

SUBMISSION BY THE GOVERNMENT OF INDONESIA

SBI 46 Agenda item 6 - Development of Modalities and Procedures for the Operation and Use of a Public Registry referred to in Article 7, paragraph 12 of the Paris Agreement

Pursuant to the conclusion adopted by the Subsidiary Body for Implementation Forty-sixth session on agenda item 6, the Government of the Republic of Indonesia herewith submits its submissions on the views on the following issues relating to the modalities and procedures for the operation and use of the public registry referred to in Article 7, paragraph 12 of the Paris Agreement:

- (a) Development of modalities and procedures for the operation and use of public registry for adaptation communication should be based on existing reporting related to adaptation communication.
- (b) The functions of the public registry for adaptation communication:
 - Provides web-based facilities for Parties (NFP) in submitting information on adaptation communication;
 - Provide web-based application system facilities for the UNFCCC Secretariat to showcase global efforts made in climate change adaptation.
- (c) The structure and design elements of the adaptation communication should cover menus for all elements of adaptation communication.
- d) Possible ways to enhance the security, accessibility and user-friendliness of, and support in, using the public registry:
 - The NFP should be authorized to submit the adaptation communication to the UNFCCC secretariat;
 - NFP should be given an account to submit adaptation communication
- e) Possible linkages
 - Linkages adaptation communication registry with NDC registry.
