Information on Support Available

A Source of Support

A.1	Support title	Austrian NAMA Initiative
A.2	Support description	The *Austrian NAMA Initiative* aims to identify NAMAs to be supported in selected countries for preparation and implementation. These NAMAs will contribute to (i) decrease greenhouse gas emissions, (ii) foster sustainable development and (iii) build capacity in the host countries. The three main pillars of the initiative are: 1. Country Focus The focus of the initiative is African countries and SIDS but not exclusively. Proposals on NAMAs from outside these focus areas may be considered as well. 2. Scope of the Initiative NAMAs supported under the initiative should be structured according to the following phases: *Phase 1 - Conceptual design and preparation*: During this phase, the NAMA will be prepared under close coordination with host country strategies, supported by technical assistance. Crediting under a potential future carbon market mechanism shall be part of the analysis. *Phase 2 - Piloting*: Under the second phase, NAMAs will be piloted to gain first-hand experience for further replication and up-scaling through additional funding by other donors, financing institutions and the private sector. 3. Priority measures under the initiative NAMA activities, including projects and programmes, that foster *access to sustainable energy*, should be at the core of the initiative, in order to promote the implementation of small-scale renewable and energy-efficient technologies (such as small hydropower, wind parks of limited size, energy-efficient lighting), as well as, household-centred or community-based technologies (PV panels, solar-thermal installations, efficient cook stoves, and others). *Additional information will be announced separately on a dedicated website of the Initiative.*

D Support available

D.1	Support available for	[X] Preparation of NAMAs
D.1.1	Regional scope	[X] Africa [ ] Asia Pacific [ ] Eastern Europe [ ] Latin America and the Caribbean [X] LDCs [X] SIDS [ ] Middle East and North Africa [X] Other Focus on African countri
D.1.2	Comments (provide further details on regional scope)	Focus of the Austrian NAMA Initiative is on African countries and SIDS. Proposals from outside the focus area may be considered as well.
D.1.3	Target country (in any)	All
D.2.1	Amount of Financial support	1000000

D.2.2 Maximum amount of Financial support per NAMA	500000
D.2.3 Type of required Financial support	[X] Grant [ ] Loan (sovereign) [ ] Loan (Private) [ ] Concessional loan [ ] Guarantee [ ] Equity [X] Carbon finance [ ] Other
D.2.4 Comments on Financial support	Financial support provided through the NAMA Initiative is delivered in the form of grants, which serve to mobilise additional funding, including in particular private investment and (concessional) loans from financing institutions. An overall support volume up to € 500,000 is foreseen per NAMA activity.
D.3.1 Amount of Technological support	
D.3.2 Maximum amount of Technological support per NAMA	
D.3.3 Type of Technology	[ ] Bioenergy [ ] Energy Efficiency [ ] Hydropower [ ] Wind [ ] Carbon Capture and Storage [ ] Low till / No till [ ] Cleaner fuels [ ] Geothermal [ ] Solar [ ] Ocean Energy [ ] Energy end use [ ] Land fill gas collection [ ] Other
D.3.4 Comments on Technological support	
D.4.1 Amount of Capacity Building support	
D.4.2 Maximum amount of Capacity Building support per NAMA	
D.4.3 Type of Capacity Building support	[ ] Individual level [X] Institutional level [ ] Systemic level [ ] Other
D.4.4 Comments on Capacity Building support	The *Austrian NAMA Initiative* will provide funding for technical assistance and capacity building for building up the relevant institutional and regulatory capacities in eligible countries in the context of the supported NAMA activities.

E Types of action that may be supported

E.1 Sector	[X] Energy supply [X] Residential and Commercial buildings [ ] Agriculture [ ] Waste management [ ] Transport and its Infrastructure [ ] Industry [ ] Forestry [X] Other Energy efficiency
E.2 Type of action	[ ] National/ Sectoral goal [ ] Strategy [ ] National/Sectoral policy or program

	☐ Project: Investment in machinery ☐ Project: Investment in infrastructure ☐ Project : other ☒ Other Project: Preparation and j

F Process for the provision of support

F.1 Description	In principle national authorities or qualified delivery organizations proving the full endorsement by the respective national government/national ministry or agency for the implementation of the NAMA activity. National authorities are requested to name qualified delivery organization(s), which will support the implementation of the NAMA activity.
F.2 Link	to be announced
