

Table for tracking the progress of implementation of mandates for the Katowice Committee of Experts on the Impacts of the Implementation of Response Measures

(Version 4.2, prepared for the 14th meeting of the KCI)

Note:

1. Green shade indicates the activity or mandate has been completed
2. Blue shade indicates an open-ended mandate or activity
3. Orange shade indicates the activity or mandate is planned to be complete that the upcoming KCI meeting

No	Mandates	Actions by the KCI to integrate the outcomes into the existing workplan	Update and progress
1	Explore approaches to informing the development and implementation of climate change mitigation strategies, plans, policies and programmes, including nationally determined contributions and/or long-term low greenhouse gas emission development strategies, that maximize the positive and minimize the negative impacts of response measures (workplan activity 1)	The KCI had discussion on the basis of the inputs received from experts, practitioners and relevant organizations on the topic of this activity at KCI 3.	The implementation of this activity was completed at KCI 3.
2	Identify country-driven strategies and best practices on just transition of the workforce and creation of decent work and quality jobs and on economic diversification and transformation focusing on challenges and opportunities from the implementation of low greenhouse gas emission policies and strategies towards the achievement of sustainable development (workplan activity 2)	The KCI prepared a compilation of just transition and economic diversification strategies, ¹ paper on tracking progress on just transition, ² and paper on economic diversification and low greenhouse gas emission policies: pathway to sustainable development, ³ as the output of this activity. The compilation had been prepared on the basis of the inputs received from experts, practitioners and relevant organizations.	The implementation of this activity was completed at KCI 9.

² UNFCCC-KCI. 2025. *Just transition coverage in nationally determined contributions and long-term low-emission development strategies, implementation within key sectors, and tracking its progress*. Bonn: UNFCCC. Available at <https://unfccc.int/documents/645834>.

³ The paper is being processed for publication.

No	Mandates	Actions by the KCI to integrate the outcomes into the existing workplan	Update and progress
3	Facilitate the development, enhancement, customization and use of tools and methodologies for modelling and assessing the impacts of the implementation of response measures, including identifying and reviewing existing tools and approaches in data-poor environments, in consultation with technical experts, practitioners and other relevant stakeholders (workplan activity 3)	The KCI prepared a technical paper ⁴ at KCI 5 as the output of this activity. The technical paper had been prepared in consultation with technical experts, practitioners and other relevant stakeholders.	The implementation of this activity was completed at KCI 5.
4	Enhance the capacity and understanding of Parties, through collaboration and input from stakeholders, on the assessment and analysis of the impacts of the implementation of response measures to facilitate the undertaking of economic diversification and transformation and just transition (workplan activity 4)	The KCI prepared a technical paper ⁵ at KCI 5 as part of the implementation of this activity, and is finalizing another technical paper that includes modules for various topics for capacity-building programme. The first technical paper had been prepared on the basis of the inputs received from experts, practitioners and relevant organizations. At KCI 12, the KCI provided input for the finalization of the second technical paper. At KCI 14, the KCI will finalize the second technical paper.	The activity is under implementation and is expected to be completed at KCI 14.
5	Build awareness and understanding of Parties and other stakeholders to assess the economic impacts of potential new industries and businesses resulting from the implementation of response measures with a view to maximizing the positive and minimizing the negative impacts of the implementation of response measures (workplan activity 5)	The KCI prepared a technical paper ⁶ at KCI 7 as the output of this activity. The technical paper had been prepared on the basis of the inputs received from experts, practitioners and relevant organizations.	The implementation of this activity was completed at KCI 7.
6	Promote the availability and use of guidelines and policy frameworks to assist Parties in promoting just transition of the workforce and the creation of decent work and quality jobs within and across sectors, including	The KCI had discussion on the basis of the inputs received from experts, practitioners and relevant organizations on the topic of this activity at KCI 10. In addition, the KCI agreed to prepare and is finalizing a	The implementation of this activity was completed at KCI 10.

⁴ Katowice Committee of Experts on Impact of Implementation of Response Measures. 2022. *Facilitating development, enhancement, customization and use of tools and methodologies for modelling and assessing the impacts of the implementation of response measures, including identifying and reviewing existing tools and approaches in data-poor environments, in consultation with technical experts, practitioners and other relevant stakeholders*. Bonn: UNFCCC. Available at <https://unfccc.int/documents/614632>.

⁵ Katowice Committee of Experts on Impact of Implementation of Response Measures. 2022. *Enhancing the capacity and understanding of Parties, through collaboration and input from stakeholders, on the assessment and analysis of the impacts of the implementation of response measures to facilitate the undertaking of economic diversification and transformation and just transition*. Bonn: UNFCCC. Available at <https://unfccc.int/documents/614633>.

No	Mandates	Actions by the KCI to integrate the outcomes into the existing workplan	Update and progress
	training, retooling, retraining and reskilling systems and stakeholder engagement strategies (workplan activity 6)	compilation and synthesis ⁷ on guidelines and frameworks on just transition of the workforce and the creation of decent work and quality jobs.	
7	Facilitate the development and exchange of regional, country- and/or sector-specific case studies and approaches on (1) economic diversification and transformation and just transition of the workforce and creation of decent work and quality jobs, and (2) assessment and analysis of the impacts of the implementation of response measures with a view to understanding the positive and negative impacts (workplan activity 7)	The KCI launched a call for expression of interest from stakeholders for developing case studies, the output for this activity. On the basis of the submitted proposals, the KCI agreed to develop three case studies: (i) One case study on Maldives ⁸ ; (ii) One case study on Lao which KCI agreed to finalize before KCI 14; (iii) one case study on the effect of global energy transition on vulnerable communities and workers which the KCI agreed, at KCI 13, to conclude.	The Lao case study ⁹ was published before KCI 14. Thus, the implementation of this activity has been completed.
8	Identify and exchange experiences and best practices in engaging the private sector, including small and medium-sized enterprises and public-private partnerships, to facilitate the creation of decent work and quality jobs in low greenhouse gas emission sectors (workplan activity 8)	A technical paper, ¹⁰ as an output of this activity, had been prepared on the basis of the inputs received from experts, practitioners and relevant organizations.	The implementation of this activity was completed at KCI 9.
9	Identify and assess the impacts of the implementation of response measures taking into account intergenerational equity, gender considerations and the needs of local communities, indigenous peoples, youth and other people in vulnerable situations (workplan activity 9)	The KCI prepared a technical paper ¹¹ at KCI 9 as part of the implementation of this activity, and is finalizing a policy brief that will provide new information pertaining to the topic of this activity. At KCI 12, the KCI provided input to the draft policy brief. At KCI 13, the KCI agreed to finalize the policy brief before KCI 14.	The policy brief ¹² was published before KCI 14. Thus, the implementation of this activity has been completed.

No	Mandates	Actions by the KCI to integrate the outcomes into the existing workplan	Update and progress
10	Share experience and best practices in reporting and informing on efforts to assess and analyse the impacts of the implementation of response measures (workplan activity 10)	The KCI had discussion on the basis of the inputs received from experts, practitioners and relevant organizations on the topic of this activity at KCI 11.	The implementation of this activity was completed at KCI 11.
11	Facilitate, exchange and share experiences and best practices in the assessment of the environmental, social and economic co-benefits of climate change policies and actions informed by the best available science, including the use of existing tools and methodologies (workplan activity 11)	The KCI had discussion on the basis of the inputs received from experts, practitioners and relevant organizations on the topic of this activity at KCI 6.	The implementation of this activity was completed at KCI 6.
12	Development of a case study in each of the five United Nations regions in accordance with activity 7 of the workplan (workplan activity 12)	The KCI launched a call for expression of interest from stakeholders for developing further case studies in collaboration with the KCI. The KCI agreed to develop six case studies covering the five United Nations regions, in collaboration with different organizations. At KCI 12 and KCI 13, the KCI provided input and guidance for all case studies. At KCI 14, the KCI will finalize the case studies.	The activity is under implementation. Three case studies have been published before KCI 14 (Case studies on Brazil, ¹³ Africa ¹⁴ and India ¹⁵). Three case studies are expected to be finalized after KCI 14.
13	Facilitate, exchange and share experience and best practices in the assessment of the environmental, social and economic co-benefits of climate change policies and actions informed by the best available science, including the use of existing tools and methodologies (workplan activity 13)	To implement this activity, the KCI is preparing a compilation of concrete examples. A call of input was launched to obtain input from experts, practitioners and relevant organizations. At KCI 12, the KCI provided input to the compilation. At KCI 13, the KCI agreed to finalize the compilation before KCI 14.	The compilation ¹⁶ was published before KCI 14. Thus, the implementation of this activity has been completed.
14	Facilitate the enhancement of the capacity of Parties, in particular developing country Parties, to develop and use impact assessment methodologies and tools for conducting their own assessments and analyses of the	The KCI, at KCI 11, finalized the concept note on a capacity-building programme for impact of the implementation of response measures and agreed to implement the capacity-building activities therein.	The KCI is implementing actions to respond to this mandate. E-learning course, ¹⁷ containing eight modules covering diverse topics related to response

No	Mandates	Actions by the KCI to integrate the outcomes into the existing workplan	Update and progress
	impacts of response measures, including on decent work and quality jobs, and economic, social, environmental, domestic, cross-border, positive and negative impacts; this includes facilitating the development of case studies as appropriate and the organization of targeted regional hands-on training workshops (Decisions 20/CP. 27 and 7/CMP.17, para. 20(a) and 23/CMA.4, para. 21(a))	With the support of the secretariat, the KCI is now implementing the programme.	measures, is being developed, with seven modules already launched, and one expected to be launched in June 2026. At KCI 14, the KCI will consider draft of guidebooks. The secretariat will provide an update on the activities under the capacity-building programme at KCI 14.
15	Develop and maintain a web-based user interface for selecting tools and methodologies and promote its use among Parties and stakeholders, as appropriate; a user manual for the interface could also be developed (Decisions 20/CP. 27 and 7/CMP.17, para. 20(b) and 23/CMA.4, para. 21(b))	The KCI requested the secretariat to develop and maintain a web-based user interface for selecting tools and methodologies from the existing database for tools for assessment.	The interface and its user manual have been developed in 2026. The database is planned to be updated in the second half of 2026.
16	Enhance the capacity of Parties, in particular developing country Parties, to develop and use country-specific tools and methodologies for assessing the environmental, social and economic co-benefits of climate change policies and actions (Decisions 20/CP. 27 and 7/CMP.17, para. 32, and 23/CMA.4, para. 33)	The actions mentioned under no. 14 above also aim to respond to this mandate.	See status under no. 14 above regarding the capacity-building programme.
17	Enhance the understanding of Parties of policies for just transitions and their impacts on various sectors en route to achieving the goals of the Paris Agreement (Decisions 3/CP.28, 4/CMP.18 and 19/CMA.5, para. 25)	The capacity-building programme referred to under no. 14 also aims to respond to this mandate. The capacity-building programme will include training course modules covering several topics and areas, including just transition	See status under no. 14 above regarding the capacity-building programme.
18	Undertake further research on measuring the potential and actual impacts of response measures on people in vulnerable situations and encourage Parties to consider the results of such research, as appropriate, in the design of response measures and policies to minimize the negative impacts and maximize the positive impacts of response measures on people in vulnerable situations (Decisions 3/CP.28, 4/CMP.18 and 19/CMA.5, para. 29)	On the basis of the technical paper ¹⁸ for activity 9 of the workplan for 2020–2035, the KCI agreed to prepare a policy brief by undertaking a research with the support of the secretariat. At KCI 13, the KCI agreed to finalize it before KCI 14.	The policy brief ¹⁹ was published before KCI 14. Thus, the KCI has delivered this mandate.

¹⁸ See footnote 11.

¹⁹ See footnote 13.

No	Mandates	Actions by the KCI to integrate the outcomes into the existing workplan	Update and progress
19	Intensify efforts to implement the recommendations outlined in relevant decisions of the COP, the CMP and the CMA, including by enhancing cooperation among Parties, stakeholders, external organizations, experts and institutions and by enabling the exchange of information, experience and best practices among Parties with a view to increasing their resilience to the impacts referred to in paragraph 147 (i.e. economic and social impacts of the implementation of response measures) (Decision 1/CMA.5, para. 148)	The KCI agreed on a monitoring system to track the progress of implementation of mandates for the KCI and has used a table to track the progress since KCI 11. The capacity-building programme referred to under no. 14 above has an overall objective of enhancing the capacity of Parties, in particular developing country Parties, to develop and use methodologies and tools for conducting their own assessments and analyses of the impacts of implementation of response measures, with a view to increasing their resilience to the adverse impacts of response measures.	The KCI is tracking the progress of implementation of mandates for the KCI. See status under no. 14 above regarding the capacity-building programme.
20	In performing their functions, implement in line with the best available science and take into account different national circumstances (Decision 1/CMA.5, para. 149)	The KCI will consider best available science and take into account different national circumstances in implementing activities of the workplan.	The KCI is implementing actions to respond to this mandate.
21	Propose updates to its rules of procedure for the forum to consider and make recommendations to the SBs with a view to the subsidiary bodies providing recommendations for consideration and adoption by the COP 29, the CMP 19 and the CMA 6 (Decisions 3/CP.28, 4/CMP.18 and 19/CMA.5, para. 8)	The KCI agreed to the updated rules of procedures at KCI 12. The updated rules of procedures were adopted by COP 29, the CMP 19 and the CMA 6	The KCI has delivered this mandate
22	Prepare and include in its annual report for 2025 a timeline and modalities for its implementation of each activity in the workplan (for 2026–2030) (Decisions 16/CP.29, 3/CMP.19 and 22/CMA.6, para. 6)	The KCI, at KCI 13, finalized the timeline and modalities for implementation of each activity in the workplan and included them in its annual report for 2025.	The KCI has delivered this mandate
23	Implement the workplan for 2026–2030 and make recommendations to the governing bodies consistent with the functions of the forum and its Katowice Committee on Impacts, in the light of the urgency of responding to climate change through accelerated action, support and international cooperation, guided by equity and the best available science (Decisions 6/CP.30, 2/CMP.20 and 14/CMA.7, para. 9)	The KCI will implement the workplan for 2026–2030, and, in making the recommendations to the governing bodies, it will do so in consistent with the functions of the forum and its KCI, in the light of the urgency of responding to climate change through accelerated action, support and international cooperation, guided by equity and the best available science	The KCI is implementing the workplan for 2026–2030 and will take these elements into considerations when making the recommendations to the government body.
24	Present, at the second regular sessions of the SB each year, its annual report and key findings therefrom to the forum for consideration with a view to the forum	The KCI, with the support of the secretariat, will present its annual report and key findings to the forum at the second regular sessions of the SB each year.	The KCI will present its annual report 2026 and key findings therefrom at SB 65.

<i>No</i>	<i>Mandates</i>	<i>Actions by the KCI to integrate the outcomes into the existing workplan</i>	<i>Update and progress</i>
	making recommendations for consideration by the COP, the CMP and the CMA (Decisions 6/CP.30, 2/CMP.20 and 14/CMA.7, para. 12)		
25	The KCI and the CGE to collaborate on exploring ways to enhance the capacity of Parties to report on the impacts of the implementation of response measures (Decisions 6/CP.30 and 14/CMA.7, para. 25) Request the KCI and invite the CGE to collaborate on exploring ways to enhance the capacity of Parties to report on the impacts of the implementation of response measures (Decision 2/CMP.20, para. 25)	As per the timeline and modalities for implementation of each activity in the workplan of the forum and its KCI for 2026–2030, ²⁰ the KCI will coordinate with the CGE as part of the implementation of activity 13.	At KCI 14, the KCI will discuss the overall approach to implementing activity 13, which includes coordination with the CGE. The KCI is addressing this mandate through the implementation of activity 13 of the workplan for 2026–2030.

²⁰ Annex to the KCI annual report 2025.
