
Information note by the Chair of the Subsidiary Body for Scientific and Technological Advice on the deadline for submitting views on how to enhance climate action on land

1. As requested by the Conference of the Parties (COP) at its twenty-fifth session,¹ the Chair of the Subsidiary Body for Scientific and Technological Advice (SBSTA) held a dialogue on the relationship between land and climate change adaptation related matters² on 30 November and 1 December 2020 virtually during the UNFCCC Climate Dialogues 2020, and prepared an informal summary report on the dialogue.³
2. COP 26 welcomed that informal summary report and invited Parties to submit views on how to enhance climate action on land under the existing UNFCCC programmes and activities referred to in paragraph 75 thereof, on which it requested the SBSTA Chair to prepare another informal summary report for consideration at COP 27.⁴
3. The SBSTA Chair wishes to inform Parties that submissions of such views received by 15 September 2022 via the submission portal⁵ will be considered in preparing the relevant informal summary report that the SBSTA Chair will publish ahead of COP27.
