Presentation: <ul style="list-style-type: none">• Outcomes of COP 28• Process for the final review of the implementation of the enhanced Lima work programme and its GAP, identifying progress, challenges, gaps and priorities• Template for submissions	UN Climate Change Gender team
Q&A	All participants, moderated by UN Climate Change Gender Team
Closing	Fleur Newman Lead, Action Empowerment Unit (UN Climate Change)

Gender under the UNFCCC

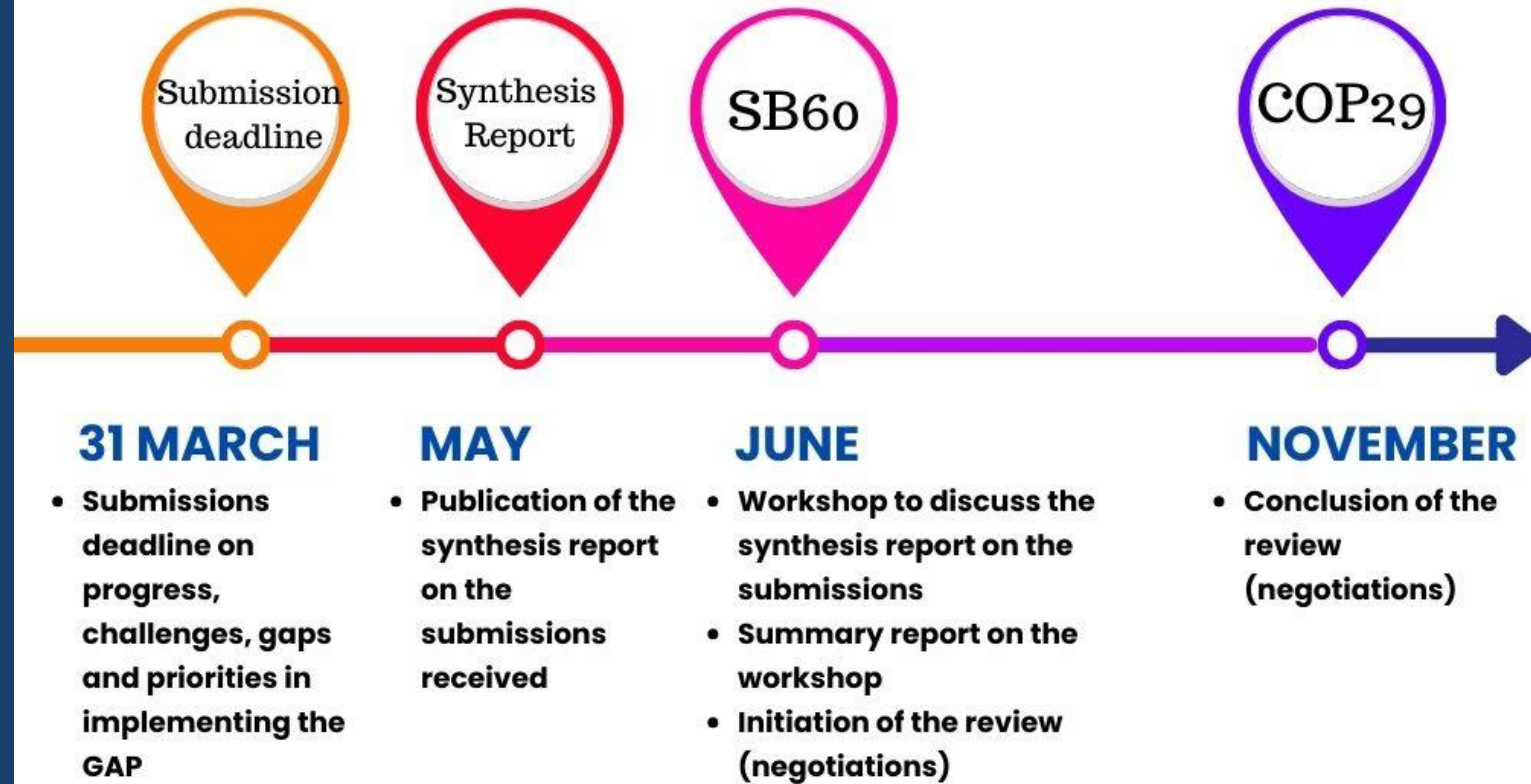

Gender COP 28 outcomes

Decision	Reference
Glasgow–Sharm el-Sheikh work programme on the global goal on adaptation referred to in decision 7/CMA.3	... 2030 all Parties have in place country-driven, gender-responsive, participatory and fully transparent national adaptation plans, policy instruments, and planning processes and/or strategies... ...Encourages Parties, when implementing the UAE Framework for Global Climate Resilience and their adaptation efforts, ... to take into account, where possible, country-driven, gender-responsive , participatory and fully transparent approaches, as well as human rights approaches, and to ensure intergenerational equity and social justice, taking into consideration vulnerable ecosystems, groups and communities and including children, youth and persons with disabilities;
Matters relating to the Adaptation Fund	Welcomes the progress of implementation of the updated gender policy and action plan of the Adaptation Fund and the commencement of the pilot phase of application of the Adaptation Fund gender scorecard and requests the Adaptation Fund Board to increase the gender-responsiveness of the resources provided by the Adaptation Fund
Matters relating to the Standing Committee on Finance	Welcomes accelerating climate action and resilience through gender-responsive finance as the topic for the 2024 Forum of the Standing Committee on Finance and accelerating climate actionencourages the SCF to continue to enhance its efforts to ensure gender responsiveness in implementing its workplan and requests Parties to consider gender balance and geographical representation when nominating members
Report of the GCF	Encourages the Board to continue to implement the Green Climate Fund updated gender policy and gender action plan
Report of the GEF	encourages the GEF to continue to strengthen its Small Grants Programme to provide better support for youth, women and girls, local communities and Indigenous Peoples; .. Invites the Global Environment Facility to encourage its implementing agencies to facilitate more active engagement of women, youth, local communities and Indigenous Peoples in the formulation and implementation of its projects and programmes ... Welcomes the policy on gender equality adopted by the Council of the Global Environment Facility ⁴ and encourages the Global Environment Facility to ensure that all its implementing agencies apply this policy
Enhancing climate technology development and transfer through the Technology Mechanism	Commends the Technology Executive Committee and the Climate Technology Centre and Network on their continued efforts to mainstream gender considerations in the implementation of the joint work programme of the Technology Mechanism for 2023–2027, including the launch of the global roster of gender and climate change technology experts and the endorsement of the Climate Technology Centre and Network gender policy and action plan, and invites them to continue mainstreaming gender considerations in their work; ... Notes with concern that gender balance ... has not yet been achieved and encourages Parties to take steps...
Santiago network for averting, minimizing and addressing loss and damage under the Warsaw International Mechanism for Loss and Damage associated with Climate Change Impacts	The Santiago network secretariat shall commission one independent review of the performance of the network, including sustainability and sources of funding, adequacy of funding levels relative to technical assistance requests, timelines, effectiveness, engagement, gender-responsiveness and delivery of technical assistance to communities particularly vulnerable to the adverse effects of climate change
Outcome of the first global stocktake	Reaffirms that sustainable and just solutions to the climate crisis must be founded on meaningful and effective social dialogue and participation of all stakeholders, including Indigenous Peoples, local communities and governments, women, and youth and children, and notes that the global transition to low emissions and climate-resilient development provides opportunities and challenges for sustainable development and poverty eradication Encourages the implementation of integrated, multi-sectoral solutions, such as land use management, sustainable agriculture, resilient food systems, nature-based solutions and ecosystem-based approaches, and protecting, conserving and restoring nature and ecosystems, including forests, mountains and other terrestrial and marine and coastal ecosystems, which may offer economic, social and environmental benefits such as improved resilience and well-being, and that adaptation can contribute to mitigating impacts and losses, as part of a country-driven gender-responsive and participatory approach, building on the best available science as well as Indigenous Peoples' knowledge and local knowledge systems... segments of the population that are already vulnerable owing to geography, socioeconomic status, livelihood, gender, age, minority status, marginalization, displacement, or disability, as well as the ecosystems that they depend on, in responding to loss and damage associated with climate change impacts; ... Urges Parties and non-Party stakeholders to join efforts to accelerate delivery through inclusive, multilevel, gender-responsive and cooperative action ... encourages Parties to implement climate policy and action that is gender-responsive, fully respects human rights, and empowers youth and children .. Affirms that consideration will be given to the outcome of the review of the enhanced Lima work programme on gender and its gender action plan, including to the application of this outcome mutatis mutandis in considering the outcomes of the first global stocktake...
UAE Just transition work programme	Decides that the work programme shall include the following elements: .. Just transition of the workforce and the creation of decent work and quality jobs in accordance with nationally defined development priorities, including through social dialogue, social protection and the recognition of labour rights, inclusive and participatory approaches to just transitions that leave no one behind

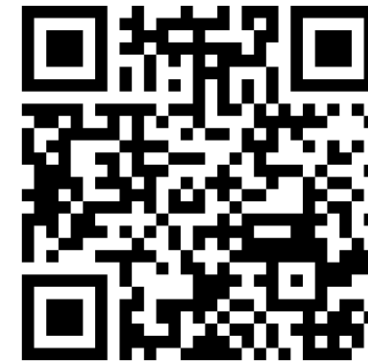

COP 28 outcome on gender and climate change TIMELINE 2024

Workshop to discuss the synthesis report on the submissions

- SB 60
- Objective: discuss the synthesis report, with focused regional-level and global-level discussions
- Summary report of the workshop

Submissions

Who?

- Parties
- United Nations entities
- UNFCCC constituted bodies
- Other relevant organizations

31 March 2024 via
the Submission
Portal!

Content

- **Progress, challenges, gaps and priorities** in implementing the GAP, categorized by deliverable or output for each activity under the GAP
- Future work to be undertaken on gender and climate change

Template for submissions

- **Objective:** support you in capturing your initiatives that fall under activities of the five GAP priority areas as well as other initiatives that may support the broad objectives of the GAP
- Includes a section to capture **forward-looking ideas** on further work
- Its use is **voluntary**
- Available in Word and Excel
- Possibility to upload multiple files (preferably of less than 10 MB)

Review webpage - Template for submissions and FAQ

Topics > Gender > Workstreams > Gender Action Plan

Review of the enhanced Lima work programme on gender and its GAP.

At COP 28 Parties agreed that the final **review** of the implementation of the enhanced Lima work programme and its GAP **will be initiated at the sixtieth session of the Subsidiary Body for Implementation, in June 2024** – identifying progress, challenges, gaps and priorities in implementing the GAP, and further work to be undertaken – and **conclude** at its SBI 61 in November 2024 (*Decision 15/CP.28*).

Below you will find more information on the final review.

Template for submissions

Submission template

The UN Climate Change secretariat developed this template to support you in drafting your submission and better capturing your inputs. The document, available both in Word and Excel formats, contains sections to capture your initiatives under the five GAP priority areas and other activities that support the objectives of the GAP, as well as forward-looking segments.

[Download the word form here](#)

[Download the excel form here](#)

Using the template is **voluntary**. Parties and non-Party stakeholders may use the format they deem appropriate.
After completing your submission, you are invited to upload it in PDF format in the UNFCCC submissions portal.

Q & A

Q&A

1. Who can do a submission?

- Parties
- United Nations entities...

<https://unfccc.int/gender/final-review>

Template for submissions - Identification

United Nations
Climate Change

#ActOnTheGAP

1. Identification

Party/Organization	
Contact details	
Additional identification information (if needed)	

United Nations
Climate Change

Template for submissions - Implementing the GAP, categorized by deliverable/output

→ Progress, challenges, gaps, and priorities in implementing the gender action plan

Type of initiative

b. Please select the type of initiative you are reporting on

- Capacity-building
 Technical support
 Advocacy
 Funding
 Knowledge product
 Other (please specify using the box below)

1. Categorized by deliverable or output for each activity under the gender action plan – Initiatives under GAP Activities

Activities	Responsibilities	Timeline	Deliverables/outputs	Level of implementation
A.4 Strengthen the evidence base and understanding of the differentiated impacts of climate change on men and women and the role of women as agents of change and on opportunities for women	Parties, relevant organizations, the research community	SB 54 (2021)	- Dimensions and examples of the gender-differentiated impacts of climate change - The role of women as agents of change - Opportunities for women	International, regional, national
	Secretariat	By SB 56 (2022)	Synthesis report on the submissions	International
	Invite Parties, relevant organizations, the research community and the Intergovernmental Panel on Climate Change to participate in an event to present relevant information upon publication of the Sixth Assessment Report of the Intergovernmental Panel on Climate Change	By COP 28 (2022)	SBI-SBSTA special event	International, regional, national

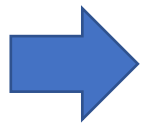

Template for submissions – Implementing the GAP

- GAP Priority area and activity
- Type of initiative
- GAP Deliverable/output
- Brief description
- Deliverables/outputs and outcomes
- Timeline
- Place of implementation
- Participants
- Funding
- Complementarity with other GAP priority areas and activities
- Additional information
- Reflecting on the GAP Activity

Template for submissions – Implementing the GAP, categorized by objectives

2. Progress, challenges, gaps, and priorities in implementing the gender action plan, **categorized by objectives:**

Initiatives that may fulfil the objectives of the enhanced Lima work programme on gender and its GAP, but that do not fall under a specific GAP activity

Example of a GAP priority area objective

B. Gender balance, participation and women's leadership

5. To achieve and sustain the full, equal and meaningful participation of women in the UNFCCC process.

Template for submissions – Forward-looking piece

3. Further work to be undertaken to advance gender equality and the empowerment of women and girls thereby enhancing the effectiveness of climate policy and action to achieve the goals and objectives of the Convention and Paris Agreement

- What has worked well and could be continued?
- What has not worked well and why?
- What else may be needed to facilitate greater gender integration in climate policies, plans, strategies and action?
- How can an activity's alignment of objective/purpose, (measurable) deliverable/output/result and possible impact/effect/outcome be assured?
- Who (Parties, constituted bodies, specific entities, etc.) will implement the activity?
- What linkages to other UNFCCC processes, milestones or timelines may be relevant?

How to upload your submission?

Process and meetings > Parties & Non-Party Stakeholders > Non-Party Stakeholders > Submissions

Submission Portal.

The [Submission and Statement Portal](#) is a public site. The submissions and statements can be accessed easily through filters and a search function, which includes searching the documents' content. Uploading submissions and statements is however limited to certain groups. Please refer to the information under Parties and non-Party stakeholders below for further details.

The portal includes submissions from Parties since July 2014 - earlier submissions, including those from non-Party stakeholders, can be found under the respective "archive" sections below.

Calls for upcoming sessions can easily be identified under the relevant section. Parties, as well as non-Party stakeholders, may upload their submissions at their earliest convenience..
