

NS-318 - Implementation of Climate Change Mitigation Strategies in the Freight Transport Sector

Ecuador

NAMA Seeking Support for Implementation

A Overview		
A.1 Party	Ecuador	
A.2 Title of Mitigation Action	Implementation of Climate Change Mitigation Strategies in the Freight Transport Sector	
A.3 Description of mitigation action	This NAMA aims to prepare and ensure a sustainable implementation of climate change mitigation actions in the Freight sub-area of the transportation sector at a national scale. The preparation will ensure economic, institutional, social and environmental sustainability project. The NAMA development process will generate a specific tool to allow concerned authorities to arbitrate the right decisions on Climate Change Mitigation in the Freight Transportation sub-area in matter of mitigation strategies, Monitoring Reporting and Validation Plan and funding strategy.	
A.4 Sector	☐ Energy supply ☐ Residential and Commercial buildings ☐ Agriculture ☐ Waste management ☐ Other	
A.5 Technology	☒ Transport and its Infrastructure ☐ Industry ☐ Forestry	
A.6 Type of action	☐ Bioenergy ☒ Energy Efficiency ☐ Hydropower ☐ Wind energy ☐ Carbon Capture and Storage ☐ Land fill gas collection ☐ Other	
A.7 Greenhouse gases covered by the action	☒ Cleaner Fuels ☐ Geothermal energy ☐ Solar energy ☐ Ocean energy ☐ Low till / No till	
	☐ National/ Sectoral goal ☐ Strategy ☒ National/Sectoral policy or program ☐ Other	
	☐ Project: Investment in machinery ☐ Project: Investment in infrastructure ☐ Project: Other	
	☒ CO2 ☐ CH4 ☐ N2O ☐ HFCs ☐ PFCs ☐ SF6 ☐ Other	
B National Implementing Entity		
B.1.0	Name	Environment Ministry of Ecuador (MAE, for its initials in spanish)
B.1.1	Contact Person 1	Maria Victoria Chiriboga
B.1.2	Address	Calle Madrid 1159 y Andalucia, 170525, Quito-Ecuador
B.1.3	Phone	+ (593 2) 398 7600
B.1.4	Email	maria.victoria@ambiente.gob.ec
B.1.5	Contact Person 2	Pamela Rocha
B.1.6	Address	Calle Madrid 1159 y Andalucia, 170525, Quito-Ecuador
B.1.7	Phone	+(593 2) 2993200
B.1.8	Email	procha@cancilleria.gob.ec
B.1.9	Contact Person 3	
B.1.10	Address	
B.1.11	Phone	
B.1.12	Email	
B.1.13	Comments	
Add Additional Entity		
C Expected timeframe for the implementation of the mitigation action		

C.1	Number of years for completion	7
C.2	Expected start year of implementation	2018

D Currency		
D.1	Used Currency	USD
Conversion to USD: 1		

E Cost		
E.1.1	Estimated full cost of implementation	1,348,688,002 Conversion to USD: 1,348,688,002
E.1.2	Comments on full cost of implementation	Cost cover capital investments oriented towards the creation of financial mechanisms to subsidize the adquisition of equipment, renovation, creation of a logistics observatory and associated consulting costs, marketing campaigns and maintenance courses to implemented.
E.2.1	Estimated incremental cost of implementation	104,978,827 Conversion to USD: 104,978,827
E.2.2	Comments on estimated incremental cost of implementation	

F Support required for the implementation the mitigation action		
F.1.1	Amount of Financial support	1,350,418,002 Conversion to USD: 1,350,418,002
F.1.2	Type of required Financial support	☒ Grant ☐ Guarantee ☒ Loan (sovereign) ☒ Equity ☒ Loan (Private) ☐ Carbon finance ☐ Concessional loan ☐ Other
F.1.3	Comments on Financial support	The measures will require financial support of different modalities such as soft loans, participation of international funds (environment energy efficiency), multilateral banks and possibilities of sponsoring (by municipalities, ministries, chambers of commerce, trade etc.). Private sector opportunities through sponsorships and manufacturers, workshop associations, etc. are to be taken into cons well
F.2.1	Amount of Technological support	
F.2.2	Comments on Technological support	
F.3.1	Amount of capacity building support	4,625,000 Conversion to USD: 4,625,000
F.3.2	Type of required capacity building support	☐ Individual level ☒ Institutional level ☐ Systemic level ☐ Other
F.3.3	Comments on Capacity Building support	Necessary activities to strengthen the administrative capacity of the entities that must implement the measures. Capacity requiren mainly oriented to support the creation of new financial incentives and mechanisms.

G Estimated emission reductions		
G.1	Amount	9,31
G.2	Unit	MtCO ₂ e
G.3	Additional information (e.g. if available, information on the methodological approach followed)	The amount above is a cumulative amount to be reach in 2030 for an incremental implementation of the NAMA related mitigation a in 2018. The amount of estimated emissions reduction was calculated as the difference between the "Business as Usual" emission sector at a national scale and the potential emission reductions. First a high and a low value was estimated for each year along the schedule.It is important to know that the value that is given here was calculated using the low potential emission reduction value as each mitigation action and the high value would have given an amount of 13,99 MtCo ₂ e.

H Other indicators		
H.1	Other indicators of implementation	

I Other relevant information		
I.1	Other relevant information including co-benefits for local sustainable development	In general, as transportation depends almost only on fossil fuels, energy security is a major issue for the sector. There is a direct link energy security and climate change mitigation actions focused on alternative fuel options like bio-fuel or electrification. The proper d measurement allows a better logistic for the vehicles stock and so, a decrease in the transportation costs, the travel distances and c and positively affects productivity, working conditions and general living conditions for the freight transportation workers. Some of th generated by an inefficient transport system is the time lost by traffic congestion. Some of the major improvements are the ones rel better public health and the impact of a sustainable transportation development on air pollution, noise exposure, vibrations, and infr safety and quality. ■ <u>Environmental co-benefits</u>: Better air quality, natural resources protection, biodiversity protection, noise reduction, land cover/use, better energy manage

- **Social co-benefits:** Public health improvement, stakeholders sensibilization, safety and living standards improvement, drivers comfort, infrastructure fluidity improvement.
- **Economic co-benefits:** Energy savings, jobs creation, technological transfer, energy safety and savings related to travel costs, reduction of unemployment health costs, journey distances and durations, productivity and incomes improvement.
- **Other co-benefits:** Better institutional context and infrastructural conditions , better resilience and adaptation to climate change.

J Relevant National Policies strategies, plans and programmes and/or other mitigation action

J.1	Relevant National Policies	■ National Plan for Good Living 2013-2017 – Goal 7; Policy 7.7 http://buenvivir.gob.ec/ ■ Executive Decree 1815 of July 2009 – Declares "Adaptation and climate change mitigation" as state policy. http://www.flacsoandes.edu.ec/web/imagesFTP/11120.PDF_DECRETO_1815_Declaracion_de_politica_de_estado_la_adaptacion_y_mitigacion_al_cambio_climatico_Direccion_de_Cam ■ National Environmental Policies (November 2009) - Policy #3 http://www.pnuma.org/deat1/pdf/GEO%20Ecuador%202008.pdf ■ Executive Decree 495 of October 2010 – creates the Interinstitutional Committee on Climate Change (CICC, for its initials in Spanish) http://extwprlegs1.fao.org/docs/pdf/ecu140057.pdf ■ National Climate Change Strategy 2012-2025 (ENCC, for its initials in Spanish) – Ministerial Agreement 095 http://globaltrends.thedialogue.org/publication/estrategia-nacional-de-cambio-climatico-del-ecuador-encc-2012-2025/ ■ Ministerial Agreement 089 https://www.registroficial.gob.ec/index.php/registro-oficial-web/publicaciones/registro-oficial/item/2378-registro-oficial-no-138.html ■ General recommendations for climate change plans, programs and strategies, for decentralized autonomous government. http://www.ambiente.gob.ec/el-mae-socializa-lineamientos-de-cambio-climatico-en-territorio-2/ ■ Mechanisms to consent the ecuadorian environmental "Carbon Neutrality". http://www.ambiente.gob.ec/wp-content/uploads/downloads/2014/06/am_141_ana_cn_20_05_14.pdf ■ National Plan for Climate Change 2015-2018 (PNCC, for its initials in Spanish) https://info.undp.org/docs/pdc/Documents/ECU/PLAN%20NACIONAL%20DE%20CAMBIO%20CLIM%C3%81TICO.pdf
