SUPPORT ON NAPS

Status - 1 June 2020:

- **84** proposals submitted (USD 205M requested)
- **62%** approved (52 proposals)

LDC specific:

- **32** proposals by LDCs (40% of portfolio)
- USD 78M in funding requested
- **17** proposals (USD 39M) already approved
- **5** technically cleared and with NDAs and DPs for final iteration
- Of remaining 10 proposals, **9** with NDAs and DPs, and **1** (Tuvalu) with GEF Sec.

PORTFOLIO OVERVIEW

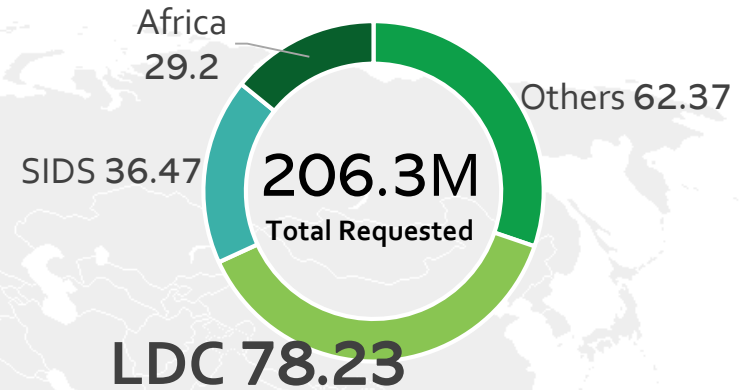

Adaptation Planning

10 NDAs have received independent technical assistance to formulate proposals with national or regional delivery partners

Breakdown (LDC, SIDS, Africa)

(27 November 2019)

Status	# of proposals	USD Value
Total Requested	84	206.3 M
Approved	52	124.3 M
Technically Cleared	8	21.7 M
Various stage of review stage (with GCF Secretariat)	24 (4)	59.9 M (8.99 M)

PORTFOLIO BREAKDOWN - LDC

Status (as at 1 June 2020)	# of proposals	USD Value
Total	32	78 M
Approved	17	39.3 M
Technically cleared	5	12.7 M
Various stage of the review stage (with GCF Secretariat)	10 (1)	25.8 M (3 M)
Disbursements	14	13.99 M
Countries receiving TA support	Chad, Mali, Tuvalu	

SUPPORT ON NAPS

Pace of approval of LDC proposals:

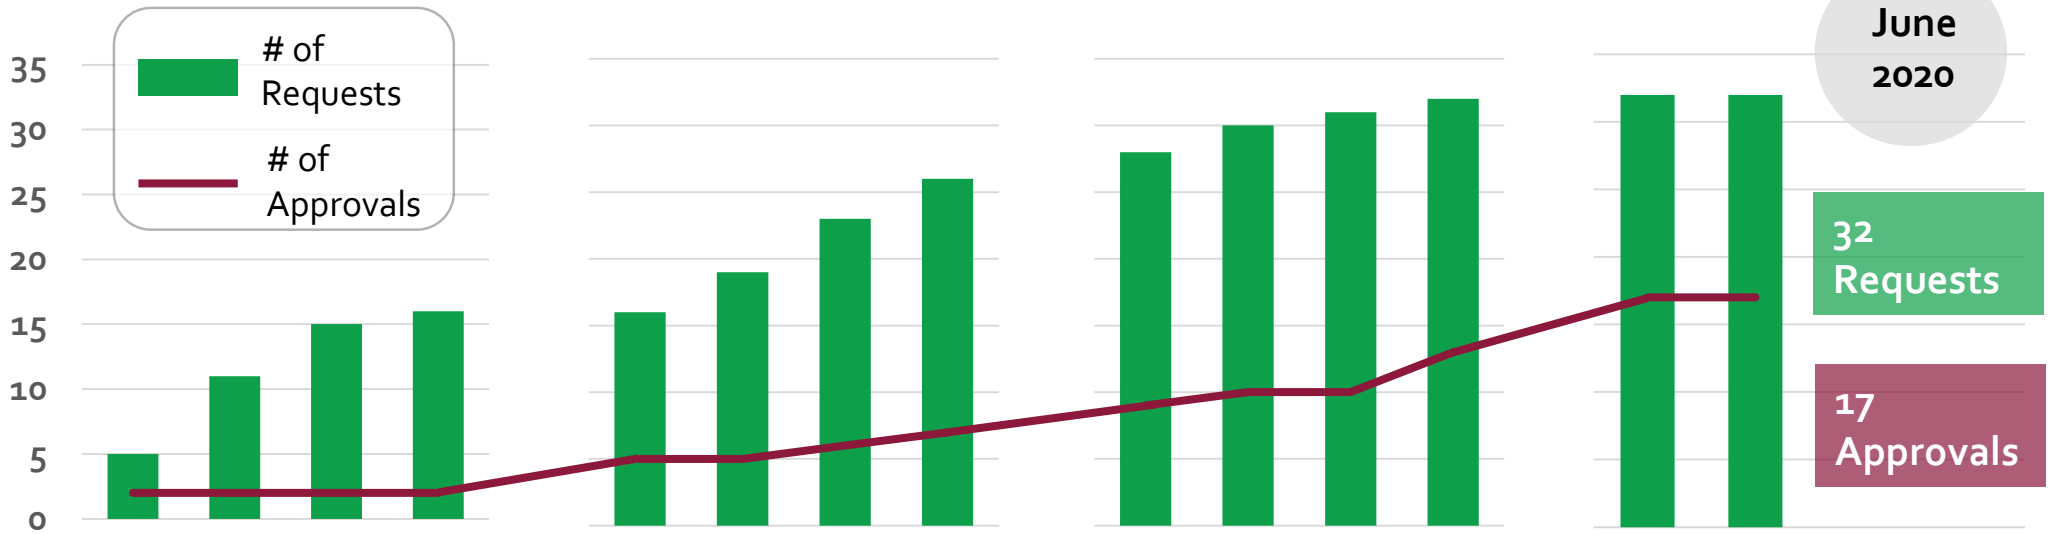

- Steady increase
- 2 of 15 approved in 2017 → 17 of 32 approved so far in 2020
- 4 approvals since beginning of 2020 (2 in March)
- Secretariat remains committed to review and approve expeditiously
- The impact of COVID-19 is moderate-low

**Feedback from countries not forthcoming on covid-19 impacts.
Needed to provide strategic support**

LDC APPROVAL PROGRESS

GCF Board adopted a decision to support adaptation planning processes via Readiness Programme

LIST OF APPROVED LDC

1. Liberia - 2017
2. Nepal - 2017
3. Democratic Republic of the Congo – 2018**
4. Niger - 2018
5. Bangladesh - 2018
6. Mauritania - 2018
7. Bhutan - 2019
8. Benin - 2019**
9. Malawi - 2019
10. Haiti – 2019
11. Madagascar – 2019**
12. Somalia – 2019
13. Chad – 2019*/**
14. Rwanda – January 2020
15. Myanmar – February 2020
16. Guinea – March 2020**
17. Zambia – March 2020**

STATUS OF ACCREDITATION OF LDC ENTITIES

- **Asia:** 2 DAEs in Bangladesh; 1 DAE in Bhutan
- **LAC:** 2 nominated – Haiti
- **Africa:** 2 DAEs (Rwanda & Senegal)
- **Challenges:**
 - Capacity to develop good funding proposal (post accreditation gaps and needs)
 - Assessment of gaps to better understand (apply Readiness support)
- **Support:**
 - Revamped PPF procedures - assistance for proposal development.
 - Increase focus on expansion of PPF for DAEs - good CN to access PPF
 - Collaboration with other Funds (ongoing initiative on CPDAE - Community of Practice for Direct Access Entities with AF)

ENSURING PROGRESS IS MAINTAINED WITH COVID-19

Status

- Not experiencing significant delay in resubmissions
- Challenge in getting feedback from NDAs and DPs on COVID-19 impact
- TA support undersubscribed
- Small cohort of national or regional Delivery Partners in adaptation planning
- Implementation challenges (delivery partner-country agreements, procurement)
- Heavy reliance on external support

ENSURING PROGRESS IS MAINTAINED WITH COVID-19

Strategies:

- Constant follow-up once review sheets are shared. Open lines of communication
- Priority action e.g. TA Support (Mali, Tuvalu, Chad)
- Encouragement to utilize national/regional DPs. Greater likelihood of understanding local context and formulating transformation proposals
- Technical clearance meetings - weekly schedule
- Multiple sequential proposals – address urgent matters, validate later actions, better manage capacity for implementation

ESSENTIAL PROGRAMMES FOR CONSIDERATION

- **Climate information services** and **early warning systems** – help to strengthen evidence base for decision making
- Technical **capacity development**
- Sub-national / regional / local **adaptation planning coordination** mechanisms
- **Integrating solutions** on priority sectors e.g. water and health; coastal ecosystems and livelihoods, agriculture and water, urban and watershed ecosystems
- Increase **private sector and civil society partnership** in adaptation
- **Financing strategies and concept notes** development – leveraging USD 3M window
