

SBSTA agenda item 8(c) – GHG Data Interface

SBSTA
38

- Parties requested the secretariat to make the necessary technical changes to the data interface **should** revised Annex I reporting guidelines be adopted at COP19

SBSTA
39

- Following adoption of decision 24/CP.19, SBSTA reiterated request to implement necessary technical changes by June 2015, **subject to availability of resources**

SBSTA
43

- Financial resources received were insufficient to complete changes, hence consideration of the item was deferred to SBSTA 44

SBSTA
44

- Progress made was presented – **upgrade of Time Series and Global Map**
- Agreement on further development of the GHG data interface was not reached

SBSTA
45

- Progress made was presented – **upgrade of GHG profiles**
- Agreement on further development of the GHG data interface was not reached

SBSTA
46

- Progress made was presented – **upgrade of Detailed data by Party**
- Agreed to continue consideration of the item at SBSTA 50

- Upgrade of Comparison by category, Comparison by gas, Flexible Queries and User-defined indicators

Status of upgrade of the modules of the GHG Data Interface

Modules	Status	Timeline
Time Series - Annex I	✓	May 2016
Global map - Annex I	✓	May 2016
GHG profiles		
Annex I	✓	Nov 2016
Non-Annex I	✓	Nov 2016
Detailed data by Party (Annex I and Non-Annex I)	✓	Dec 2016
Comparison by Category	✓	Nov 2017
Comparison by Gas	✓	Nov 2017
Flexible Queries		
Annex I	✓	Feb 2019
Non-Annex I	✓	Feb 2019
User-defined Indicators		
Annex I	✓	Mar 2019
Non-Annex I	✓	Mar 2019
Compilation and accounting data (KP)	×	Work to start in second half of 2019

1. Upgrade of the Compilation and accounting data module (KP data)
→ *work to start in second half of 2019*
2. How to reflect the information provided by non-Annex I Parties using the 2006 IPCC Guidelines? → *currently 47 Parties*
