# NDC 3.0 NAVIGATOR

## A TOOLKIT FOR THE 2025 NDCS

The NDC Navigator aims to provide clear and accessible information to support Parties to deliver 2025 NDCs that are **ambitious, fair and equitable, technically sound, and implementable.**

- ✓ Help countries to **take stock** of current national circumstances, climate ambition, and wider development goals, to help them identify **nationally appropriate opportunities for NDC enhancement**
- ✓ Set out the **most impactful opportunities** to address national priorities, Paris Agreement goals, the global stocktake outcomes
- ✓ Identify key strategies to enhance processes that will **strengthen implementability**, including engaging all of government and society, and unlocking finance
- ✓ **Signpost** countries towards existing **guidance, tools, templates and examples of successful strategies** that are relevant to their national objectives
- ✓ Provide a framework around which countries can **identify support needs**
- ✓ Builds on the currently available support and resources, **further developed over time**
