

Report-back: Group #2

1. Best practices and lessons

learnt

- Work with civil society and community groups, particularly in adaptation
- Direct access to multilateral funds

2. Challenges and gaps

- County capacity to create proposals and structure their systems to meet requirements of multilateral and bilateral institutions
- Ensuring climate flows reach local communities
- Define climate finance, incremental costs of adaptation

Report-back: Group #2

Actions/collaborations required to replicate the best practices and overcome the challenges

- Harmonization of requirements by various funds
- Holistic approach (e.g. SDGs)
- Working with local communities and appreciating different types of knowledge
