

8 March 2024

**Twentieth meeting of the Executive Committee of the Warsaw International Mechanism for Loss and
Damage associated with Climate Change Impacts, Bonn, Germany**

12–15 March 2024

Background paper by the Co-Chairs for items 8-13¹

I. Context

1. ExCom 17 (September 2022) adopted its second five-year rolling workplan (2023–2027) that contains 16 activities across five strategic workstreams (slow onset events, non-economic losses, comprehensive risk management, human mobility, and action and support) and 10 cross-cutting activities.
2. The workplan takes into account the Plans of Action of the five thematic expert groups of the ExCom, therefore the activities are not duplicative and their undertakings are synergistic across the workstreams.
3. The workplan also contains a placeholder for follow-up activities to be included in response to guidance by the COP/CMA. This placeholder enables the ExCom to respond to the evolving needs and concerns of developing countries vulnerable to the impacts of climate change and keep its activities compatible and current amid the progress in overall support architecture for loss and damage.
4. The table below provides an overview of the current status of the activities contained in the workplan and the linkages across activities (within ExCom's workplan and across plans of action of thematic expert groups). Where appropriate, possible issues for consideration at ExCom 20 are also included to facilitate the implementation of the activities.

II. Next steps

5. Noting the above, the ExCom may wish to consider the implementation status of activities of the workplan, and agree on the next steps accordingly, where appropriate, including by:
 - (a) Identifying which activities warrant a decision at ExCom 20 to achieve desired impacts in a timely manner;
 - (b) Prioritizing the consideration of those activities;
 - (c) Observing linkages across activities and agenda items;
 - (d) Any needed adjustments to respond to emerging needs and evolving contexts;
 - (e) Providing guidance to its thematic expert groups as needed and where appropriate.

¹ The background paper covers all activities of the second [five-year rolling workplan](#).

Table 1: Implementation monitor for cross-cutting activities

| Activity number | Description of the activities and outcomes to be delivered in the next five years (2023–2027) | Possible approaches for delivering associated deliverables, including a brief description of the related activities | Indicative time frame for implementation/ inception of work | Current status of activity Possible next steps/considerations at ExCom 20 |
|-----------------|--|---|---|---|
| 1. | Organize a series of events and develop knowledge products to commemorate the 10th anniversary of the establishment of the WIM and its Executive Committee | <ul style="list-style-type: none"> • Invite other constituted bodies and expert groups to make contributions (for example, inputs to knowledge products and participation in events) as appropriate • Launch an art competition, inviting relevant stakeholders for submissions of, for example, photographs, paintings and drawings depicting the impacts of climate change and solutions for averting, minimizing and addressing loss and damage | 2023 | Activity completed |
| 2. | Foster public education and awareness-raising efforts at the regional, national and local level with a view to enhancing knowledge and understanding of and building capacity in relation to loss and damage | <ul style="list-style-type: none"> • Appoint a group of champions at the first regular meeting of the Executive Committee each year and organize, with the thematic expert groups and in consultation with the full membership of the Committee as appropriate, annual outreach events targeting loss and damage contact points and other focal points under the UNFCCC, with a view to strengthening their capacity on loss and damage, as appropriate • Participate in relevant regional and international events, dialogues and forums, as appropriate, including those organized by other constituted bodies • Maintain a calendar of relevant events and prioritize events with a view to participating in them, as appropriate | 2023 onward | <p>For the 2023 outreach event, ExCom 18 decided to focus on commemorating the WIM 10th anniversary</p> <p>ExCom 20 to consider approach/theme for the 2024 outreach events, and appoint a group of champions to lead the planning and associated intersessional work</p> |
| 3. | Explore modalities for communication with and among relevant stakeholders in relation to averting, minimizing and addressing loss and damage | <ul style="list-style-type: none"> • Update the Executive Committee communication strategy, as appropriate, to take into account the second five-year rolling workplan and the plans of action of the thematic expert groups • Facilitate the preparation of a newsletter to update on the activities and outputs of the thematic expert groups • Collaborate with entities that work on spatial data to create story maps at the community, sector and country level focusing on the impacts of loss and damage and efforts to avert, minimize and address loss and damage | 2023 onward | <p>ExCom 19 adopted an updated communication strategy of the ExCom and a template of the newsletter</p> <p>1st newsletter issued on 1 Dec 2023. The 2nd edition to be issued prior to SB 60</p> <p>Relevant webpages maintained and the WIM and ExCom overview pages enhanced</p> |

| Activity number | Description of the activities and outcomes to be delivered in the next five years (2023–2027) | Possible approaches for delivering associated deliverables, including a brief description of the related activities | Indicative time frame for implementation/inception of work | Current status of activity Possible next steps/considerations at ExCom 20 |
|-----------------|---|---|--|---|
| | | <ul style="list-style-type: none"> • Enhance an online presence (e.g. website) to provide information on the knowledge products and other activities of the thematic expert groups | | Teasers produced to enhance the visibility of the knowledge products in the pipeline in 2024–25 |
| 4. | Produce, encourage or endorse the production of knowledge products, such as policy briefs and case studies, and the sharing of best practices across workstreams to increase visibility of issues pertaining to loss and damage | <ul style="list-style-type: none"> • Prioritize topics for knowledge products • Identify the target audiences of knowledge products, including policymakers, and encourage the use of tools such as infographics to make them more accessible • Encourage and foster partnerships between the Executive Committee and the scientific community and other relevant partners | 2023 onward | <p>ExCom 18 identified priority knowledge products contained in the PoAs</p> <p>As part of the implementation of activity 1, ExCom produced a teaser series featuring upcoming knowledge products</p> <p>ExCom 20: take stock of the progress of each product and adjust the timeframe, as needed</p> |
| 5. | Enhance synergies among the thematic expert groups and facilitate their engagement, including, with a view to fostering the sharing of information and partnerships with relevant communities of practice relevant to averting, minimizing and addressing loss and damage | <ul style="list-style-type: none"> • Hold cross-thematic expert group meetings annually in conjunction with the regular meetings of the Executive Committee • Invite thematic expert group members to contribute to the meetings of the Executive Committee, including under the standing agenda item on the science–policy nexus | 2023 onward | <p>Cross-thematic expert group meetings held between NELs and TFD in 2023 and Q1 2024 to jointly produce a technical guide</p> <p>An annual cross-thematic expert group (all groups) meeting planned in conjunction with ExCom 21</p> <p>A calendar of meetings of the ExCom, thematic expert groups and the groups of champions is maintained on the ExCom Collaboration space to facilitate effective planning and collaboration</p> <p>ExCom 20: schedule all meetings envisioned for each group in first half of 2024 and enter the tentative dates in the calendar</p> |
| 6. | Enhance engagement and partnerships with relevant constituted bodies | <ul style="list-style-type: none"> • Prepare and submit written inputs on loss and damage to support initiatives undertaken by other constituted bodies at the regional and international level, as appropriate | 2023 onward | Consider this activity in the context of activities that involve constituted bodies |

| Activity number | Description of the activities and outcomes to be delivered in the next five years (2023–2027) | Possible approaches for delivering associated deliverables, including a brief description of the related activities | Indicative time frame for implementation/ inception of work | Current status of activity Possible next steps/considerations at ExCom 20 |
|-----------------|---|--|---|---|
| | | <ul style="list-style-type: none"> • Appoint members to liaise with and attend meetings of the constituted bodies • Invite representatives of the constituted bodies to attend meetings of the Executive Committee | | <p>– Link with Activities 2, 7, 11, 16, 21, 25, 34, 36</p> <p>Update the list of liaison members, as needed</p> <p>Constituted bodies are invited to attend regular meetings of ExCom</p> |
| 7. | Strengthen collaboration with the CGE | <ul style="list-style-type: none"> • Share information through the liaison members • Continue the engagement with the CGE, including with regard to the training materials developed by the CGE and outreach events | 2023 onward | <p>In 2023 ExCom reviewed CGE Training Material on Reporting Information Related to Climate Change Impacts and Adaptation as well as provided briefings during the CGE’s regional hands-on training workshops on the ETF handbook (Africa, LAC, Asia-Pacific)</p> <p>ExCom 20: consider this activity in the context of ExCom 20 agenda item 5 (guidance from CMA 5/COP 28), specifically concerning the preparation of voluntary guidelines for enhancing the collection and management of data and information to inform the preparation of BTRs (Decision -/CMA.5 para 133)</p> <p>Linked with activity 17</p> |
| 8. | Facilitate joint work by expert groups on slow onset events and on action and support, TEG-CRM and partner organizations of the NWP to promote the implementation of risk management approaches for | <ul style="list-style-type: none"> • Explore the use of opportunities available under the NWP, such as the focal point forums, to identify common action areas to address knowledge gaps in relation to comprehensive climate risk management in developing countries and showcase associated good practices • Invite partner organizations under the NWP to engage in thematic expert group activities, as appropriate, considering the possible contribution of partner organizations to thematic meetings, outreach | 2023–2024 | <p>NWP partner organizations are included in the distribution list for disseminating information, inviting inputs or expressing interests for contribution for developing knowledge products (e.g. Compendium vol.2, paper on the NELs, etc.). Over 25 expert members of the</p> |

| Activity number | Description of the activities and outcomes to be delivered in the next five years (2023–2027) | Possible approaches for delivering associated deliverables, including a brief description of the related activities | Indicative time frame for implementation/inception of work | Current status of activity Possible next steps/considerations at ExCom 20 |
|-----------------|---|---|--|---|
| 9. | slow onset and extreme events Improve the Executive Committee's access to the expertise of relevant scientific and technical panels and bodies | events, calls for submissions, and ways to enhance the user-friendliness and reach of knowledge products Hold expert briefings, including by members of the thematic expert groups and IPCC authors as appropriate, to strengthen the science-policy interface | At the regular meetings of the Executive Committee | WIM ExCom expert groups come from partner organizations of the NWP. ExCom regularly invites expert speakers to its regular meetings under a standing item on how the latest climate science can inform policymaking, and to thematic briefings held in the margins of its meetings |
| 10. | Engage with the scientific community, including indigenous, traditional and local knowledge holders on information and data relating to averting, minimizing and addressing loss and damage | <ul style="list-style-type: none"> • Inform the scientific community about knowledge and capacity gaps in relation to averting, minimizing and addressing loss and damage • Facilitate research on, and share good practices for, averting, minimizing and addressing loss and damage, including through long-term risk assessments and risk communications | 2023 onward | Per ExCom 19 decision to focus on traditional and indigenous knowledge under a ExCom 20 agenda item on science-policy nexus. Two speakers via LCIPP FWG are invited accordingly Linked with Activity 11 |
| 11. | Engage those that are at the forefront of climate change, such as women, youth, indigenous peoples, local communities and persons with disabilities | <ul style="list-style-type: none"> • Include in annual reports of the Executive Committee information on progress towards integrating a gender perspective into its work • Foster the collection, sharing, management and use of gender-disaggregated data • Encourage the thematic expert groups to mainstream gender and other human rights perspectives in their plans of action • Mainstream considerations relating to gender, youth, indigenous peoples, local communities and persons with disabilities in the work of the Executive Committee, in accordance with the gender action plan, the Action for Climate Empowerment work programme and the workplan of the Facilitative Working Group of the Local Communities and Indigenous Peoples Platform | 2023 onward | ExCom engages UN Women, UNESCO, LCIPP FWG, YOUNGOs as members of its thematic expert groups to channel perspectives from those that are at the forefront of climate change. Further entry points can be identified in implementing activities of the ExCom's workplan and/or EGs' PoAs ExCom has liaison/FPs on matters relating to gender and indigenous peoples (LCIPP FWG) Linked with Activity 11 |
| 12. | Strengthen synergies with instruments, processes and mechanisms of the 2030 Agenda for Sustainable | <ul style="list-style-type: none"> • Appoint liaison members to lead this activity • Invite stakeholders relevant to, and organizations acting as custodians of, the Sustainable Development Goals and the Sendai Framework for | 2023 onward | ExCom 18 appointed liaison members UN custodian agencies are invited to all regular meetings of ExCom |

| Activity number | Description of the activities and outcomes to be delivered in the next five years (2023–2027) | Possible approaches for delivering associated deliverables, including a brief description of the related activities | Indicative time frame for implementation/inception of work | Current status of activity Possible next steps/considerations at ExCom 20 |
|-----------------|--|---|--|--|
| | Development and the Sendai Framework for Disaster Risk Reduction 2015–2030 | Disaster Risk Reduction 2015–2030 to attend meetings of the Executive Committee, as appropriate <ul style="list-style-type: none"> • Invite or engage the stakeholders relevant to, and custodians of, the Sustainable Development Goals and the Sendai Framework for Disaster Risk Reduction 2015–2030 in outreach events organized by the Executive Committee | | ExCom engages X# of custodians of the SDGs and Sendai Framework for DRR as members of its five thematic expert groups |
| 13. | Develop technical guides in collaboration with the thematic expert groups, including sections on risk assessments, including long-term risk assessments, of climate change impacts; approaches to averting, minimizing and addressing loss and damage associated with the risk assessments; resources available for supporting such approaches; and monitoring systems for assessing the effectiveness of these approaches | <ul style="list-style-type: none"> • Prioritize and endorse topics for technical guides in order to guide the work of the thematic expert groups • Identify the target audience for the technical guides • Provide strategic guidance to the thematic expert groups • Provide space to collaborate on technical guides at the annual cross-thematic expert group meetings | 2023 onward | Work ongoing by the SOEs EG, NELs EG, TFD |
| 14. | Promote and disseminate technical guides and other knowledge products, including those by expert groups, to target audiences | <ul style="list-style-type: none"> • Create an online presence (e.g. website) to provide information on the knowledge products and other activities of the thematic expert groups • Use newsletters to capture information on the activities and outputs of the thematic expert groups | 2023 onward | Thematic expert groups webpages and a 2024 knowledge products webpage are maintained and updated. Products and key activities of ExCom and its groups are advertised in the Newsletter |
| 15. | Facilitate capacity-building and training in relation to the application of technical guides and other knowledge products | <ul style="list-style-type: none"> • Present technical guides and knowledge products via virtual meetings • Encourage the thematic expert groups to provide capacity-building in relation to the application of technical guides | 2024 onward | To be considered at future ExCom meetings once technical guides are published |

| Activity number | Description of the activities and outcomes to be delivered in the next five years (2023–2027) | Possible approaches for delivering associated deliverables, including a brief description of the related activities | Indicative time frame for implementation/ inception of work | Current status of activity Possible next steps/considerations at ExCom 20 |
|-----------------|--|--|---|---|
| 16. | Compile information, identify gaps, and prepare guidance, tools and methodologies, as appropriate, for assessing needs related to averting, minimizing and addressing loss and damage at various levels | <ul style="list-style-type: none"> Organize events and webinars on the technical guides, including case studies detailing countries' experience of using them Encourage the thematic expert groups, relevant constituted bodies, the operating entities of the Financial Mechanism and other partners, as appropriate, to identify, compile and prepare guidance, tools and methodologies Explore opportunities for integrating such guidance, tools and methodologies into existing processes, such as the process to formulate and implement NAPs, the preparation of adaptation communications, and disaster risk reduction and other planning processes | 2023 onward | Possible processes are laid out in the workplan. ExCom 20 could consider scope/directions for undertaking the activity, e.g. approach to compile existing tools, modalities to identify gaps for assessing needs, types of guidance, tools that could respond the gaps. Potential link with activity 17 |
| 17. | Develop tools for integrating information on averting, minimizing and addressing loss and damage, and/or mainstream them in national planning and policymaking processes | Encourage countries to integrate approaches to averting, minimizing and addressing loss and damage into their national planning processes | 2024 onward | ExCom 20 could consider possible output/ products of this activity, modalities for delivery, ways to capitalize on thematic products currently being developed, and or included in new plan(s) of action of thematic expert group(s) Potential link with Activity 16, and new [mandate on the preparation of voluntary guidelines for enhancing the collection and management of data and information to inform the preparation of BTRs (GST 1 outcome Decision - /CMA.5 para 133] |
| 18. | Encourage relevant organizations, bodies, networks and experts to submit information on their progress in providing technical assistance to developing countries relevant to the Santiago network for inclusion in the | <ul style="list-style-type: none"> Broadly publicize the cut-off date for submitting information, using the UNFCCC submission portal, for inclusion in the upcoming annual report of the Executive Committee Review the information submitted and provide guidance to the secretariat in preparing the upcoming annual report, as appropriate | Annually | Cut-off date in the 2nd quarter of the year, submissions to be compiled in Sep-Oct |

| <i>Activity number</i> | <i>Description of the activities and outcomes to be delivered in the next five years (2023–2027)</i> | <i>Possible approaches for delivering associated deliverables, including a brief description of the related activities</i> | <i>Indicative time frame for implementation/inception of work</i> | <i>Current status of activity Possible next steps/considerations at ExCom 20</i> |
|------------------------|--|---|---|---|
| | annual report of the Executive Committee | | | |
| 19. | Prepare recommendations for inclusion in the annual report of the Executive Committee, derived from the work of the Executive Committee and that of the thematic expert groups | Consider, at the last meeting of each year, potential areas of recommendations on the basis of progress made and inputs from the thematic expert groups, and include them in the annual reports | Annually | To be considered at ExCom 21 |
| 20. | Evaluate progress in implementing the second five-year rolling workplan of the Executive Committee and the plans of action of the thematic expert groups | <ul style="list-style-type: none"> • Conduct a survey to assess the uptake of products developed by the Executive Committee and the thematic expert groups and to what extent they respond to the needs of developing countries • Conduct a stocktake of activities implemented under the second five-year rolling workplan and the plans of action | 2024–2025 | ExCom 20 could consider approach for this activity e.g. potential guiding questions and target groups of audience |

Table 2: Implementation monitor for strategic workstream (a) on enhancing facilitation and cooperation in relation to slow onset events

| Activity number | Description of the activities and outcomes to be delivered (2023–2027), as contained in the workplan | Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan | Indicative time frame for implementation/inception of work | Current status of activity Possible next steps/considerations at ExCom 20 |
|-----------------|---|--|--|---|
| 21. | Facilitate continued collaboration with the Technology Executive Committee to highlight nationally relevant technologies for averting, minimizing and addressing slow onset events in coastal zones | Extend an official invitation to strengthen collaboration | 2023–2024 | Initial exchange with the TEC held at ExCom 19 to inform each other’s work regarding early warning systems, and to inform each other’s relevant knowledge products as appropriate |
| 22. | Increase awareness of and share information on slow onset events | <ul style="list-style-type: none"> • Update, and share information on, the database of organizations working on slow onset events • Organize outreach events on slow onset events with a view to sharing information on, for example, integrating slow onset event considerations in national planning and policy responses • Organize technical meetings and awareness raising sessions, in cooperation with the TEG-CRM and the expert group on slow onset events, on recovery and rehabilitation and permanent loss as a result of slow onset events | 2023 onward | <p>Linked with Activity 3 of the PoA of the SOEs EG and production of technical guides</p> <p>Teaser on three technical guides on SOEs published</p> <p>ExCom 20 to endorse the 2nd phase of the rolling PoA of SOEs-EG (2024-2026) [and the draft outline of the technical guide(s)]</p> |

Table 3: Implementation monitor for strategic workstream (b) on enhancing facilitation and cooperation in relation to noneconomic losses

| <i>Activity number</i> | <i>Description of the activities and outcomes to be delivered (2023–2027)</i> | <i>Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan</i> | <i>Indicative time frame for implementation/inception of work</i> | <i>Current status of activity Possible next steps/considerations at ExCom 20</i> |
|------------------------|--|--|---|--|
| 23. | Cooperate with the expert group on non-economic losses to develop and periodically update the database on tools for assessing non-economic losses | Assist the expert group on non-economic losses in establishing and maintaining the database on tools for assessing non-economic losses, as appropriate | 2024 onward | To be considered at future meetings after the finalization of a paper on non-economic losses (Activity 1 of the NELs PoA) |
| 24. | Facilitate collaboration between the expert group on non-economic losses and the TFD on developing a technical guide on non-economic losses in the context of human mobility | Provide specific direction for the technical guides and schedule joint meetings | 2023 onward | Teaser published Touch-base call with NELs and TFD co-leads and ExCom champions on 13 February 2024 (Q1). Next step is ExCom’s endorsement of the draft outline Collaboration to develop this tech guide is included in the PoAs of both NELs EG and TFD Linked with Activity 30 |
| 25. | Expand knowledge of the role of traditional knowledge in averting, minimizing and addressing non-economic losses | Invite the Facilitative Working Group of the Local Communities and Indigenous Peoples Platform to explore ways of taking into account traditional knowledge in developing technical products and identifying good practices with regard to facilitating the participation of indigenous peoples in identifying non-economic losses | 2023 onward | ExCom 20: FWG speakers will inform deliberations under agenda item 7 on the science-policy nexus Link with Activity 9 |
| 26. | Facilitate the development of new partnerships with stakeholders engaged in work on non-economic losses | Invite relevant stakeholders to present their work to the Executive Committee on the basis of the mapping of potential partners, to be conducted by the expert group on noneconomic losses | 2023 onward | An initial survey administered under the NELs PoA in 2022 produced an inventory of 48 organizations that expressed interest in collaborating on NELs work, which is available online since 25 October 2023, clustered according to the NELs PoA activities Online form for stakeholders to express interest continues to be available on the NELs webpage Throughout 2024, the online list will be updated |

Table 4: Implementation monitor for strategic workstream (c) on enhancing facilitation and cooperation in relation to comprehensive risk management

| <i>Activity number</i> | <i>Description of the activities and outcomes to be delivered (2023–2027)</i> | <i>Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan</i> | <i>Indicative time frame for implementation/ inception of work</i> | <i>Current status of activity Possible next steps/considerations at ExCom 20</i> |
|------------------------|--|---|--|--|
| 27. | Engage relevant experts to collect and disseminate information on methodologies for integrating long-term risk assessments, including those associated with the quantification of risks, into comprehensive climate risk management approaches, including national and subnational assessment and planning processes | <ul style="list-style-type: none">• Cooperate with the TEG-CRM• Increase visibility and use of the UNDRR technical guidance on comprehensive risk assessment and planning, by including a link on the loss and damage parts of the UNFCCC website• Engage practitioners and decision-makers in undertaking comprehensive risk assessments and planning in the context of climate change | 2023 onward | Linked with the TG mandate (Activity 13), which includes a section on long-term risk assessment, and with Activity 16, among other activities UNDRR tech guidance and other knowledge products catalyzed by the TEG-CRM PoA 1 are available on ExCom’s CRM workstream webpage |
| 28. | Maintain and promote the Fiji Clearing House for Risk Transfer | Cooperate with relevant partners to identify ways to improve the Fiji Clearing House for Risk Transfer for stakeholders | 2023 onward | Fiji CH was launched at COP 23. Its interactive part, Risk Talk, which was developed and maintained by the Fiji CH partner, InsuResilience Secretariat, ceased its service in 2022.ExCom 20 to consider scope/approach for this activity. |
| 29. | Update and promote the WIM compendium on comprehensive risk management approaches ² | <ul style="list-style-type: none">• Collaborate with the TEG-CRM to periodically update the compendium to include new and emerging information on good practices and use of tools, including technical guides, in relation to comprehensive risk management approaches• Obtain feedback on the compendium from other thematic expert groups | 2024 | ExCom 19 agreed on the process and timeframe for the Compendium Vol.2. Teaser published. A call for case studies to inform the work has been issued and shared with TEG-CRM. Inputs received [are][will be made] available on the CRM page |

Table 5: Implementation monitor for strategic workstream (d) on enhancing facilitation and cooperation in relation to human mobility

| <i>Activity number</i> | <i>Description of the activities and outcomes to be delivered in the next five years (2023–2027)</i> | <i>Possible approaches for delivering associated deliverables, including a brief description of the related activities</i> | <i>Indicative time frame for implementation/ inception of work</i> | <i>Current status of activity Possible next steps/considerations at ExCom 20</i> |
|------------------------|---|---|--|--|
| 30. | Facilitate and support collaboration between the expert group on non-economic losses and the TFD on developing a technical guide on noneconomic losses in the context of human mobility | Provide specific direction for the development of the technical guide and schedule joint meetings | 2023 | Linked with Activity 24 Collaboration to develop this tech guide is included in the PoAs of both NELs EG and TFD Work ongoing under the TFD and NELs |
| 31. | Increase visibility and use of the recommendations on integrated approaches ³ | <ul style="list-style-type: none">• Promote the recommendations on the UNFCCC website and among relevant partners and stakeholders• Collaborate with the TFD on its communication and outreach | 2023 onward | The TFD PoA implements this activity directly. ExCom 20 can consult the TFD experts on ways in which ExCom could enhance the TFD's work |

³ Decision 10/CP.24, annex

Table 6: Implementation monitor for strategic workstream (e) on enhancing facilitation and cooperation in relation to action and support

| <i>Activity number</i> | <i>Description of the activities and outcomes to be delivered (2023–2027)</i> | <i>Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan</i> | <i>Indicative time frame for implementation/ inception of work</i> | <i>Current status of activity Possible next steps/considerations at ExCom 20</i> |
|------------------------|--|---|--|--|
| 32. | Strengthen collaboration with the GCF, including with a view to clarifying how developing country Parties may access funding for developing funding proposals related to the strategic workstreams of the five-year rolling workplan, and include information thereon in the annual reports of the Executive Committee | Extend an invitation to the GCF to strengthen collaboration | 2023 onward | GCF is invited to the regular ExCom meetings ExCom participated in the 8th annual meeting between the GCF and the constituted bodies at COP 28 [A report on case studies of projects funded by the GCF in relation to the strategic workstreams of the WIM finalized – ASEG PoA] |
| 33. | Initiate collaboration with the GEF | Extend an invitation to collaborate with the GEF | 2023 | GEF presented at ExCom 17 and ExCom 18 An invitation has been extended to the GEF to participate in the regular ExCom meetings. |
| 34. | Strengthen collaboration with the SCF | Consider the input prepared by the expert group on action and support and submit it to the SCF for consideration in preparing its draft guidance for the operating entities of the Financial Mechanism | Annually | ExCom 19 adopted inputs by ASEG and submit it to the SCF Input for 2024 to be considered at ExCom 21 |
| 35. | Cooperate with the SBI on organizing the Glasgow Dialogue | <ul style="list-style-type: none">• Invite the SBI Chair to share the information with the Executive Committee on its progress in preparing for the Glasgow Dialogue• Establish a group of champions to provide input for consideration by the Executive Committee | Until SB60 | At ExCom 20, to be considered under Item 12 (b) ExCom 20 to establish group of champions to carry the work forward |
| 36. | Explore possible areas of collaboration with the PCCB | <ul style="list-style-type: none">• Encourage the liaison member to participate in the informal coordination group of the PCCB | | ExCom 19 endorsed the contribution to the booklet under development by PCCB on adaptation and resilience building, which has been promoted at COP28 |

| <i>Activity number</i> | <i>Description of the activities and outcomes to be delivered (2023–2027)</i> | <i>Possible approaches for delivering associated deliverables, including a brief description of the related activities, as contained in the workplan</i> | <i>Indicative time frame for implementation/ inception of work</i> | <i>Current status of activity Possible next steps/considerations at ExCom 20</i> |
|------------------------|---|---|--|--|
| | | <ul style="list-style-type: none"> • Extend an official invitation to the Co-Chairs of the PCCB to explore how to advance joint work on capacity-building in relation to loss and damage | | |

Note: The rolling workplan also contains a placeholder for the ExCom to include follow-up activities.
