

Conflict of Interest (MEP002)																		
Para. Number	Discussion item	MEP Member																
			Mr. Amr Abdel-Aziz	Mr. Braulio Pikman	Mr. Daniel Cullenward	Ms. Efram Eyah	Ms. Jessica Wade-Murphy	Mr. Kenichiro Yamaguchi	Mr. Lambert Schneider	Ms. Navjot Kaur Sandhu	Ms. Penelope Paula Heather Baalman	Ms. Yanling Jin	Ms. Molly Rachel Peters-Stanley (Vice-Chair)	Mr. El Hadji Mbaye Diagne (Chair)				
<b>Requirements for methodologies</b>																		
5	Standard: Baselines and downward adjustment, and standardized baselines																	
6	Standard: Suppressed demand																	
7a	Standard: Additionality																	
7b	Tool: Investment analysis																	
8	Standard: Leakage																	
9	Concept note: Large-scale crediting programmes																	
10a	Concept note: Equitable sharing of mitigation benefits																	
10b	Concept note: Taking account of policies and measures, and relevant circumstances																	
10c	Concept note: Transboundary activities																	
<b>Removals</b>																		
11a	Standard: Addressing non-permanence/reversals including: a. Post-crediting period monitoring, reporting, and remediation of reversals, post-reversal action, and host Party roles																	
11b	Standard: Addressing non-permanence/reversals including: b. Late, incomplete or missing monitoring report submissions, and treatment of activities for which a reversal results in a removals level that falls below baseline																	
11c	Standard: Addressing non-permanence/reversals including: c. Reversal risk assessment																	
11d	Standard: Addressing non-permanence/reversals including: d. Avoidable and unavoidable reversals, and reversal compensation																	
12	Concept note: Applicability of removal guidance to emission reductions activities and vice versa																	
<b>Revision of CDM methodologies and methodological tools</b>																		
13a-b	ACM0002: Grid connected electricity generation from renewable sources; and AMS-I.D.: Grid connected renewable electricity generation																	
13c	Tool: Emission factor for an electricity system																	
14	AMS-I.C.: Thermal energy production with or without electricity																	
15a	ACM0001: Flaring or use of landfill gas																	
15b	Tool: Emissions from solid waste disposal sites																	
15c	Tool: Project emissions from flaring																	
15d	Tool: Mass flow of a greenhouse gas in a gaseous stream																	
16a-b	AMS-II.G.: Energy efficiency measures in thermal applications of non-renewable biomass; AMS-I.E.: Switch from non-renewable biomass for thermal applications by the user																	
16d	Standard: Sampling and Surveys for CDM project activities and programmes of activities																	
16e	Guidelines: Sampling and Surveys for CDM project activities and programmes of activities																	
17a	Tool: Baseline, project and/or leakage emissions from electricity consumption and monitoring of electricity generation																	
17b	Tool: Project or leakage CO2 emissions from fossil fuel combustion																	
17c	Tool: Determining the baseline efficiency of thermal or electric energy generation systems																	
17d	Tool: Remaining lifetime of equipment																	
17e	Tool: Project and leakage emissions from biomass																	
17f	Tool: Project and leakage emissions from transportation of freight																	
17g	Tool: Default values for common parameters																	
<b>Any other item on the agenda of MEP01.</b> In case of a real or perceived conflict of interest relating to any other item on the agenda of <b>MEP01</b> , please indicate this here.																		

**Legend:**

- **grey cell** - member not present at the meeting
- \* - member has made the conflict of interest declaration to the UNFCCC secretariat
- **X** - member declared a conflict of interest
- **number** - member made a special statement with regard to conflict of interest (see below)
