

## Developing pathways for moving sustainable buildings to scale

Achieving Net Zero Built Environment: What's needed in NDCs and Buildings Standards?

15<sup>th</sup> October 2020

**Peter Graham, PhD**  
Executive Director, GBPN

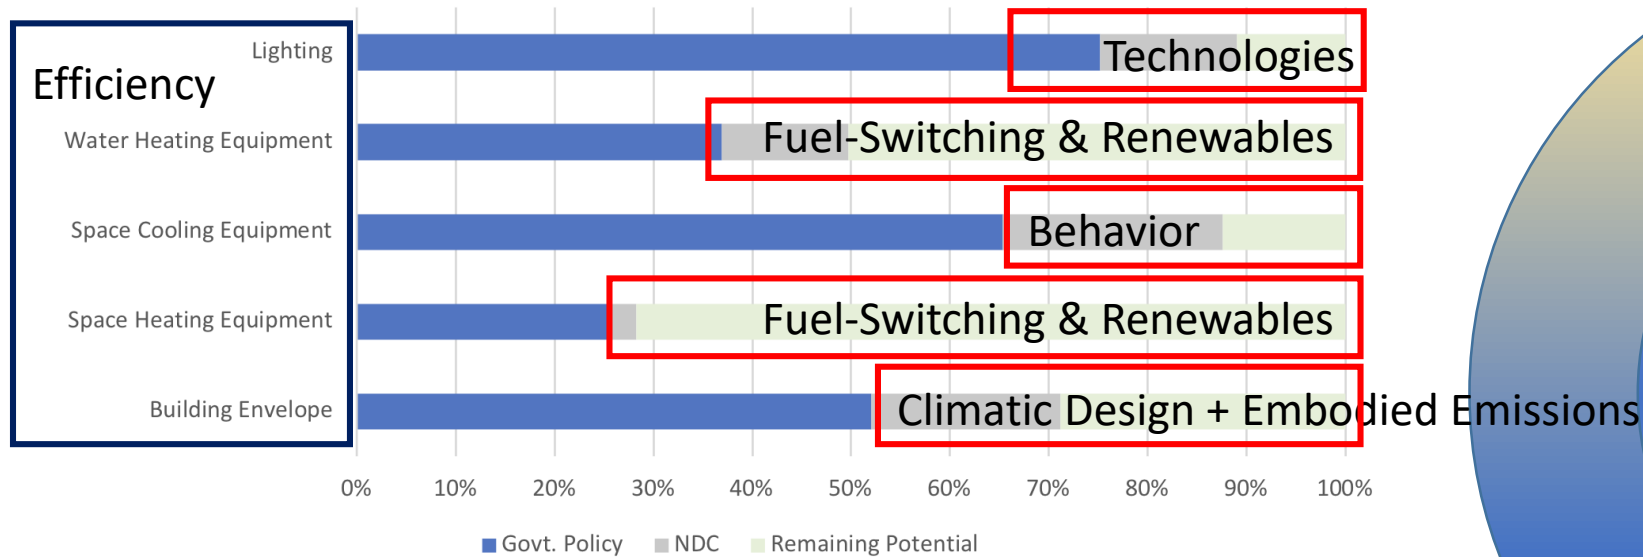

# What is Needed in NDCs & Buildings Standards?

- Ambitious Sector Specific Targets
- Confidence and Commitment to Regulatory Reform
- A fundable Implementation Plan
- Alignment with Adaptation and Non-Climate Drivers

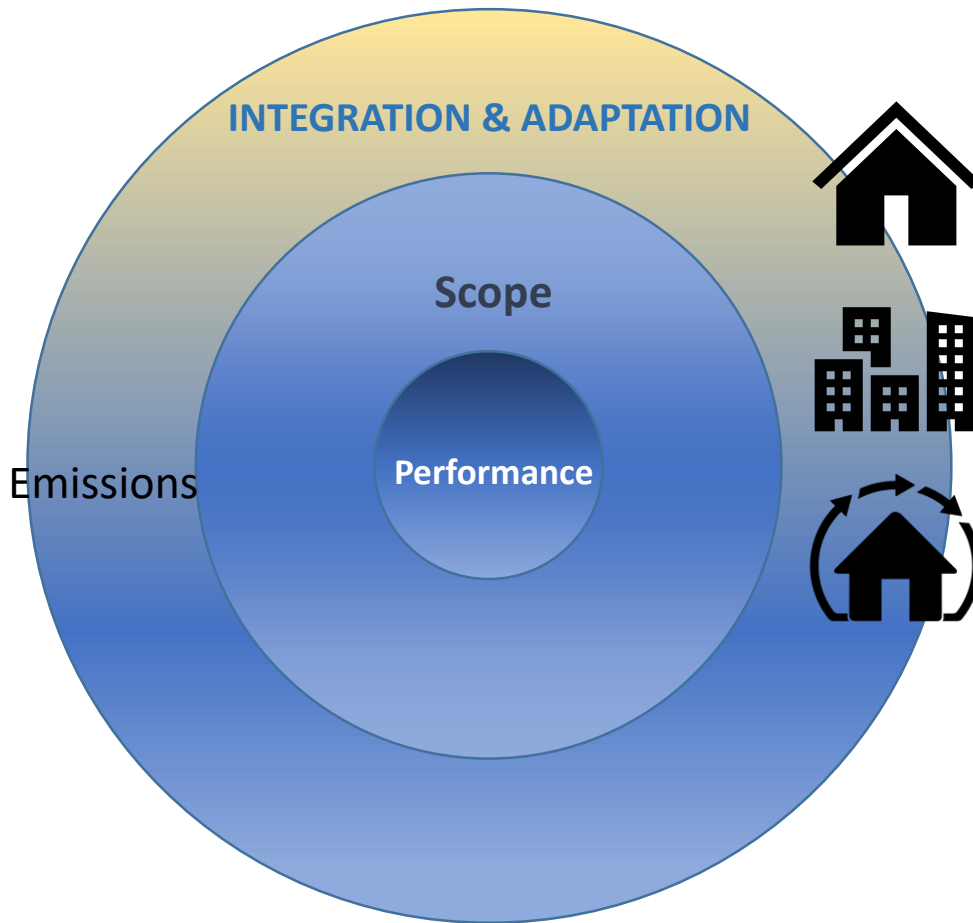

# What is Needed in NDCs & Buildings Standards?

- Ambitious Sector Specific Targets

The current ambition of buildings sector commitments are **insufficient** to meet the Paris Agreement goals.

**Aligned City, Regional and National Commitments**

Successfully receiving funding through international finance... **requires ambition** in proposed NDC programs and actions.

# What is Needed in NDCs & Buildings Standards?

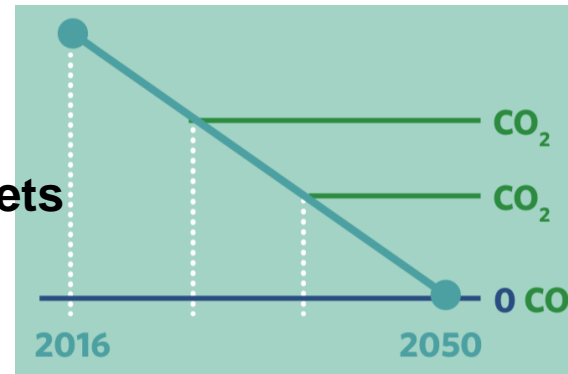

- Confidence and Commitment to Regulatory Reform

**Ambitious Building Codes Rating & Disclosure+ Appliance Standards & EEOs**

**Integrated Policy Packages**

**Performance & Renovation targets**

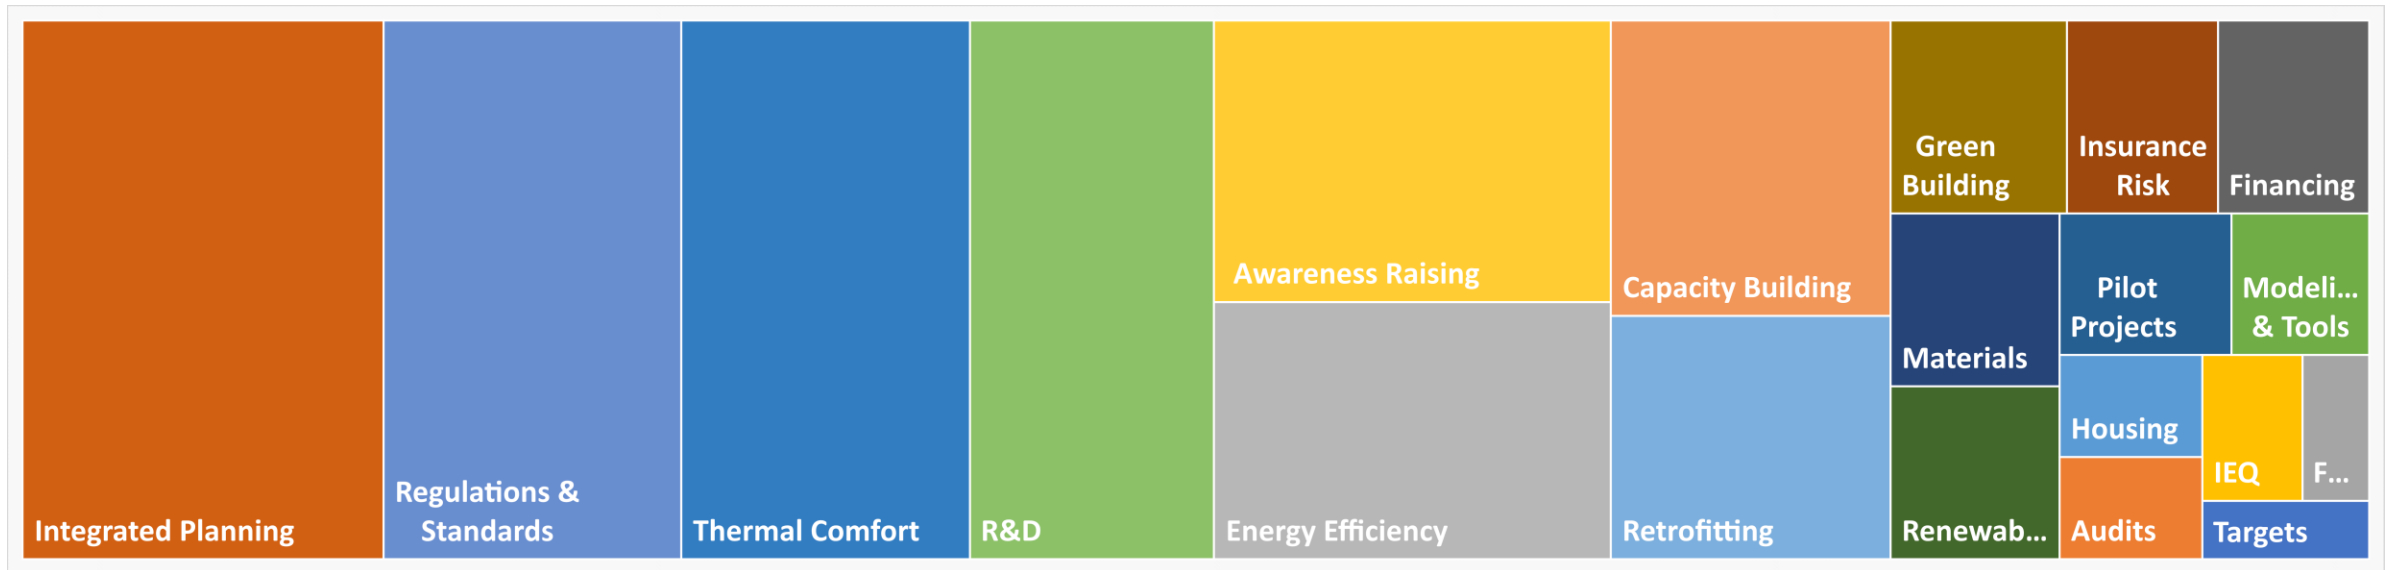

# What is Needed in NDCs & Buildings Standards?

- Alignment with Adaptation and Non-Climate Drivers

## Building & Construction in National Adaptation Plans

**Equity**

**Flooding**

**Innovation**

**Health**

**Resilience**

**Affordability**

**Thermal Comfort**

*Building Policies for a Better World*

# Thankyou!
