

UNFCCC COP 27
Sharm El -Sheikh, Egypt

Implementation Lab
Concept Note
Achieving the Built Environment 2030 Breakthrough

Actors across the value chain demonstrate action taken across a range of six implementation levers, from finance to policy, to transform the sector and meet the 2030 Built Environment Breakthrough

Marrakech Partnership for Global Climate Action

17th November
12:30 pm - 2:00 pm

Action Room Lotus, COP27 Blue Zone

Organised by High Level Climate Champions

Agenda

| | | | |
|------------|--|---|--|
| Pre event | Arrival | - | Video playing as room fills up: https://www.youtube.com/watch?v=bLmLTmUEn5k&ab_channel=High-LevelClimateChampions |
| 0-7 mins | Introduction through video montage of impactful, financed and active projects shifting the sector towards 2030 outcome | Moderator: Victoria Burrows, Director WorldGBC Opening Remarks: Nigel Topping, HLCC | Title: Introduction to the 2030 breakthrough Objective: To highlight notable projects helping shift the sector towards the 2030 outcome and their importance. Moderator speaks to the theory of system transformation and the levers needed to unlock transformation in this near-term, critical decade (by 2030) |
| 7-42 mins | Stakeholders from across the value chain share one action their organisation or city has been involved in that has shifted the sector towards the 2030 outcome and how it was financed/ implemented. | Moderator as above Supply: Nidhi Baiswar, Sustainability & Climate Leadership Director, JLL Demand (public): Smith Mordak, Director of Sustainability and Physics, Buro Happold Demand (private): Balsam Nehme, Head of Buildings Sustainability, Dar Al-Handasah Policy/Regulation: Hastings Chikoko, Africa Regional Director, C40 Finance: Lucy Livesley, Policy & External Affairs Director, REALL Civil Society: Alejandra Rivera, Global Programme Manager, Built Environment, IHRB | Title: Turning Pledges into Actions Objective: To showcase ambitious action across 6 levers of change in the built environment value chain. In addition, live audience voting will be carried out re which lever action they feel gets us closest to the 2030 Outcome. |
| 42-50 mins | Audience voting is revealed regarding which project level action presented they believe has the largest potential to drive towards 2030 Breakthrough. | Moderator as above | Title: Audience Vote Objective: To highlight the priority actions according to the audience. |
| 50-70 | Focusing on the one project level action that | Moderator and speakers as above | Title: Scaling up the Solutions |

| | | | |
|-------------------|--|--|---|
| <i>mins</i> | <i>the Audience voted for, the Stakeholders are asked to say how that lever type can support scaling of action in their lever.</i> | | <i>Objective: Discuss ways to scale up the chosen project level action, with contributions from all 6 stakeholders. (e.g. if the voted for solution is focussed on demand signal, the finance type stakeholder can explain how demand signals would force scaling of investment)</i> |
| <i>70-85 mins</i> | <i>Audience Q&A</i> | <i>Moderator and speakers as above</i> | <i>Objective: Open up a Q&A to the wider audience</i> |
| <i>85-90 mins</i> | <i>Wrap up & close</i> | <i>Moderator as above</i> | <i>Objective: Wrap up and call to action on the near-term lever actions to 2025 that would showcase progress to 2030</i> |
