1.1	Explore approaches to informing the development and implementation of climate change mitigation strategies, plans, policies and programmes, including nationally determined contributions and/or long-term low greenhouse gas emission development strategies, that maximize the positive and minimize the negative impacts of response measures (workplan activity 1)	The KCI had discussion on the basis of the inputs received from experts, practitioners and relevant organizations on the topic of this activity at KCI 3.	The implementation of this activity was completed at KCI 3.
1.2	Identify country-driven strategies and best practices on just transition of the workforce and creation of decent work and quality jobs and on economic diversification and transformation focusing on challenges and opportunities from the implementation of low greenhouse gas emission policies and strategies towards the achievement of sustainable development (workplan activity 2)	The KCI prepared a compilation of just transition and economic diversification strategies, ² paper on tracking progress on just transition, ³ and paper on economic diversification and low greenhouse gas emission policies: pathway to sustainable development, ⁴ as the output of this activity. The compilation had been prepared on the basis of the inputs received from experts, practitioners and relevant organizations.	The implementation of this activity was completed at KCI 9.

1.3	Facilitate the development, enhancement, customization and use of tools and methodologies for modelling and assessing the impacts of the implementation of response measures, including identifying and reviewing existing tools and approaches in data-poor environments, in consultation with technical experts, practitioners and other relevant stakeholders (workplan activity 3)	The KCI prepared a technical paper ⁵ at KCI 5 as the output of this activity. The technical paper had been prepared in consultation with technical experts, practitioners and other relevant stakeholders.	The implementation of this activity was completed at KCI 5.
1.4	Enhance the capacity and understanding of Parties, through collaboration and input from stakeholders, on the assessment and analysis of the impacts of the implementation of response measures to facilitate the undertaking of economic diversification and transformation and just transition (workplan activity 4)	The KCI prepared a technical paper⁶ at KCI 5 as part of the implementation of this activity, and is finalizing another technical paper that includes modules for various topics for capacity-building programme. The first technical paper had been prepared on the basis of the inputs received from experts, practitioners and relevant organizations. The second technical paper which has been finalized outlines the topics to be covered by the e-learning modules on the impacts of the implementation of response measures.	The implementation of this activity was completed at KCI 14.
1.5	Build awareness and understanding of Parties and other stakeholders to assess the economic impacts of potential new industries and businesses resulting from the implementation of response measures with a view to maximizing the positive and minimizing the negative impacts of the implementation of response measures (workplan activity 5)	The KCI prepared a technical paper ⁷ at KCI 7 as the output of this activity. The technical paper had been prepared on the basis of the inputs received from experts, practitioners and relevant organizations.	The implementation of this activity was completed at KCI 7.
1.6	Promote the availability and use of guidelines and policy frameworks to assist Parties in promoting just transition of the workforce and the creation of decent work and quality jobs within and across sectors,	The KCI had discussion on the basis of the inputs received from experts, practitioners and relevant organizations on the topic of this activity at KCI 10. In addition, the KCI agreed to prepare and is finalizing a	The implementation of this activity was completed at KCI 10.

	including training, retooling, retraining and reskilling systems and stakeholder engagement strategies (workplan activity 6)	compilation and synthesis ⁸ on guidelines and frameworks on just transition of the workforce and the creation of decent work and quality jobs.	
1.7	Facilitate the development and exchange of regional, country- and/or sector-specific case studies and approaches on (1) economic diversification and transformation and just transition of the workforce and creation of decent work and quality jobs, and (2) assessment and analysis of the impacts of the implementation of response measures with a view to understanding the positive and negative impacts (workplan activity 7)	The KCI launched a call for expression of interest from stakeholders for developing case studies, the output for this activity. On the basis of the submitted proposals, the KCI agreed to develop three case studies: (i) One case study on Maldives ⁹ ; (ii) One case study on Lao which KCI agreed to finalize before KCI 14; (iii) one case study on the effect of global energy transition on vulnerable communities and workers which the KCI agreed, at KCI 13, to conclude.	The Lao case study ¹⁰ was published before KCI 14. Thus, the implementation of this activity has been completed.
1.8	Identify and exchange experiences and best practices in engaging the private sector, including small and medium-sized enterprises and public-private partnerships, to facilitate the creation of decent work and quality jobs in low greenhouse gas emission sectors (workplan activity 8)	A technical paper, ¹¹ as an output of this activity, had been prepared on the basis of the inputs received from experts, practitioners and relevant organizations.	The implementation of this activity was completed at KCI 9.
1.9	Identify and assess the impacts of the implementation of response measures taking into account intergenerational equity, gender considerations and the needs of local communities, indigenous peoples, youth and other people in vulnerable situations (workplan activity 9)	The KCI prepared a technical paper ¹² at KCI 9 as part of the implementation of this activity, and is finalizing a policy brief that will provide new information pertaining to the topic of this activity. At KCI 12, the KCI provided input to the draft policy brief. At KCI 13, the KCI agreed to finalize the policy brief before KCI 14.	The policy brief ¹³ was published before KCI 14. Thus, the implementation of this activity has been completed.

1.10	Share experience and best practices in reporting and informing on efforts to assess and analyse the impacts of the implementation of response measures (workplan activity 10)	The KCI had discussion on the basis of the inputs received from experts, practitioners and relevant organizations on the topic of this activity at KCI 11.	The implementation of this activity was completed at KCI 11.
1.11	Facilitate, exchange and share experiences and best practices in the assessment of the environmental, social and economic co-benefits of climate change policies and actions informed by the best available science, including the use of existing tools and methodologies (workplan activity 11)	The KCI had discussion on the basis of the inputs received from experts, practitioners and relevant organizations on the topic of this activity at KCI 6.	The implementation of this activity was completed at KCI 6.
1.12	Development of a case study in each of the five United Nations regions in accordance with activity 7 of the workplan (workplan activity (b) arising from the outcomes of the midterm review of the workplan)	The KCI launched a call for expression of interest from stakeholders for developing further case studies in collaboration with the KCI. The KCI agreed to develop six case studies covering the five United Nations regions, in collaboration with different organizations. At KCI 12 and KCI 13, the KCI provided input and guidance for all case studies. Three case studies have been published (Case studies on Brazil,¹⁴ Africa¹⁵ and India¹⁶). At KCI 14, the KCI agreed to finalize the rest of the case studies before KCI 15. At KCI 15, the KCI will be provided with an update.	The activity is under implementation.
1.13	Facilitate, exchange and share experience and best practices in the assessment of the environmental, social and economic co-benefits of climate change policies and actions informed by the best available science, including the use of existing tools and methodologies (workplan activity (e) arising from the outcomes of the midterm review of the workplan)	To implement this activity, the KCI is preparing a compilation of concrete examples. A call of input was launched to obtain input from experts, practitioners and relevant organizations. At KCI 12, the KCI provided input to the compilation. At KCI 13, the KCI agreed to finalize the compilation before KCI 14.	The compilation ¹⁷ was published before KCI 14. Thus, the implementation of this activity has been completed.

2.1	Consider the KCI annual report (para. 5(j) of annex I to decisions 13/CP.28, 4/CMP.18 and 19/CMA.5)	The KCI will discuss its annual report at its second meeting of the year.	The KCI will consider its annual report for 2026 at KCI 15.
2.2	Prepare information for the technical assessment component of the GST related to the impacts of the implementation of response measures with the process outlined in paragraphs 12–13 of decision 23/CMA.3 (paras. 8 and 24 of decision 19/CMA.1)	At KCI 14, the KCI agreed to organize a technical workshop to prepare input for the second GST as part of the KCI 15.	The KCI is implementing this activity.
2.3	Conduct review of the functions, work programme and modalities of the forum and its KCI every five years, starting at SB 69 (November 2028) (para. 6 of decisions 13/CP.28, 4/CMP.18 and 19/CMA.5)	As per the modalities and timeline for the implementation of the workplan, the output of this activity is expected to be delivered in 2028	The KCI will initiate the implementation of this activity in a timely manner to ensure timely delivery of the output.
2.4	Conduct midterm review of this workplan, starting at SB 68 (June 2028) and to be concluded no later than SB 69	As per the modalities and timeline for the implementation of the workplan, the output of this activity is expected to be delivered in 2028	The KCI will initiate the implementation of this activity in a timely manner to ensure timely delivery of the output.
2.5	Assess and analyse the impacts, including socioeconomic impacts, of response measures to be implemented in order to achieve all outcomes of the global stocktake and different net zero scenarios and pathways	At KCI 14, the KCI agreed on scope of the report, as the output of this activity, which is expected to be delivered in 2027.	The KCI is implementing this activity.
2.6	Analyse, assess and report on the impacts of measures taken to combat climate change, including cross-border impacts, recalling Article 3, paragraph 5, of the Convention	At KCI 14, the KCI agreed on scope of the first report, as an output of this activity, which is expected to be delivered in 2027.	The KCI is implementing this activity.
2.7	Identify and exchange experience on ways to enhance international cooperation to increase the capacity of the workforce and promote the development of emerging low- and zero-emission industries, including through the Technology Mechanism, and through education, retooling the workforce, training and retraining and skilling and reskilling, with regard to low- and zero-	As per the modalities and timeline for the implementation of the workplan, the output of this activity is expected to be delivered in 2029	The KCI will initiate the implementation of this activity in a timely manner to ensure timely delivery of the output.

2.8	Facilitate the exchange and sharing of experience and best practices among Parties, the secretariat and other international organizations on conducting impact assessments	At KCI 14, the KCI exchanged views on the possible objectives and substantive focus of the in-session workshop to be held at SB 65 under this activity. At KCI 15, the KCI will discuss this matter including the report and the implementation of this activity in 2027.	The KCI is implementing this activity.
2.9	Identify ways and means of enhancing public-private partnerships to address the impacts of the implementation of response measures	As per the modalities and timeline for the implementation of the workplan, the output of this activity is expected to be delivered in 2028	The KCI will initiate the implementation of this activity in a timely manner to ensure timely delivery of the output.
2.10	Develop a KCI toolbox that can be customized to local circumstances, including methodologies, for Parties to use in identifying, assessing and addressing the impacts of response measures, and build capacity and share experience in relation to using the toolbox	At KCI 14, the KCI agreed that a working group will work, with a view to proposing and agreeing on an approach for implementation of this activity at KCI 15.	The KCI is implementing this activity.
2.11	Develop a case study in each of the five United Nations regions on just transition of the workforce and the creation of decent work and quality jobs and on economic diversification and transformation in order to understand the opportunities and challenges faced in planning and implementation, and share the findings among Parties and experts	At KCI 14, the KCI agreed on all options of scope of the case studies, with the case studies covering three regions to be delivered in 2027, and agreed to launch call for expressions of interest for the development of the case studies. At KCI 15, the KCI will consider the submissions received.	The KCI is implementing this activity.
2.12	Develop case studies to identify and analyse the social and economic impacts of economy-wide nationally determined contributions, covering all greenhouse gases, sectors and categories	At KCI 14, the KCI agreed on scope of the report, as the output of this activity, which is expected to be delivered in 2027.	The KCI is implementing this activity.

Specific mandates from the COP, the CMP and the CMA

No	Mandates	Actions by the KCI to integrate the outcomes into the existing workplan	Update and progress
3.1	Facilitate the enhancement of the capacity of Parties, in particular developing country Parties, to develop and use impact assessment methodologies and tools for conducting their own assessments and analyses of the impacts of response measures, including on decent work and quality jobs, and economic, social, environmental, domestic, cross-border, positive and negative impacts; this includes facilitating the development of case studies as appropriate and the organization of targeted regional hands-on training workshops (Decisions 20/CP. 27 and 7/CMP.17, para. 20(a) and 23/CMA.4, para. 21(a))	The KCI, at KCI 11, finalized the concept note on a capacity-building programme for impact of the implementation of response measures and agreed to implement the capacity-building activities therein. With the support of the secretariat, the KCI is now implementing the programme.	The KCI is implementing actions to respond to this mandate. E-learning course, ¹⁹ containing eight modules covering diverse topics related to response measures, is being developed, with seven modules already launched, and one expected to be launched in June 2026. At KCI 14, the KCI will consider draft of guidebooks. The secretariat will provide an update on the activities under the capacity-building programme at KCI 14.

¹⁹ See https://unfccc.int/response-measures/e_learning_course_RM.

No	Mandates	Actions by the KCI to integrate the outcomes into the existing workplan	Update and progress
3.2	Develop and maintain a web-based user interface for selecting tools and methodologies and promote its use among Parties and stakeholders, as appropriate; a user manual for the interface could also be developed (Decisions 20/CP. 27 and 7/CMP.17, para. 20(b) and 23/CMA.4, para. 21(b))	The KCI requested the secretariat to develop and maintain a web-based user interface for selecting tools and methodologies from the existing database for tools for assessment.	The interface and its user manual have been developed in 2026. The database is planned to be updated in the second half of 2026.
3.3	Enhance the capacity of Parties, in particular developing country Parties, to develop and use country-specific tools and methodologies for assessing the environmental, social and economic co-benefits of climate change policies and actions (Decisions 20/CP. 27 and 7/CMP.17, para. 32, and 23/CMA.4, para. 33)	The actions mentioned under no. 14 above also aim to respond to this mandate.	See status under no. 14 above regarding the capacity-building programme.
3.4	Enhance the understanding of Parties of policies for just transitions and their impacts on various sectors en route to achieving the goals of the Paris Agreement (Decisions 3/CP.28, 4/CMP.18 and 19/CMA.5, para. 25)	The capacity-building programme referred to under no. 14 also aims to respond to this mandate. The capacity-building programme will include training course modules covering several topics and areas, including just transition	See status under no. 14 above regarding the capacity-building programme.
3.5	Undertake further research on measuring the potential and actual impacts of response measures on people in vulnerable situations and encourage Parties to consider the results of such research, as appropriate, in the design of response measures and policies to minimize the negative impacts and maximize the positive impacts of response measures on people in vulnerable situations (Decisions 3/CP.28, 4/CMP.18 and 19/CMA.5, para. 29)	On the basis of the technical paper ²⁰ for activity 9 of the workplan for 2020–2035, the KCI agreed to prepare a policy brief by undertaking a research with the support of the secretariat. At KCI 13, the KCI agreed to finalize it before KCI 14.	The policy brief ²¹ was published before KCI 14. Thus, the KCI has delivered this mandate.
3.6	Intensify efforts to implement the recommendations outlined in relevant decisions of the COP, the CMP and the CMA, including by enhancing cooperation among Parties, stakeholders, external organizations, experts and institutions and by enabling the exchange of information, experience and best practices among Parties with a view to increasing their resilience to the impacts referred to in paragraph 147 (i.e. economic and	The KCI agreed on a monitoring system to track the progress of implementation of mandates for the KCI and has used a table to track the progress since KCI 11. The capacity-building programme referred to under no. 14 above has an overall objective of enhancing the capacity of Parties, in particular developing country Parties, to develop and use methodologies and tools for conducting their own assessments and analyses of the	The KCI is tracking the progress of implementation of mandates for the KCI. 3.7	In performing their functions, implement in line with the best available science and take into account different national circumstances (Decision 1/CMA.5, para. 149)	The KCI will consider best available science and take into account different national circumstances in implementing activities of the workplan.	The KCI is implementing actions to respond to this mandate.
3.8	Propose updates to its rules of procedure for the forum to consider and make recommendations to the SBs with a view to the subsidiary bodies providing recommendations for consideration and adoption by the COP 29, the CMP 19 and the CMA 6 (Decisions 3/CP.28, 4/CMP.18 and 19/CMA.5, para. 8)	The KCI agreed to the updated rules of procedures at KCI 12. The updated rules of procedures were adopted by COP 29, the CMP 19 and the CMA 6	The KCI has delivered this mandate
3.9	Prepare and include in its annual report for 2025 a timeline and modalities for its implementation of each activity in the workplan (for 2026–2030) (Decisions 16/CP.29, 3/CMP.19 and 22/CMA.6, para. 6)	The KCI, at KCI 13, finalized the timeline and modalities for implementation of each activity in the workplan and included them in its annual report for 2025.	The KCI has delivered this mandate
3.10	Implement the workplan for 2026–2030 and make recommendations to the governing bodies consistent with the functions of the forum and its Katowice Committee on Impacts, in the light of the urgency of responding to climate change through accelerated action, support and international cooperation, guided by equity and the best available science (Decisions 6/CP.30, 2/CMP.20 and 14/CMA.7, para. 9)	The KCI will implement the workplan for 2026–2030, and, in making the recommendations to the governing bodies, it will do so in consistent with the functions of the forum and its KCI, in the light of the urgency of responding to climate change through accelerated action, support and international cooperation, guided by equity and the best available science	The KCI is implementing the workplan for 2026–2030 and will take these elements into considerations when making the recommendations to the government body.
3.11	Present, at the second regular sessions of the SB each year, its annual report and key findings therefrom to the forum for consideration with a view to the forum making recommendations for consideration by the COP, the CMP and the CMA (Decisions 6/CP.30, 2/CMP.20 and 14/CMA.7, para. 12)	The KCI, with the support of the secretariat, will present its annual report and key findings to the forum at the second regular sessions of the SB each year.	The KCI will present its annual report 2026 and key findings therefrom at SB 65.
3.12	The KCI and the CGE to collaborate on exploring ways to enhance the capacity of Parties to report on the impacts of the implementation of response measures (Decisions 6/CP.30 and 14/CMA.7, para. 25)	As per the timeline and modalities for implementation of each activity in the workplan of the forum and its	The KCI is implementing actions to respond to this mandate.
