Martin Stadelmann

Martin Stadelmann
Principal Policy Advisor
Swiss Federal Office of the Environment

Mr. Martin Stadelmann is Principal Policy Advisor for Environmental Finance at Swiss Federal Office of the Environment, and thereby responsible for questions on international environmental finance within in the Swiss government.

He has 20 years of experience with international climate finance, having worked for NGOs, universities, the World Bank and the private sector. His PhD thesis compared the effectiveness of public climate finance and carbon markets. He served as contributing author of the first IPCC chapter on finance (2014).

During his time at Climate Policy Initiative, he further developed the Global Landscape of Climate Finance and advised various governments and multilateral institutions on tracking climate finance and unlocking private finance. Before joining the Swiss government, he was part of South Pole's Executive Committee, leading the business lines on climate investments and climate advisory for several years with team members on all continents
