

US Subnational Climate Progress: Harnessing Market Power to Drive Meaningful Greenhouse Gas Reductions

Environmental Defense Fund (EDF) will lead a panel discussion that brings together subnational actors from diverse sectors (private sector, non-governmental, and subnational government) *to discuss how harnessing market forces and deploying market-based strategies* is resulting in significant climate leadership and progress at the subnational level.

Thursday, 9 Nov 2017
14:00-15:00,
Fiji Dome

US Climate Action Center
