THE WOMEN AND GENDER CONSTITUENCY

AT SB62

**WOMEN & GENDER
CONSTITUENCY**
womengenderclimate.org

2025 Proposed Engagement Plan

- Despite the intensifying anti-rights agenda and the rise of conservative governments, the Women and Gender Constituency remains unwavering in our pursuit of #FeministClimateJustice for a **healthy planet and the wellbeing of our communities**.
- In 2025, our focus will be on **advancing rights and amplifying feminist analysis and narratives**. We will do this through strategic technical engagement in policy processes and direct negotiations via our thematic working groups, as well as through bold public-facing international media campaigns and manifestations inside the halls of SB62 and COP30.
- As we push forward, **we will take deliberate action to prevent harm, resist regression** on hard-won commitments, and safeguard progressive language. We will also seize global moments to mobilize, reconnect, and stand in solidarity with our members and the broader global feminist movement within UNFCCC processes and beyond.
- **We will continue our solidarity calling an end to genocides**

WGC Thematic Priorities for the COP30

- 1. Gender:** Engage and influence an ambitious Gender Action Plan, fit for the purpose of advancing gender equality within UNFCCC and creating policy conditions to end climate and gender injustices across the world.
- 2. Reforming UNFCCC:** The Women and Gender Constituency will lead efforts to make COP governance, processes, and physical spaces gender-transformative, while working in solidarity with others to confront critical and existential challenges including rules of procedure, corporate capture, the expo-like nature of COPs, and the broader crisis facing multilateralism.
- 3. Adaptation:** The WGC will engage strategically and tactically to ensure that the Global Goal on Adaptation includes robust gender-responsive indicators that reflect the lived experiences and needs of women and marginalized groups in all their diversities. We will advocate for National Adaptation Plan (NAP) processes and implementation that are inclusive, participatory, and gender-responsive, while also pushing for the Adaptation Fund to be replenished at a scale that matches the urgency and needs of frontline communities.
- 4. Just Transition:** Investing in reimagining and shaping the ideals of a feminist Just Transition, while developing practical resources and tools to support advocates and governments in its implementation. We will also make dedicated capacities available to collaborate with allies in influencing and shaping the second phase of the Just Transition Work Programme and deliver a just transition escalation in 2025.
