Chair to share the information with the Executive Committee on its progress in preparing for the Glasgow Dialogue • Establish a group of champions to provide input for consideration by the Executive Committee 	Until SB60	<p>ExCom 17 established a group of champions; ExCom 18 invited the SBI Chair, Champions held a follow-up meeting with the SBI Chair and produced a draft input of ExCom, which subsequently was submitted by ExCom. Input included suggested themes, guiding questions, and speakers for the 2nd Glasgow Dialogue (GD2)</p> <p>At GD2, the Co-Chairs provided opening remarks and the ExCom presented its ongoing and upcoming technical work during the scene-setting session</p> <p>The next group of champions to be established at ExCom 20 in time to prepare for GD3</p>
36.	Explore possible areas of collaboration with the PCCB	<ul style="list-style-type: none"> • Encourage the liaison member to participate in the informal coordination group of the PCCB • Extend an official invitation to the Co-Chairs of the PCCB to explore how to advance joint work on capacity-building in relation to loss and damage 		<p>ExCom 18 decided to respond to the PCCB’s call for submissions on ‘<i>Capacity-building support for adaptation, with a focus on addressing gaps and needs related to formulating and implementing national adaptation plans</i>’, and adopted the input, which was subsequently submitted to PCCB</p> <p>Currently, the liaison member for the Non-Annex I constituency is vacant.</p> <p>At ExCom 19 – designate a NA1 liaison member</p>

Note: The rolling workplan also contains a placeholder for the ExCom to include follow-up activities.
