

SUMMARY OF DISCUSSIONS

SESSION II (BREAKOUT GROUP 1) WAYS AND MEANS TO ASSESS NEEDS AND PRIORITIES AT THE **NATIONAL LEVEL**

SUMMARY OF DISCUSSIONS : NATIONAL LEVEL

- It is important for a country to prioritize its needs in terms of adaptation and mitigation in order to effectively manage climate finance flows. Communication between and among the governments and donors is vital positively affecting people's lives.
- Since experiences of countries vary, access to right information and climate science should be facilitated. The capacity and technology to process these information should also be considered and contextualized in each country.
