

Regional Collaboration Centre – Dubai

Promoting Climate Action in the  
Middle East, North Africa and South Asia

## MENA Climate Week Project Overview

The Middle East and North Africa (MENA) Climate Week will act as a platform to advance organizations' work by engaging with key regional actors and play a critical role in bringing regional needs and outcomes to the global climate change processes.

MENA Climate Week 2020 is envisaged to be convened in Q4 of 2020 in Dubai, UAE.

# THE NEED

Partners and key regional players have expressed a need for a multipurpose regional platform to bring together different stakeholders from the MENA to engage on climate action, improve technical capacity in the region, increase awareness, and facilitate the sharing of knowledge.

The Middle East and North Africa (MENA) Climate Week will help to foster engagement between the public and private sector, cities and municipalities, academia and civil society with the common goal of addressing the climate emergency, and provides an opportunity to discuss climate action, key vulnerabilities and challenges from a distinct MENA perspective.

## MENA Regional Climate Week

# TAKE PART IN

### Side Events

Side events provide opportunities for organizations, especially in the private sector, to conduct an hour long session on topics aligned with the agenda.

### Action Hub

Action Hub provides a platform for Non-Governmental Organizations, Intergovernmental Organizations, Governments, Youth Organizations, as well as Educational Institutions from the region to showcase innovative climate action and ideas in 15-30 minutes on a stage.

### Exhibition Booth

Exhibition booths provide opportunities for organizations to showcase their work.

### Knowledge Corner

Knowledge Corner provides Non-Governmental Organizations, Youth Organizations, as well as Educational Institutions with a shared booth to exhibit their work.

# OBJECTIVES

MENA Climate Week will be part of the umbrella of Regional Climate Weeks, held annually in Africa, Asia-Pacific, and Latin America and the Caribbean regions.

The Climate Weeks are fast emerging as one of the most important platforms for bringing together regional stakeholders and supporting climate action at the regional level.

MENA Climate Week aims to:

1. **Provide** regional and global stakeholders a platform to showcase climate action in the MENA
2. **Recognize** global and regional efforts of the MENA to combat climate change
3. **Offer** a platform to institutions for advancing their work by convening the engagement of key stakeholders in the region
4. **Create** connections with the other regional climate weeks

# GET INVOLVED

Interested stakeholders can provide substantive support to the creation of the event agenda, provide financial or in-kind support to organize MENA Climate Week and/or participate in the organization of affiliated events such as side-events, action hub, pre-conference events, etc.
