Ms. Apollonia Miola

**Principal Advisor, International Climate
Finance DG CLIMA, European Commission**

Ms. Apollonia Miola is a Principal Advisor on International Climate Finance at DG CLIMA, European Commission. Negotiator and senior policy expert specializing in climate change, international economics, and sustainable development.

With over 20 years of leadership at the Joint Research Centre (JRC), Apollonia directed innovative scientific programmes on the economics of climate change and development. She pioneered complex analyses on economics of climate change, energy economics, ecological economics.

Apollonia's international experience is enriched by her tenure as Senior Policy Analyst at the OECD, where she advised on governance reforms and aligned recovery plans with SDGs and the Paris Agreement. As visiting scientist, she also collaborated with the World Bank on climate change economics and disaster risk management.

A frontrunner in complex economic analysis related to climate change and energy economics and ecological economics, Apollonia has published extensively in peer-reviewed journals.
