

## List of material produced by the Overseas Development Institute

- ODI ran a programme on **Mobilising Private Climate Finance** from 2011 – 2016. Major outputs and resources can be found here – including to estimate leverage impact of public finance. <https://www.odi.org/projects/2643-mobilising-private-climate-finance>
- ODI completed the following research on **Practical Methods for Assessing Private Climate Finance Flows** <https://www.norden.org/sv/nordiska-ministerraadet/ministerraad/nordiska-ministerraadet-foer-miljoe-och-klimat-mr-mk/institutioner-samarbetsorgan-och-arbetsgrupper/arbetsgrupper/den-nordiska-arbetsgruppen-foer-globala-klimatfoerhandlingar-noak/projekt/avslutade-projekt/practical-methods-for-assessing-private-climate-finance-flows>
- ODI co-published a 2017 paper that explored ways of **financing the transition from brown, carbon-intensive models of economic development to low-carbon, green economies**. The paper mapped the landscape of financing this transition and proposed a set of indicators to measure country progress. <https://www.odi.org/publications/10997-financing-transition-brown-green-how-track-country-performance-towards-low-carbon-climate-resilient>
- Another five-year ODI programme explored the **effectiveness of global efforts to finance climate action** in climate vulnerable countries from 2011- 2016. Analysis of climate finance national budget spending was completed in four countries: Ghana, Ethiopia, Tanzania and Uganda. <https://www.odi.org/sites/odi.org.uk/files/resource-documents/11245.pdf>
- A 2017 Working Paper examined whether **climate change-related expenditures are starting to appear in national budgets** to secure the early implementation of countries' Nationally Determined Contributions (NDCs). [https://cdkn.org/wp-content/uploads/2017/09/National-budgeting-for-NDCs\\_web.pdf](https://cdkn.org/wp-content/uploads/2017/09/National-budgeting-for-NDCs_web.pdf)
- Another 2017 Working Paper explored the **different mechanisms for delivering climate finance at the local level**. The paper explored how well national and local climate funds consider the priorities of local communities alongside recognising and incorporating national climate change policies and development plans. <https://www.odi.org/sites/odi.org.uk/files/resource-documents/11804.pdf>
- ODI has maintained a Series of **Climate Funds Update (CFU) website outputs** released at each COP since 2011 that build on the periodic update of [CFU data: Climate Finance Fundamentals](#), Policy Briefs, and [10 things to know](#) about climate finance.
- ODI also has published a range of outputs on **international DRR Finance**: including [20 years story](#), [10 things to know](#), [Adaptation and DRR finance](#).
